Insurance Board Must Give Consent

Officials of the State Insurance Fund Board said to-day that if Miles M. Dawson, the new York actuarial expert, detailed by Auditor General Charles A. Snyder to make an audit of the books of the fund, want to start work he will have to get the permission of the board in charge of the fund first. The chairman of the board is Harmon M. Kephart, the State Treasurer, who is ill at his hotel here. The board may not meet until January. If Mr. Dawson came here last night and inquired at the offices of the fund when he could begin, He was referred to the board. The Auditor General's Department declares that Dawson made no effort to secure the books, but just came to look over the fund. The fund officers say that he wanted to start in. Auditor General Snyder says that when the time comes the audit will be made. The fund officers have asked Attorney General Brown for an opinion as to the powers of the Auditor General to refuse to pay clerks unless he is shown that they are necessary, and the advice informally given by the chief law officer rather indicates that if Mr. Snyder persists in his attitude there will be a fight. Some of the people at the Capitol have started to get the permission of the board in blow at the compensation system, that is nonsense, as all he wants to secure is economy. STOCKS ARE WITHDRAWN All the stocks and bonds offered at public sale yesterday by the Commonwealth Trust Company were withdrawn without being disposed of. A number of bids were received but it was not deemed advisable to sell the securities at the prices offered.
