

SECOND BAPTIST CHURCH NEARLY READY TO BUILD

Congregation Plans to Erect New Structure on Site of Burned Building

Plans for the rebuilding of the Second Baptist Church practically have been completed by the congregation of the church, the Rev. Albert J. Greene, pastor, the Rev. Dr. F. H. Devine, of New York, met officers of the church Saturday night, and spoke at both Sunday services. Largely through his efforts, more than \$12,500 was subscribed for the building fund. This is to be payable by the subscribers in three years. Dr. Devine promised that if the subscription is increased to \$15,000, the American Baptist Home Mission Society, of which he is secretary, will contribute \$1,000.

The congregation has purchased a plot of ground near the corner of Market and South Cameron streets, where the new church is to be built. Building operations will be begun in the early spring as soon as weather conditions permit.

Launch Forward Movement Among Churches of God

Yesterday afternoon and evening in Fourth Street Church of God, Bethel, there was launched a campaign for a forward movement among Churches of God. Addresses were made on different phases of the work by the following men in the afternoon: "The Spirit of the Forward Movement," Dr. S. G. Yohn, editor of the Church Advocate, Harrisburg; "The Needs of Findlay College," Dr. W. N. Yates, president of the board of trustees of Findlay College; "Men and Money for Missions," Dr. H. F. Hoover, Elizabethtown; "The Church Membership Increase Campaign," Rev. F. W. McGuire, president of the board of church extension, Rohrerstown; "The Relation of Our Literature to a Larger and Better Church and Sunday School," Rev. H. E. Wagner, Pilestown; round table conference, H. M. Angle, Shippensburg.

In the evening, J. L. Updegraph, field secretary, Findlay, O., made the principal address. Laymen and ministers from the churches in Dauphin and surrounding counties were present and pledged their hearty co-operation to the field secretary in his effort to raise \$35,000 a year for the next eight years. Dr. Updegraph will spend the next few weeks in the East Pennsylvania Eldership.

OFFERED COMMISSION
Fritz Copeland, formerly of this city, was offered a commission as major in the Ordnance Department during his recent visit to Washington. He was in charge of the Ordnance for a conference and the commission was the result. Copeland was the superintendent of construction at the erection of the ammunition camp at Rockford, Ill., which he completed in three and a half months. He is now connected with the large shipbuilding company at Philadelphia.

KETTLE NOT FULL
With a very few articles to fill the big copper kettle at the Red Cross rooms, the local chapter will ship in a short time the metal contained in the pot. E. C. Hoover, jeweler, will appraise the contents and prepare it for shipment. Among yesterday's contributions was a large mantel clock given by Mrs. John Cowden.

MANY STUDY SPANISH
A large number of students attended the session of the class in Spanish held at the Y. M. C. A. last night. The next class will be held Thursday night. Registration will be open during the entire month for the two classes in grammar and conversation. The classes are held under the auspices of the local Y. M. C. A. as a part of their educational program.

SOLDIERS GET SWEATERS
Contradicting rumors to the effect that sweaters sent to men at Camp Hancock, were not used by the men and that these men were not allowed to wear them, Mrs. R. L. Gillespie made public a letter received from Captain Henry M. Stine, 112th Infantry, of that camp. Captain Stine sends a list showing the disposition and thanks her and the Red Cross very warmly for their thoughtfulness.

THANKS RED CROSS
"I received your package this morning and sure did appreciate it," writes Joseph K. Gastrock Jr. to the local Red Cross from Hampton Roads, Va. "Tell the women that knitted those things that they can knit. All the fellows in our company say they wish they were from good old Harrisburg so they could give some of that knitted wear." Gastrock, who was formerly a Harrisburg resident, is now with the Navy at the operating base, Hampton Roads, Va.

HIS ARM BROKEN
William Kline, of Highspire, is in the hospital suffering with a broken arm which he sustained yesterday. He was working on a river barge at Highspire when he slipped on ice, breaking his arm at the elbow.

Daily Fashion Hint

Prepared Especially For This Newspaper

A PARIS CREATION.

Extreme emphasis is being put upon the first of the separate skirts for spring wear and the wonderful new cotton fabrics are employed in their development, combined, frequently with silk or satin used as a foundation. Stripes, dots and checks are included in the pattern of the skirt pictured. It is built over satin of which the belt is also made. The high-necked blouse in crepe has an embroidered collar and buttons of black satin. Medium size requires 3 yards 36-inch figured and 2 1/4 yards 36-inch plain material for the skirt and 2 1/4 yards 36-inch crepe for the blouse.

Mississippi Ratifies U. S. Dry Amendment
Jackson, Miss., Jan. 9.—Fifteen minutes after the subject was presented in Governor Bilbo's message to the State Legislature, both houses yesterday ratified the proposed prohibition amendment to the federal constitution.

Why The Skin Chaps And Becomes Rough In Winter
Many people who have beautiful, soft, white, skin during the Spring and Summer months wonder why they suffer from chapped hands and face during the winter months. The fact is, said a noted Skin Specialist recently:—Warm weather has a tendency to bring a natural oily moisture to the surface of the skin which keeps it soft and smooth. In cold weather this action is reversed and the natural oils of the body are unable to reach the surface and as a result the skin cracks, chaps and becomes rough. Often the skin cracks until it bleeds, chilblains develop and the soreness, burning and irritation are very trying, indeed. To prevent the skin from chapping or from becoming rough and red, great care should be used in drying the hands or face after washing and a little ordinary anti-oiled cocoa cream should be rubbed over the hands and face at night before retiring. It is easy to apply and will keep the skin soft, velvety-smooth and white even though you are exposed to the most trying weather. Every trace of soreness will usually vanish after a single application. Am-o-mixed Cocoa Cream resists little and can be obtained from any good druggist. It has an enormous sale at this time of the year, as it seems to contain just the nourishment required to keep the skin in perfect condition during the winter months. There is nothing better.

Class in Public Speaking to Be Organized at Y.M.C.A.

A class in public speaking is being organized under the auspices of the Young Men's Christian Association, to meet the demands of men in all

walks of life and engaged in varied classes of work throughout the city. "The primary object of this class is not to make great orators of the members, but rather to teach them to think and speak clearly and intelligently on their feet," said General Secretary Reeves. "Many men in Harrisburg find

their possibilities in their present work limited through their inability to speak at even a small public gathering. Many other men, whose lines of employment do not require public speaking, could unquenchably expand their horizon of usefulness if they were qualified to speak in public.

"The men who have already signified their intention in entering a class have persuaded Dr. J. George Becht, secretary of the State Board of Education to direct them in their work and to take charge of the classes. "Any men interested in entering

upon such a class are invited to be present at the organization meeting to be held at the Y. M. C. A., Thursday evening at 8 o'clock. It is probable that the class will arrange to hold meetings once each week and it is understood that the plan of instruction is to stimulate especially impromptu speaking.

TO BUY NEW BOILER
Bids for a new boiler for the Webster building will be opened on Friday by the building committee of the School Board. One of the boilers at the school burst during the Christmas vacation and must be replaced. Use McNeil's Pain Exterminator—Ad.
