Thousands of service flags were sent out this morning, as were the new buttons and dangles. A corps of workers at Market and Court street headquarters was very busy to-day getting all the supplies packed for the ward workers. Better things are expected from the teams to-day because organizations have been perfected, and the men declared at noon that while the women ran ahead yesterday a different story will be told when the last returns are in to-night. "Well, we'll see about that," said the women. Few Are Refusing Here and there the workers are meeting with refusals, and it is particularly striking that no reason other than a plain "No" accompany these refusals. "Certainly," said one woman out Marke street this morning, "I'll

join. I have no sons in the Army. I have no daughters at all. But I feel that I have a personal interest in the hundreds of thousands of American boys who are going or have gone to France; and I'm going to evidence that interest by taking memberships for all the family. And a service flag with five Red Crosses in the window of that home.

What Harrisburg Has Done Harrisburg Chapter's activities since the war began have been on a very large scale. Mrs. Carl Ely, who is chairman of the packing committee, reports that 146 boxes and packages have been shipped, as follows: Emergency cot equipment, 12; to France, 81; to U. S. military relief, 20; to division supply warehouse, Philadelphia, 4; requisitions, 19. Detailed contents of the boxes include 3,751 pieces of patients' clothing, 6,862 pieces of hospital linen, 396 pieces of operating room linen, 50,408 surgical dressings, 4,800 knitted articles, 32 pieces of children's clothing, and 5,143 miscellaneous pieces; that was from April 1 to Nov 1.

In a letter of Mrs. Mercer B. Tate, chairman of the purchasing committee, shows that a total of \$24,066.02 has been expended for supplies of various kinds. In a letter of Mrs. W. Earle Mark, of the Redarmel apartments, Y. M. C. A., secretary, on active service with the American Expeditionary force in France, he says: "I suppose I have written one hundred letters and packed as many Christmas boxes for boys who wanted to send something home and were unable to do it themselves. It is wonderful the spirit in which messages are sent. Here they are wet, dirty, from knee deep in one solid coat of mud, living in barracks, working hard all day, yet they tell you to write them as having the time of their lives; that they are glad they are here, but they tell it to you in a way that reminds you of the little boy who swore because there was only one thing else to do and that was cry. No one can tell the joy in taking the place of father, mother, sister and brother for hundreds of homesick boys.

"If the folks home could only realize what men and women who are serving are doing for their boys they would double the amount of money they are giving. If it were possible to have on hand all that is needed many a young fellow could be kept from going down the line. "What a heroic race the French are—what wonderful fighters, never giving up, suffering all the time and never cast down. I cannot understand how they bear their burden and are so cheerful. By the way, there should be pockets on the knitted undershirts there is no hip-pocket in their trousers, so they have no place for their handkerchiefs."

NEWS OF STEELTON MORE COAL IS SHIPPED HERE WORKING HARD FOR MEMBERS

Two Carloads Arrive at Yards of Detweiler Brothers; More Expected The arrival of two carloads of coal in the borough this morning greatly relieved the serious coal shortage existing for almost a week. The coal was shipped to Detweiler Brothers. Another car is enroute and is expected in the next twelve hours. This shipment of coal will be sufficient to provide for about 250 families in half ton lots. This will temporarily relieve the situation, it was announced at the office of Detweiler Brothers.

Members of the committee are considering the proposition to send members of the boy scouts around the borough streets to request those who have joined the chapter to place the service flags in the windows. "If Steelton is to reach its slogan, every person must work untiringly the remainder of the campaign," a member of the committee said to-day. The total number of members obtained so far is very small compared with the other campaign, she continued. The majority of the canvassers are working hard while others are leaving the work go until later in the week. This is a bad mistake as the earlier a resident is induced to join the effort in the campaign will get another member, she said further.

Every effort is being made by committee members to stimulate enlistments. Members of the committee are instructing canvassers to impress upon the people the task Steelton has undertaken to accomplish and just what is expected of them. "Open Your Heart and Give Basket For Needy Family" Is the Appeal Baskets for needy families to be given as Christmas presents are wanted by the Associated Charities. An appeal for these gifts was made by members of the committee last night. "Open your heart and give a basket for a needy family," was flashed over the borough by charity workers. Miss Marie Wiseman, visiting nurse for the charities suggested this plan of spreading Christmas cheer among the poor at a session of the charities last night. All donations left at the charities last night. "Open your heart and give a basket for a needy family," was flashed over the borough by charity workers.

PARENTS MOURN FOR HERO SON [Continued from First Page.] burg Chapter of National War Aid have called to tender their condolence and assistance to the grief-stricken parents. Earl Aurand came of fighting stock. At the age of 17 he first enlisted in the Regular Army and at the end of his term returned home, enlisting later with the Governor's Troop for service on the Mexican border. Again returning home he re-enlisted in the Regular Army last June and was sent with his comrades to Europe. He was 24 years old and was well and favorably known among his fellows here. His commanding officer in reporting his death from wounds speaks in praise of his bravery and devotion to duty to the last.

Now that their boy has been taken the people of Harrisburg will not withhold the substantial aid which the parents manifestly need at this time. Mr. Aurand is out of employment and as his sight is seriously impaired and he is still weak from a surgical operation during the summer, which fact was withheld from their boy in France, he is not able to perform heavy physical labor. But there ought to be some light indoor work which will enable him to support in comfort the mother of a brave boy—the first sacrifice of Harrisburg on the battlefields of France. The Telegraph will be glad to hear of any employment which will suit the father in his present condition.

Bonuses For Pullman Men Will Include Harrisburgers Employees of the Pullman Company in Harrisburg will figure in a holiday gift of between 500,000 and \$600,000 will be distributed to 12,000 employees, according to Clive Runnels, assistant to the president of the company. Conductors and porters, as well as all office employes receiving less than \$2,500 a year, will receive a bonus of 10 per cent of their salaries during the last six months. P. R. P.
