

TELLS HOW U. S. IS TRAINING TROOPS

Camp Life Interestingly Told by Harrisburg Boy Now at Camp Gordon

With splendid conditions existing at Camp Gordon, Ga., the following letter was received by a prominent Harrisburg woman from her nephew who is stationed at Camp Gordon.

The letter would indicate that Camp Gordon is a "model camp" and that all the soldiers stationed there are perfectly satisfied with all conditions.

Headquarters Company, 327th Infantry, Camp Gordon, Atlanta, Ga.

Dear Aunt:—Sunday down here is the only time we have for intellectual pursuits among which I now class letter writing; so your letter has remained until to-day unanswered.

I am continuing to enjoy camp life, and find that I am less inclined to be homesick here than I was in Camp Upton.

Camp Gordon is certainly a fine cantonment. Perhaps the daily life here is more interesting to you. We rise every morning at the 5 o'clock bugle, hustle into our clothes, and assemble under the stars for roll call.

On Saturday mornings we have division review, passing by regiments, in company fronts, before General Swift and his staff.

Last week Governor Brumbaugh was guest of honor at the review. Saturday afternoon is free, but we procrastinate privately generally leave our week's accumulation of socks and handkerchiefs to be washed at this time.

"At present, you see, the life here seems more like a vacation than anything else; but we know that sterner times are coming, and I feel sure that when we get to the trenches, everybody will do his duty, and that the National Army will be one of which the country may well be proud.

I wonder whether Grandfather ever knew General Swift; I have heard that his father was in the Civil War on the Northern side.

Please give my best wishes to all my near relatives in Harrisburg. Affectionately, CLINTON MINDIL, Headquarters Co., 327th Inf., Camp Gordon, Ga.

Men at Camp to Have New Chance For Exemption

Camp Meade, Md., Nov. 28.—Major General Kuhn yesterday received a special memorandum from Washington announcing that all men now in the Selective Army who claim that they have not had a full and fair opportunity to be heard by a local or district board, or who claim that the board has exceeded its jurisdiction, or substantially violated the law, are to be permitted to make application to the commanding officer of their mobilization camp within seven days after their arrival to be discharged.

The commanding officer is authorized to request the Adjutant General of any state to investigate the facts of any such case and the circumstances of its hearing.

"I FELT LOGGY AND NERVOUS" HE STATES

Car Inspector Thought His Heart Was Going Bad and Nerves Were Upset

TANLAC FIXED HIM UP

"Tanlac sure is the real stuff," exclaims Grover C. Broderick, a car inspector, who lives at Lemoyne, Pa., near Harrisburg.

"I tell you I was worried, I felt so dopey all the time and I thought my heart was going back on me for it used to have a queer way of jumping and thumping and every now and then it would miss a beat and I'd feel weak and faint.

EXPECTS GUARD TO BE SENT TO FRANCE SOON

[Continued from First Page.]

MAJ. GEN. CLEMENT

The very winds were charged with awful torment and destruction.

On the 28th day of October, his birthday anniversary, he was so near the battle lines that one of the French officers informed him that if it were a clear day, instead of being

rainy and cloudy, he would have been extremely lucky to have left the place alive.

Within a radius of an eighth of a mile the earth was frequently rent with great shell holes.

On account of the general darning of the atmosphere, rain falling nearly every day, the water in the trenches, and no heat from the men relieved from duty, respiratory diseases run rife.

Prisoners captured in actual fighting are often brought back over the lines with their clothing torn into rags, due to their coming into contact with the barbed wire entanglements.

At one of the fighting fronts he saw several engagements. At one time he sat with a French commander in a battle.

Two Feet of Mud

France has been churned into a clay pit, the General says.

The General saw many German prisoners. At one interment camp he and his aid, Theodore D. Boal, of Boalsburg, were sighted by the Germans, who cried "Americans."
