ELIZABETHVILLE 'OVER THE TOP'

Recent Red Cross Membership Drive Places 461 New Names on the Roll

Elizabethville, Pa., Jan. 3.—An animated with a true Christmas spirit and filled with a desire to make others happy, the citizens of Elizabethville promptly responded to the recent call issued for Red Cross members. Patriotism runs high in this borough, so that it required but little effort on the part of the various committees soliciting to far exceed the quota required.

It had been suggested that the town secure 400 members which it not only did, but went better by 61, thus totaling 461.

The campaign workers had been thoroughly organized and well advertised, which together with the untiring efforts of the committees brought about the successful result.

The committees engaged in the campaign were made up as follows: Ladies, Mrs. C. W. Cook, Mrs. C. C. McLaughlin, Mrs. Stephen Miller, Mrs. P. Blair Weaver, Mrs. H. W. Spacht, Misses Ella and Beulah Shultz.

Men, the Rev. C. P. Weiler, C. E. Deiber, the Rev. E. J. Heilman, F. P. Marguerin, the Rev. M. S. Mumma, Prof. H. J. Rothman, H. M. Miller, Dr. H. H. Collins, R. K. Bufington, Charles Blanning, Dr. William L. Stevenson and Dr. Joseph W. Shaffer.

Mrs. H. H. Hassinger and E. K. Romberger were chairman of the two committees.

ARMY DOCTORS SAY: RADWAY'S READY RELIEF Better Than ALL OTHER PAIN REMEDIES

A LETTER from Dr. Simpson of the Anderson Zouaves, N. Y. (62d Regt.), says:

"During the time our regiment was stationed on Riker's Island we were out of medical stores. I obtained some of RADWAY'S READY RELIEF and used it with greater success in the treatment of Bowel Complaint, Colds, Rheumatism, Chills, Pains, Aches and Soreness of the limbs than all other remedial agents."

This letter was also approved by Col. Riker, Lieut. Col. Tisdale and Gen. Oscar V. Dayton of the same regiment.

Masonic Homes Give New Year a Warm Welcome

Residents of the Masonic Homes at Elizabethtown will long remember New Year's week as the most informing and entertaining ever known there. The work of Col. J. Warner Hutchins, of Philadelphia, for twelve years grand marshal of the Grand Lodge, was a revelation to many. "It is not generally known," he said, "that the United States has at present in the Army and Navy 2,500,000 men, and 500,000 now on the other side. The government needs so much money because while England pays her men \$39 a year; France, \$40 and Italy, \$70, this country pays her men \$26 a year, with a pension of one-half more to the families left at home and an increase of twenty per cent. for foreign service." Colonel Hutchins said that when General Pershing was taken to the grave of General Lafayette, he made the most effective speech of the twentieth century, and what he said was: "Lafayette, we are here." He informed the audience that the resources of our country are so enormous that without incurring a cent of credit we can borrow \$250,000,000,000.

Give Your Stomach A Magnesia Bath

No man or woman who suffers from acid indigestion or dyspepsia can make a mistake in giving their stomachs a Magnesia Bath. This is a little bisulphated magnesia, says a physician, which is the only remedy for all digestive disorders caused by acid stomach. Nature has provided a natural way for the digestive fluids but a great many stomachs generate too much acid which causes indigestion. Each acid wall causes partially digested food to sour and putrefy. All right develops gas, wind and the pain common mistaken for indigestion.

Say That Ordinary Metallic Iron Preparations Cannot Possibly Give the Same Strength, Power and Endurance Besides, they may upset the digestion, disturb the secretions and thereby do far more harm than good, and that Health Officials and Physicians Everywhere should caution the public against accepting these inferior products

Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital; Former Health Commissioner Wm. J. Keer; Dr. H. B. Vail, formerly Physician in Charge of the New York City Medical Examiner; Dr. A. J. Newman, former Police Surgeon of Chicago; Dr. Ferdinand King, former Police Surgeon of Chicago; Dr. H. B. Vail, formerly Physician in Charge of the New York City Medical Examiner; Dr. A. J. Newman, former Police Surgeon of Chicago; Dr. Ferdinand King, former Police Surgeon of Chicago.

Dr. Ferdinand King, former Police Surgeon of Chicago, writes: "I have used Nuxated Iron for many years and know the results of its use. I am well past my three score years and have no rheumatism, my strength is great, my physical activity is due largely to-day to my personal use of Nuxated Iron. I feel that I am a better man than I was when I was a young man. I feel that I am a better man than I was when I was a young man. I feel that I am a better man than I was when I was a young man."

Dr. E. Sauer, a Boston Physician who has studied both in this country and in great European Medical Institutions, said: "Nuxated Iron is a wonderful remedy. Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of twenty, and as full of vigor, vim and vitality as a young man. In fact a young man he really was, notwithstanding his age. [The secret, he said, was taking iron—Nuxated Iron had filled him with vitality, and his face beamed with the buoyancy of youth. If people would only take Nuxated Iron when they feel weak or run-down, instead of doing themselves with habit-forming patent stimulants and alcoholic beverages, I am convinced that in this way they could ward off disease, prevent it becoming organic in thousands of cases, and thereby the lives of thousands might be saved who now die every year from pneumonia, gripe, kidney, liver trouble and other dangerous maladies. The real cause which started their disease was nothing more or less than a weakened condition brought on by a lack of iron in the blood. Thousands of people suffer from iron deficiency and do not know it. If you are not strong or feel run-down, ask your doctor for the following test: See how long you can walk without stopping. Then take two five-grain tablets of Nuxated Iron twice a day, and repeat the test for two weeks. You will find your strength again and see how much you have gained."

Dr. H. B. Vail, formerly Physician in the Baltimore Hospital, and a Medical Examiner, says: "Throughout my experience on Hospital staffs and as Medical Examiner, I have been astonished at the number of patients who have vainly doctored for various diseases, when in reality their delicate, run-down state was simply the result of a lack of iron in the blood. And again I have prescribed organic iron—Nuxated Iron—and surprised myself at the rapidity with which the weakness and general debility were replaced by a renewed feeling of strength and vitality. I look upon Nuxated Iron myself to build me up after a serious case of nervous exhaustion, and the effects were apparent after a few days and within three weeks it had virtually revitalized my whole system and put me in a superb physical condition."

Dr. A. J. Newman, former Police Surgeon of Chicago, and former House Surgeon, Jefferson Park Hospital, Chicago, says: "It has been my particular duty during the past few years to assist in keeping Chicago's five thousand bluecoats in good health and perfect fighting trim, so which I would be physically equipped to withstand all manner of storms and hardships of nature's elements. Recently I was promoted through an endorsement of Nuxated Iron by Dr. Schuyler C. Jacques, Visiting Surgeon, St. Elizabeth's Hospital, New York, to give it a trial. This remedy has proved through my own tests of it to excel in any preparation I have ever used for creating red blood, building up the nervous strength of the muscles and correcting digestive disorders." Dr. Ferdinand King says: "Doctors

should prescribe more organic iron—Nuxated Iron—for their nervous, run-down, weak, haggard-looking patients. Pallor means anaemia. The skin of the face is a sensitive indicator of the blood. A man or woman is pale, the flesh is flabby, the muscles are weak, the memory fails, and often they become nervous, irritable, and melancholy. When a young man has a weak blood, a lack of iron, the brain, the memory, the vitality, the strength, the power, the endurance, the ability to do anything, is all gone. It is the blood that makes the difference between a weak man and a strong man. It is the blood that makes the difference between a weak man and a strong man. It is the blood that makes the difference between a weak man and a strong man."
