Everything points to Santa being on time on that eventful night when "Not a Creature was Stirring" with his great pack of happiness for children. My, how the big dolls and little dolls, sleds, desks and hundreds of other things have been disappearing from Toyland — but such secrets cannot be revealed at this time or little ears may hear too much. But it is going to be a Merry Christmas for children, and grown-ups too, despite the war, and those who would have the little ones believe that Santa was scared away this Christmas on account of the noise of cannon, don' know what they are talking about. Well, just wait till Christmas morning!
