Politics in Pennsylvania

By the Ex-Committeeman

as practicable from the firing filte.

Nobody knows where Gardner is or what he is doing. He quit his office in Congress and went to the colors, but he has been so placed in the service that no one ever hears of him.

The wet blanket has been thrown upon intelligent patriotism.

When a Congressman is to be elected to fill a vacancy, the spokesmen of the administration go out with the word that the President wants a Democrat elected. The man who declared that "a vote for a Republican is a vote for Prussianism and the Kaiser," is in favor at the White House.

Senator Boies Penrose last night at Washington took advantage of the at Washington took advantage of the at Washington took advantage of the attention Pennsylvania politics had attracted at the national capital to be Brumbaugh administration. The assign with was made in the form of a vigorously worded interview in which has been the burden of his vitrolic comments the last few weeks. He gave no intimation as to whom he favored for the gubernatorial nomination, but let it be known that he proposed to contest with the state administration forces every point in next year's primary cambiant of the colors, but he was made in the form of a vigorously worded interview in which the Senator referred only casually to the situation in Philadelphia which has been the burden of his vigorously worded interview in which the Senator referred only casually to the situation in Philadelphia which has been the burden of his vigorously worded interview in which the Senator referred only casually to the situation in Philadelphia which has been the burden of his vigorously worded interview in which the Senator referred only casually to the situation in Philadelphia which has been the burden of his vigorously worded interview in which the Senator referred only casually to the situation in Philadelphia which has been the burden of his vigorously worded interview in which the Senator network of the Strumbaut was made in the form of a vigorously worded interview in which the Senator h Senator Boies Penrose last night

publican is a vote for Prussianism and the Kaiser," is in favor at the White House.

The cabinet is as solidly Democratic as ever. The newly-appointed delegation to the conference of the Allies is Democratic. The Committee on Public Information is Democratic. The War Exports Trade Board is Democratic. The non-partisan tariff commission is Democratic. Partisanship rules supreme. There is no sign whatever of any intention of the President to change his policy in this regard, but if by any chance he should do so, it may be safely predicted that he will go the limit, and, when desperate circumstances make such action neces-

board will do much to give the public confidence in the desire of that body to do its best for the taxpayers. Mr. Enders was elected to the board on a reform ticket. He has been a forceful and conscientious school director. He is well known in business circles and is held in high regard, especially in the West End of the city, where he has been identified with every forward municipal movement for many years.

Evening Chat

State pure food agents are check ng up reports of deposits of eggs in the cold storage warehouses of Penn-sylvania preliminary to a move to force the eggs stored in April to be placed on the market before the end of December when the nine-month limit will expire. Several millions of dozens of eggs were placed in storage in the middle of April, it is estimated here, and the time for cold storage ends on the corresponding day in December. "Every egg that has stayed its limit in cold storage will have to come out. We are taking steps that will result in such eggs being placed on the market we hope," said Commissioner James Foust. "There are millions of dozens of eggs in storage which could just as well be put into the markets and we will not allow an egg to remain a day in storage beyond the time limit." State food agents have been keeping close tabs on the warehouses in Philadelphia and Pittsburgh, where the last reports showed the bulk of the eggs were stored and reports have been received on every deposit. Close watch is also being kept on the butter in cold storage as the time limit is ten months.

"Meatless and wheatless days have limit will expire. Several millions of "Meatless and wheatless days have some of us restaurant keepers almost crazy," said a well-known Harrisburg restaurant keeper yesterday. "In some of the larger places where prices are higher and the margin of profits greater the situation is not so

some of the larger places where prices are higher and the margin of profits greater the situation is not so difficult, but it is hard indeed, where there is no liquor license to swell profits and where what money we make is largely through cleverness in handling the foodproducts we sell. "Take for example our wheatless days. I bake my own bread. What is not used one day we use the next. But we have no means of carrying it over in good condition to the third day. If we serve no whitebread on wheatless days we must let what is left over from the day before go to the slop barrel, for it is too stale for our patrons on the third day. This, I take it, would be to save at the spigot only to waste at the bunghole and would be bad business from any standpoint. I used to give so much bread with an order that quite a lot went to waste. Now I have cut down on quantity, still giving the buyer all he requires, and have thereby saved a barrel of flour a week. This is more than I would have saved by one wheatless day, but my patrons do not understand and some of them think I am not patriotic because I do not serve corn bread exclusively on wheatless days. What am I to do? I ask the authorities and get no practical reply."

"Meatless days are also a problem," continued this same restaurant

with a late to do? I ask the authorities and get no practical reply."

"Meatless days are also a problem," continued this same restaurant man. "I intend to solve the difficulty by suggesting on the menu card that patrons observe meatless days, but if they insist I suppose I will have to give them what they want or lose their patronage. I believe the burden of the decision ought not to be put solely upon the dealer but should be shared by the "Perhaps," snow."

From all accounts Dauphin county in spite of the fact that it is an industrial district with varied lines of activity has originated comparatively few compensation cases which have been appealed according to people at the State Capitol. Most of them have been adjusted by the refrees. There has been nothing like claims which have come from smaller counties. One of the reasons is the promptness with which claims have been settled.

BELGIUM'S ARMY

(Bhiladelphia Record)

How an official Belgium exists a good deal of a mystery. Of course money is supplied by the allies—we have been providing \$7,500,000 a month — but there is a real Belgian army. Only 60,000 were left after the battle of the Yser, but it is said by the Belgian Minister of War to comprise now 10 divisions, 125,000 to 140,000 men.
