

Clothing For 30 Little Girls Is Badly Needed

Persons in Harrisburg who have anything to give in the way of clothes for thirty little girls from this city now being cared for in the sanatorium at Mt. Alto and Cresson should get in communication with Dr. C. R. Phillips, physician in charge of the dispensary, 106 North Second street. As announced by Miss Anna Hart, in charge of the statistical work for the state, these children are in need of shoes and stockings, remnants of materials such as outing flannel, muslin, calico and dress material of any description out of which can be made underwear and clothing.

The state looks after these unfortunate children in ample fashion, nursing them back to health with good food. But all of them have to be clothed and in many cases the parents are not able to do anything so that the institutions, which have no appropriation for clothes from the state, must call upon the public charity. Many of the children, helped by the nurses, learn to sew and make things for themselves. Harry C. Ross materials to slip into garments both for their sleeping quarters and to wear in the day time.

PERSEVERANCE LODGE ELECTS OFFICERS

The following have been elected officers of Perseverance Lodge No. 21, F. and A. M., for the ensuing year: Worshipful master, Edgar W. Walton; senior warden, John C. Johnson; junior warden, Lawrence L. Ferree; secretary, John K. Royal; treasurer, Charles H. Hoffman; trustees, Clarke E. Diehl, Harry C. Ross and George E. Whitney; representative to the grand lodge, Warwick M. Ogelsby.

SELF DEFENSE

Defeat Backache and Kidney Trouble With Anuric

Many people in Pennsylvania have suffered from rheumatism and kidney trouble and have found Anuric to be the most successful remedy to overcome these painful and dangerous ailments.

The lucky people are those who have suffered, but who are now well because they heeded nature's warning signal in time to correct their trouble with that wonderful new discovery of Dr. Pierce's called "Anuric" (double strength). You should promptly heed these warnings, some of which are dizzy spells, backache, irregularity of the urine or the painful twinges of rheumatism, sciatica or lumbago. To delay may make possible the dangerous forms of kidney disease, such as Bright's disease, diabetes or stone in the bladder. If you want quick relief buy now—send Dr. V. M. Pierce, Buffalo, N. Y., 10c for trial pkg. This will prove that "Anuric" eliminates uric acid as hot water melts sugar.

Many thousand Pennsylvanians agree with Mr. Good who says:

Nescospeck, Pa. — "In regard to the trial package of 'Anuric,' double strength, would say, that I have never taken any medicine that helped me more. I had been troubled with kidney trouble and lame back so that I could not walk straight, and was not feeling able to do anything, but after taking the Anuric Tablets I feel like a new man. I am 67 years old and have worked all summer, and give Anuric the credit for it. I would say to all that have kidney trouble, try Anuric." — JACOB GOOD, Nescospeck, Pa.

TOBACCO IS THE GREAT NEED OF YANKS ABROAD

Nothing Tastes So Good as American Smokes to American Fighters

Let the soldier for fame and a general's name
In battle get many a thwack—O!
Let who will have most, who will rule the roost—
Give me but a pipe of tobacco!

Those old writers had the right idea. This little verse was scribbled by Henry Fielding, one of England's pioneer novelists and a very human gentleman. If Mr. Fielding were alive to-day you can wager that he would be using his wonderful talents to stir up the public to generosity in tobacco giving. And just look what liberties he took with the English language; he must have been hard pressed for a word to rhyme with tobacco—thwack—O! But that did not bother him. He was speaking from profound depths of his nature and was using to do was to get the thought over.

Some of the Yankers over in France to-day, though without Fielding's reputation, convey the same idea in rather more vivid language. For instance listen to our friend Tom Reilly, Reilly of the Engineers, who tells us first about how he and fifty other Yankers have been in digging ditches for three months in water up to the waist and then: "I could write from now on to kingdom come and couldn't get the words for good tobacco tasted. We just sat around all that night puffing and sayin' every once in a while 'holy smoke.'"

Send your contributions to the Telegraph, and have them forwarded immediately. You will receive in return a personal acknowledgment which will more than repay you for any trouble or sacrifice.

The following contributions have been received for the Telegraph's tobacco fund:

OPPOSES CHURCH RALLY

Bishop Removes M. E. District Superintendent From Post
Los Angeles, Cal., Dec. 12.—The Rev. E. P. Ryland, a district superintendent of the Methodist Episcopal church, will be removed from his post next Monday and assigned to some other duty because of his unwillingness to support the church's patriotic attitude. It became known here today.

Bishop Adna W. Leonard, who announced the change, said the decision was made when Doctor Ryland found himself unable to assist in a proposed series of patriotic addresses. Doctor Ryland concurred in the step.

ARMY NEEDS BRICKLAYERS

Recruiting Officers Get Orders to Enlist All They Can Get
Washington, Dec. 12.—Instructions to enlist in the Army as many bricklayers as possible have been sent to recruiting officers throughout the country. These men will be sent to a concentration camp in the South for a short time and then to France to work on the American airbases.

WOMEN ON DEMOCRATIC COMMITTEE

New York, Dec. 12.—The executive committee of the Democratic state committee yesterday adopted a resolution under which fifteen women members will be added to its present membership of twenty-one men.

PARK EXTENSION TO START WITHOUT DELAY

[Continued from First Page.]

highway which is to traverse the park extension on a line from Aberdeen and East streets, which will be the main highway across the park and where the trolley line will run.

To arrange for the gradual filling in of the remainder of the extension where cleared so that trees may be planted next year.

The City's Part

To covenant with the city of Harrisburg to give the space now occupied by the sidewalk on the park side of Third street and strips of varying width of park to the city for highway purposes so that Third street shall be sixty-four feet wide.

To ask the city to establish a future building line for North street from Third to the railroad on the north side so that it shall also be a sixty-four foot wide street. This does not contemplate immediate demolition of any property, but is to govern future building.

To arrange for widening of Walnut street along the same plan as for Third street.

To have plans made immediately for the low coping to be the base of the entrance in Third, North and Walnut streets.

To begin work as soon as plans can be made for the "circle" at Third and Walnut streets which is to be a joint city and state enterprise and be the lower official entrance to the park.

To start studies for the formal entrance at State street, where future ceremonies will be held. This monumental entrance will be of granite and in keeping with the Capitol.

To prepare specifications for the widening of the plaza to a space close to the line of the Hartranft statue which is to be placed at the Third and North street entrance.

Bridge at State Street
The board formally went on record that the bridge voted by the city of Harrisburg should be placed at State street and will call upon the city to take the necessary legal steps to have the location changed. This bridge will be part of the general plan and the state will take care of the approaches and esplanade within the park, the railroads where it crosses their tracks and the city rest. It is believed the city loan will cover its part and that the railroads will co-operate.

The railroad lines will be adjusted later on. Straightening of tracks is being considered. The belief is that the new station will eventually be placed on the south side of Walnut street between Constitution street and the railroad with possible inclusion of the United States Hotel.

40,000 Yards of Fill
Mr. Seiner has contracted for 40,000 cubic yards of filling to start the work. This will be taken from various industrial plants and the new street will begin just to the west of the Technical High school, on the line of Aberdeen street. This work will be pushed throughout the winter.

For the present the old warehouses in the extension will be retained for storage purposes.

The members of the board are a unit in favor of the completion of plans and a start of the work at once. The Legislature made an appropriation of \$2,500,000 for the park and public sentiment throughout the state, as evidenced by men who come here from all of the counties on official business, is that of besting the dignity of the Commonwealth and the finest in the land should be created.

MUNITIONS PLANT IN DELAWARE IS BURNED

[Continued from First Page.]

burned like tinder, and as the flames reached the loaded shells the latter began to explode and occasionally one would be hurled out of the building.

Head of Guards Killed

One man, Theodore Jacobson, of Harrison, N. J., the chief of guards, was killed, his head being blown off by one of the shells.

So far as could be learned, no other persons were hurt either in the fire or because of the explosions, while several were slightly injured in other ways. Several were slightly hurt while running to escape the danger or to help somebody else, but none of the cases, as far as is known, was serious.

Ambulances were quickly summoned from Wilmington, while physicians were also called from this city and New Castle.

Many Workmen Absent
Due to the fact that through an accident on the trolley line, the current had been shut off, about 500 persons employed at the Bethlehem works had not reached the plant. Many of them were in the car from Wilmington which usually reaches the plant at 8 o'clock, but which was held up on the way.

It also was fortunate that the fire broke out at 7:55 o'clock which was five minutes before starting time. This being the case, hundreds of operatives were on their way to work at the time but had not reached the plant when the fire started.

The mill where the fire started had been temporarily closed down until the first of January and for the time being the building had been used only for storage purposes. Its chief function, in active operation, however, was to load and assemble the shells, but this work had been suspended for several days.

Because the loading building in which the fire broke out was isolated from the rest of the plant and protected by earthworks, other parts of the plant were comparatively safe, although several small frame structures in the immediate vicinity, such as coat houses, guard office and a new pay roll office, were in the wake of the destruction and fell a prey to the flames and the bombardment also.

The loss is not known but it is estimated that it might be close to \$200,000.

Fire Incendiary Is Belief
The burned building was an inexpensive affair, but it contained valuable machinery, in addition to the 15,000 loaded and 30,000 unloaded shells.

Nobody can advance any definite idea of the origin of the fire but the incendiary theory is prevalent. No machinery was in operation at the time and there was no fire in the building, which was heated by steam from the main power plant some distance away; therefore it is not likely there was any fire in a building or any activity that could have caused friction. But it is not known that anybody of a suspicious appearance was seen about the place before the fire.

Nearby residents, including the inhabitants of New Castle and other cities and towns, as far south as Delaware City and Port Penn, along the river, were terrorized for a time, in view of the succession of reports, caused by the exploding shells. Many persons and many houses had narrow escapes from the hurling missiles. Use McNeil's Pain Extremator—Ad. site, which flew in all directions.

Gift Suggestions of a Practical Nature

In recent years the custom of giving practical gifts that will endure as a lasting reminder of the donor's thoughtfulness has grown to such an extent that national organizations have been formed—every member pledging himself to give practical gifts at Christmas time and surely no gift could be more practical than furniture. Not only will it endure, but furniture gives pleasure to everyone. The gift of furniture will make the home brighter and cheerier not only this Christmas but many Christmases to come.

Here you will find hundreds of appropriate gifts for everyone, from the tiny toy for baby to a beautiful new Dining Room Suite or Bed Room Suite for Dad and Mother, and best of all, you needn't pay cash for your gifts, you can complete paying for them after the financial strain of the Holiday season is over.

Come in and see our gift shop.

The American Red Cross plans a drive for 38,000 members. Will you be one of them?
"A heart and a dollar is all you need."

Christmas Savings Checks, from all banks cashed here—Not necessary to make a purchase.

Genuine Leather Wingside Rockers \$29.75

Deeply upholstered over coil spring construction. Not only are these rockers upholstered in fine grade of Brown Spanish leather, but they are upholstered with the utmost care over coil springs, have deeply upholstered back and wing sides and broad arm rests.
