Like A Boy at 50 Bubbling Over With Vitality—Taking Iron Did It

Doctor says Nuxated Iron is greatest of all strength builders—Often increases the strength and endurance of delicate, nervous folks 100 per cent. in two weeks' time.

BOSTON, MASS.—Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for the insurance company. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man. In fact, he was taking Nuxated Iron and had filled him with renewed life. At 30 he was in bad health; at 40 he was careworn and nearly all in. Now at 50, after taking Nuxated Iron a miracle of vitality and his face beaming with the buoyant of youth, in fact, I have said a hundred times over, iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel weak or rundown, instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages I am convinced that in this way they could ward off disease, preventing it becoming chronic in thousands of cases and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble and other dangerous maladies. The real and true cause which more or less weakened condition brought on by lack of iron in the blood, iron is absolutely necessary to enable your blood to change food into living tissue. Without it, your food merely passes through you without doing you any good. You don't get the strength out of it and as a consequence you become weak, pale and sickly looking just like a plant that is not growing in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while, double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles, in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prizefighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the arena, while many another has gone down to inglorious defeat simply for the lack of iron.—E. Sauer, M. D.
