Little Girl Seven Years Old Makes Sweater

It is the common belief that sweaters are especially hard to make. As a matter of fact, they are not. A little girl 7 years of age has just completed a sweater that is just as well made as one made by an older and more experienced person.

Crochet work is one of the easiest and most fascinating forms of fancy work. Its simplicity and rapidity with which it can be done makes it particularly attractive to the beginner.

George R. Nauss, who conducts the Art Needlework Shop, at Front and Pine streets, in Steelton, personally teaches the art of knitting and crocheting. Years of experience enables Mr. Nauss to teach a person in a very short time to accomplish what they may think is almost impossible.

Mr. Nauss handles all the various shades of Lion, Bear and Corticelli brands of yarn. To those who buy yarn from this store Mr. Nauss will teach free of charge and will gladly give any help or directions that will make your work a success.

Besides a full line of yarns, Mr. Nauss carries various designs in stamp goods, ribbons, fancy needlework and ladies' handkerchiefs. Most anything in the needlework line can be procured from this store. The best quality goods, personal attention and a desire to please make this store a mecca for the ladies. All street cars pass the door. Get off at Front and Pine streets.

New Cumberland Dairy

Milk is one of the staple foods, especially for children. A great many mothers realize this and are therefore taking care that the milk they feed the children is carefully taken care of through all the necessary steps it must go through before it finally reaches them.

A good many milk men are not as careful as others about the handling of the milk. Most milkmen nowadays have installed pasteurizing and sterilizing equipment with which they produce sanitary and strictly clean milk.

The New Cumberland Dairy at New Cumberland is one of the dairies thus equipped. This guarantees only the best in milk and cream. From the time the milk reaches the creamery until it reaches your door, it is handled under the most sanitary conditions. The bottles are all sterilized and the bottling process is so arranged that the milk does not get even a touch of air while being bottled. Be sure in choosing your milk that he is as up to date with his equipment as is E. B. Ebersole, of the New Cumberland Dairy.

Besides the restaurant business, beer and sodas are dispensed to the queen's taste. Be sure and visit this restaurant and parlor while in Middletown.

Talk About Saving Coal, Look Here!

There is a great demand today to save all the fuel that possibly can be saved, because of Government demands and of a shortage in coal. There is an invention on the market that will save coal and still give the maximum amount of heat.

This is The Savir Stove Ltd. This lid is a mechanical appliance that is placed on the stove the same as any lid, but is so constructed that it makes the coal do its full duty instead of the half, as coal will do in the ordinary stove.

The stove lid is guaranteed to save coal and it also saves labor, inasmuch as there is less coal burned, there will be less to carry up from the cellar and less ashes to carry out in the yard. This also means less dirt in the house.

It also saves the stove because it is not necessary to have a red hot stove which warps and cracks the plates and burn up the fire bricks. This lid also does away with the gases that come from a new built fire.

The Savir is scientifically correct, practical and durable. Its principle is that of the hot air blast, which revolutionized the blast furnace.

This lid is sold by George W. Conner, 720 Race street. Mr. Conner will gladly give a demonstration of this lid, and will prove all that is claimed for it. The cost is small and the saving is large. A telephone call or a post card will bring one to your home.

Brenner's Quality Stores

When a person buys groceries nowadays, he considers quality as well as quantity, and last but not in no wise least, price. Prevailing prices for staple and fancy groceries have never been as high since the day of the Civil War. The present generation does not know or realize conditions as they were then, but they are fast getting educated to what our fathers and grandfathers had to contend with during those trying days.

Big Year For the Monument Business

Nineteen seventeen was a banner year in the monumental business. Both granite and marble monuments were placed in all the cemeteries of Harrisburg and vicinity.

B. F. Knupp, of Penbrook, placed a large number of markers and monuments, notable of which are the ones on the family plots of the Filling Estate and Rubin Packer, both of which were made of the celebrated Barre granite.

Mr. Knupp makes markers and monuments of both marble and granite and does work for any cemetery in the country. He has on hand at the present time any kind of material for any kind of work.
