

FISH CODE GOES INTO EFFECT JAN. 1

Commissioner Buller Talks About the Provisions in the Latest Statute

Fishermen of Pennsylvania are warned that the new fish code passed by the Legislature will become operative on January 1 and every fisherman is urged to procure a copy and study it before going fishing by State Commissioner of Fisheries Nathan R. Buller in a statement issued to-day.

Every Meal a Poisonous Injection

Few folks suffering from kidney and bladder troubles ever think that the meals which they are taking are hastening their death. Every morsel of food taken gives up its quantity of uric acid. This poison is taken into the system through a diseased condition of the kidneys and bladder. In the healthy man nature provides an outlet for this poison. Those in ill-health must take a medicinal help to drive this death-dealing poison from the system. For over 200 years GOLD MEDAL Haarlem Oil Capsules have been doing this work. They effect prompt relief in all diseases arising from kidney and bladder troubles. Do not put off this vital matter of attending to your health until it is time to make your funeral arrangements. Buy a box of GOLD MEDAL Haarlem Oil Capsules 10-day. Look for the genuine. Your druggist sells them. They are guaranteed or money refunded. Insist on GOLD MEDAL Brand.—Advertisement.

that fishermen should know that all devices except a single rod and line are prohibited for game fish. Food fish may be taken with rod and lines and one hand line, but they must be under immediate control at all times," said Commissioner Buller. "Provision is made for the taking of shad in the Susquehanna during the season with seines or net under a license to be issued by the Department of Fisheries."

Mr. Buller says that people should also know that the code forbids the buying or selling of any brook trout or any species of trout, except lake trout; or any small or large mouth bass, except those artificially propagated and sold under authority given in the code.

The department statement asks cooperation in enforcement of the code and adds that "it is necessary to limit and restrict the methods of taking fish from our inland waters on account of the increased number of fishermen and the easy access to all our lakes and streams by automobile."

Questions on Women—A questionnaire drawn up by Mrs. Samuel Semple, a member of the State Industrial Board and designed to keep the board in touch with the rapidly increasing employment of women in Pennsylvania industries, was issued last night to employers of the state. It is stated that the questions are asked because of war conditions and that an answer is called for military service "the tendency will be toward the increased employment of women in occupations that have not hitherto been considered women's work."

ed next week when hundreds of tons of cinder from industrial plants will be placed on the line of proposed highways. Hundreds of thousands of yards will be required and it is the plan to push this work so that the top covering can be placed next year and trees planted for each city and county on the proposed court which will be located east of the Capitol building.

Free Road Soon—State Highway Department officials expect that the section of the Old York road extending from Philadelphia's city line to near Hatboro, which was last night announced as optioned for the state, will be freed before the 1st of February. The papers are now being prepared and the money is in hand to make the payments as soon as formalities are finished.

Governor Leaves—Governor Brumbaugh left for Wrightsville this morning in the midst of a blinding snowstorm to make the address at the dedication of the cannon presented to that place by the United States government through efforts of Banking Commissioner Lafean. The Governor will later visit York and probably spend the weekend in Philadelphia.

Tearing Cards Is Dangerous—State health authorities have under way several prosecutions for removal of quarantine cards, the latest instance being in Chester county, where a man tore down a mumps quarantine card on his home and when he refused to pay \$27 fine and costs was sent to prison.

Police Named—The Milton Manufacturing Company of the United States secured the appointment of a number of special policemen for its works.

Sitting at Erie—Public Service Commissioner Riddling is holding hearings at Erie.

Snyder Investigating—Auditor General Snyder is conducting a series of investigations into county affairs in eastern counties. He claims that there should be more prompt payments to the state.

AT SIX YEARS, THIS TOT KNITS LONG AND HARD FOR SOLDIERS

The youngest war heroine of Dauphin county so far as anyone in the town of Dauphin has discovered is Marian Landis, aged six, the cutest little blond haired, chubby mite you ever saw who works day and night knitting for the soldiers. "Wait till I get to the end of this row," requested Miss Landis demurely when asked for a brief interview concerning her activities, and she could not be engaged until she had finished her twentieth pair of wrist warmers. A sister, age nine, Emily, to some extent divides the honors of Dauphin femininity for she too produces an extraordinary number of comforts for the boys in khaki, but Miss Marian being three years younger has the center of the stage. The girls are daughters of Mr. and Mrs. George Landis, and they, as well as the grandfather, George Potts, of Harrisburg, feel immensely proud of this patriotic industry of Marian and Emily.

Never a morning that Marian does not arise at 6 o'clock from her downy couch, no matter how cold the weather, and in a jiffy she is at the needles turning out something useful for the Sannees. Not only has she fabricated a couple dozen wrist warmers, but she has completed a quilt and is now tackling scarfs. When the people of Dauphin find themselves relaxing into weariness they step around to the Landis home and get engaged in a talk with Marian the Model Maid.

Ancient Thessalonica Salonica, in the days when St. Paul addressed his Epistles to the Thessalonians, was not modern, for it was built about 215 B. C., on the site of an older city called Therme, and it was named by its founder after his wife, a sister of Alexander the Great. It has always been a place of importance, as it is the chief harbor of Macedonia, and was a point on the ancient highway from Rome to the East. With a few fine buildings, like the old mosque which had been in turn a temple of Venus and a Christian church, it has always been a collection of houses largely of wood and, therefore, highly inflammable in the extreme continuous heat of summer.

- FOR FATHER The prettiest House Coat you ever saw for \$6.50, and some silk and wool plaited socks—very fine—at a dollar a pair.
FOR MOTHER A plain black Sweater of elegant quality—something she's been wanting for a long time—only cost \$6.50 and I got her a blanket Bathrobe too for \$6.50.
FOR BROTHER IN THE ARMY A regulation Sweater for \$8.50—a Comfy Hood for \$3.50—Wool Wristlets for \$1.00—a set of regimental Pajamas for \$4.00—a Woolen Scarf for \$2.00 and the heaviest Woolen Socks you ever saw, 3 pairs for a dollar—they certainly should keep him good and warm.

FOR SONNY He's been wanting a good Mackinaw to wear to school, so I went to their Boys' Department on the second floor and as soon as I had my eyes on the beautiful plaid material and saw how swell it was tailored, I bought it right there for \$7.50. Then they showed me a dandy Corduroy Suit with two pairs of pants for \$6.50 that I know will fit Sonny to a T so I bought it for him—also a Hockey Cap for 50c and a Trooper style Hat for \$2.50, so that ought to fix him up for a while.
FOR LITTLE SISTER Well for her I got one of those smart, new Shetland Wood Middy Sweaters at \$8.50 and 3 pairs of Holeproof Silk Stockings at a dollar a pair.
FOR YOU DEAR Then I went to the Women's Coat Department and selected what I consider the smartest Coat I've seen this season. While it isn't just the proper thing to do I'll tell you about it. It's of green Wool Velour with the most beautiful flowered silk lining—the fur collar (really a cape) is of the best quality Australian Opossum, with 8 large tails and the cuffs are of the same fur. Swell—well just wait till you see it. And if you must know it cost \$60 and looks like a hundred.
