THE LAST EXAMINATION OF WAR'S DRAFT

Many a man has fallen down because a test of his water showed unmistakably that he had kidney disease.

"The kidneys are the scavengers and they work day and night in separating the poisons from the blood. Their signals of distress are easily recognized and include such symptoms as backache, depression, drowsiness, irritability, headaches, dizziness, rheumatic twinges, dropsy, etc.

"The very best way to restore the kidneys to their normal state of health and cure such symptoms," says Dr. Pierce, of Invalids' Hotel, Buffalo, N. Y., "is to drink plenty of water and obtain from your favorite pharmacy a small amount of Anuric, a soluble strength, which is dispensed by almost every druggist. You will find Anuric more potent than lithia, dissolves uric acid as water does sugar. Send Dr. Pierce 10c for trial pkg.

PHILADELPHIA, PA.—"About one year ago I had some trouble with my back in the region of kidneys. I never felt the least pain in my back, or anywhere. I keep a bottle on hand so I can take a few every month or so, for prevention is better than cure."—W. G. MACMILLAN, 323 N. 39th St.

WAMPUM, PA.—"I was afflicted with my kidneys and my back hurt me so intensely at times that I could hardly endure it. I had to arise four and five times in a night. I sent for Anuric and am entirely cured now and am feeling fine; can do lots of work. I have just passed my 76th milestone. If you are troubled with your kidneys, advise you to get Dr. Pierce's Anuric Tablets; they cured me and should cure you."—MRS. E. L. FOSTER, Box 85, Route 2.

REGISTRATION OF WOMEN FOR WAR WORK AT ENOLA

Booth Placed in Y. M. C. A. Building Where Names May Be Listed For Official Record of Woman Power of Community

Enola, Pa., Dec. 5.—Registration of women for work in the Women's Council of National Defense will be continued by the local registrars for the next several weeks, at a booth placed in the Y. M. C. A. building. So far the committee working in Enola has met with comparative success. Because so many women interviewed on the subject are not acquainted with the purpose of the move, Mrs. Charles F. Miller, chairman in charge for Enola, has issued instructions to her assistants, who in turn will explain them to the public. A summary of the instructions follows: That the registration is voluntary and the purpose is to secure an official record of the woman power of the country so that in case of emergency the Government may know who to get to work. The registration is not designed to take women from their homes at any time, unless they are able and willing to serve. No fee or contribution is required in the state. Some of the objects of the registration are: To furnish accurate information to the Government of the capacities in which women are now serving, whether in their own homes or in paid pursuits, trades or professions. To have in each community classified lists of women who are willing to be called upon for trained or untrained services. To list the women who wish to take training in order to give more efficient services, and to be able to place women who can volunteer their services in positions of usefulness in many fields. A number of points to be emphasized are that the registration is voluntary, and women will not be drafted into Government service. Women will not be taken from their homes for Government service either here or in Europe, unless they definitely offer themselves for such service. All women should register for what they are doing now and what they have trained to do. Registration along industrial lines is not intended to remove women from their present positions nor to permit them to be exploited, by unauthorized appeals for war service. The demand for women to fill official positions is much greater than the supply. All women above sixteen years are eligible to register.
