BIT" ON LAND

"Scratch! Scratch," Was All He Could Do Until Help Came

"Scratch! Scratch!" was all that William F. Wheeler, a farmer of Hummelstown, near Harrisburg, could do when what he wanted to do was "his bit" on his land.

"Help came however," he said, "after I had despaired of ever getting it, I had a bad case of ezema and was all broke out. I thought it would plumb itch me to death. I scratched and scratched all the time and it got so bad that I couldn't do my work on my farm. I lost any appetite; my stomach went back on me and I got so nervous and restless I couldn't sleep. Mr. Hanlon told me to try Tanlac. I took his advice and now, thanks to the great medicine, my skin is entirely well. I now eat and sleep well and feel like a new man. I am making up for lost time in my work."

Tanlac now is being specially introduced and explained in Harrisburg at the George Gorgas drug store.

women for over half a century have used with regularity the time-honored preparation, Mother's Friend.
Here is a most wonderful application for the abdomen and breasts. It penetrates the muscles, ligaments and tissues, rendering them pliant to readily yield to nature's demand for expansion.

By its use the anxious weeks of pregnancy are made comfortable. The usual wrenching strain, bearing-down and stretching pains are counteracted. The system is prepared for the coming event, and its use brings rest, repose and happy anticipation.
By the regular use of Mother's Friend during the period the muscles expand easier when baby arrives, and naturally the pain and danger at the crisis is less.

Senator Wadsworth asked about the board of labor standards which testimony has said has pacifists and Socialists among its members and is requiring new specifications in army cloth contracts which will reduce production.

"I know their character and expert qualifications well," said Secretary Baker, in defense of the board.

Turning to artillery, Senator Wadsworth assailed the ordnance bureau for not continuing manufacture of French 240-millimeter guns instead of proceeding with manufacture of American 9.5 guns, none of which have been delivered and whose ammunition is not interchangeable with the French.

Was Not Certain

Secretary Baker said he thought, but was not sure, that the department was making the French type and promised to give further information.
