MAGAZINES AND BOOKS NEEDED

Plan to Send Reading Matter to Yanks Training in Camps

Let Your Idle Books Help Our Soldiers

Your young men are sacrificing their education, business, professional training and home life to serve their country. They need books and current magazines for study, recreation and diversion in lonely moments. You can help them by donating books and magazines which will be forwarded to army camps, the front, and the hospitals. Books on the War, Popular Travel, History, Biography, as well as Short Stories, Detective Stories, Stories of the Sea and Adventure, are desired. Any readable book of general interest, will appeal to the soldiers as there are men of varying tastes among them. "DO YOUR BIT" by immediately bringing to THE PUBLIC LIBRARY such books as you wish to donate.

That soldiers may have plenty of books, magazines, and periodicals, the local Red Cross Society will receive literature and forward it to the soldiers. A large table will be placed in a room of the Fager building. Books and magazines will be forwarded to the boys in the trenches and in the camps.

The movement is a popular one. The Free Library Commission in the State Library will also receive books for the War Libraries, and at the S. S. Kresge store, on Market street. Winston Spencer Churchill

Winston Spencer Churchill, minister, has added his note of pessimism to those sounded within the last few days by others supposedly qualified to speak for the Entente. In a speech at Bedford he declared the situation was more serious than it had been reasonable three months ago to expect. The country and the allied cause, Colonel Churchill added, were endangered. The future of the British empire and of democratic civilization was hanging in the balance, and would continue to hang there for a considerable period. "When I say the country is passing through a time of danger," Col. Churchill continued, "I mean there are people who wish to bring about a premature peace. They are listening to the sophistries and dangerous counsel of certain politicians. People who say 'Restore your war aims' really mean to make peace with the victorious Hun."

By Associated Press

With the American Army in France, Sunday.—German and Austrian cigarettes are being smoked by the American expeditionary forces.

One variety bears the name of a Berlin firm while the other was made by a concern in Sarajevo. The appearance of the cigarettes caused considerable speculation until it was learned they had been turned over by the French when they discovered the American cigaret supply was running short. The French captured the cigarettes in the early days of the war and since they have been stored in a warehouse.

How Weak, Delicate, Thin Folks May Get Strong and Sturdy

ADVICE OF A SOUTHERN DOCTOR

There are three fundamental causes for weakness, thinness, delicate constitution, and a rundown condition, says Dr. Doudouque, the well-known New Orleans physician, author, who has traveled and studied extensively in France, Italy and Austria. First, depleted nerve substance; second, lack of red blood corpuscles, and third, the poisonous toxins in the system tearing down the flesh and strength. Most persons do not get enough exercise, king red blood building, tissue manufacturing and anti-toxic elements out of the ordinary cooked foods of today. What they need is substance like bloodiron salts, which has all these essential ingredients. Let those who suffer take bloodiron salts after meals for while, and you will soon see many of their old troubles disappear. The weak, thin, delicate folks often become strong and sturdy when drugs, oils, exercise and other methods fail. NOTE—The dose is two 5-grain tablets after meals, but where only strength and endurance are desired, and not added flesh and weight, only one tablet should be taken. Bloodiron Salts is dispensed in this city by George Gorgas, C. M. Fodney and all good druggists.

Woman Weighing Nearly 400 Pounds Is Thrown Head First Into Snowbank

York, Pa., Dec. 18.—When her sleigh upset last Saturday at Red Lion, near here, Mrs. Frank Bowman was lucky that it occurred in the borough where assistance was handy, or she would do doubt have frozen to death. Mrs. Bowman weighs nearly four hundred pounds, and when thrown from her seat she landed head down in a snow bank, where she lay helpless until rescued. Fortunately, a woman from a nearby house saw the horse standing near its prostrate owner, and summoned help, who managed to get Mrs. Bowman on her feet. This did not end their labors, however, as a chair had to be gotten at a nearby house to be used as a step for Mrs. Bowman to raise herself into the sleigh. Mrs. Bowman is said to be the heaviest woman in this section of the state.

MAY CALL ENTIRE BAR TO MEN'S AID

[Continued from First Page.]

son Stamm is chairman, the other two members, Paul G. Smith and John Fox Weiss. District No. 2 includes Charles C. Stroh, Chairman, James O. Hatz and Robert Rosenberg, with headquarters at 1509 State street. District No. 3 has its headquarters at 1646 North Third street, presided over by Judge George Kunkle with the other advisors, J. Armstrong Herman and Colonel Frederick M. Ott. The first thing done was to get the

tree chairmen together and discuss a method by which the government suggestion can be carried out, that is to have three headquarters where legal advisors will be present right through the day and evening. To accomplish this there is a plan on foot to call on the entire bar of Harrisburg to help out. Competent legal advisers will be assigned to each district to serve certain hours so that any time a man has time off he may be taken care of. It is very evident by the inquiries to-day from anxious and perplexed men that few are able to fully understand the questionnaire. To handle each case satisfactorily will require time and thought and for this the members of the Harrisburg bar must be to some extent trained before the boards will be able to give

high class efficiency. The three headquarters will probably be located at the addresses indicated, though even this is not sure.
