## **COAL SCARCITY CLOSES SCHOOLS**

Camp Hill and West Fair- Burst Pipeline at Lemoyne view Buildings Suspend Sessions For Week

Lemoyne schools will be compelled to close down.

The situation becomes more acute daily. Robert L. Myers, West Shore coal administrator, said to-day that aside from Lemoyne and Camp Hill, the West Shore is in pretty good shape. New Cumberland has received several shipments which will help out for some time. Many residents of Lemoyne and Camp Hill are without coal and some have but a few buckets full.

Mr. Myers said shipments of hard and soft coal will arrive before the end of the week. He has been promised the shipments and has little doubt but that they will arrive. Many families, he said, will be supplied with fuel in the next few days.

The coal administrator is of the opinion that the coal dealers are cooperating magnificently in distributing fuel where it is most needed first. He said further that he did not believe there was any hoarding being done by West Shore people.

The Lemoyne School Board has been promised a shipment of coke for two weeks, a member said to-day.

The concern was shut down the previous night and it was necessary to seek the assistance of Harrisburg bakers in order to supply yester-day's trade. The suspension of work last night, officials of the firm say, was very injurious to the output and to the trade.

The pipe line of the Riverton consolidated Water Company has been frozen since early Tuesday morning. Shortly after the freeze opperation that the coal dealers are cooperating magnificently in distributing fuel where it is most needed first. He said further that he did not believe there was any hoarding being done by West Shore people.

Omit all meat from diet if you feel Rheumatic or Bladder bothers.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric aerd which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.
