

BAGLEY PRAISES BRAVERY OF MEN ON JACOB JONES

Most of Those Not Killed by Explosion Reached Ship Wreckage

Washington, Jan. 11.—Secretary Daniels made public today a summary of the official report of Lieutenant Commander David W. Bagley, on the sinking by a German submarine of the American destroyer Jacob Jones, on December 6 when two officers and sixty-four men lost their lives.

Commander Bagley gives unstinted praise to the behavior of officers and men and especially commends by name ten of them. The submarine, the report says, was not sighted until fifteen minutes after the destroyer had gone down. But the torpedo was sighted half a mile from the ship and Lieutenant S. F. Kalk, officer of the deck, who afterwards died from exposure, immediately ordered a maneuver to avoid being struck. The torpedo, however, was so near to allow the destroyer to clear it and it struck fairly with a heavy explosion. The ship quickly settled by the stern and the engine room was soon flooded. The radio antennae and main mast were carried away.

Most of the men not killed by the explosion got clear of the ship and reached rafts or wreckage. Eight minutes after the torpedo struck at 4:21 p. m., the Jones sank stern first. Efforts were made to collect the survivors in a motor dory and then the nearest land was headed for to secure aid to the remaining survivors on the rafts. After twenty-three hours the dory sighted a patrol vessel and the commander of the patrol station reported to Commander Bagley that the other survivors all had been rescued.

Seaman Philip J. Burger, of Lansingburgh, N. Y., is highly praised in the report for his efforts to clear the vessel's motor sailor, which would have saved 20 or 30 lives. He stuck to the job until drawn under water with the boat, being rescued himself later when he came to the surface.

Hughes Again Heads Australian Government

Melbourne, Australia, Jan. 11.—Several days of political uncertainty have ended with the reinstatement in power of the Nationalist government, headed by William Morris Hughes. There has been no change in the makeup of the Hughes government. Premier Hughes is criticized by the press and is accused of breach of faith by some politicians because of the pledge he gave at Bendigo during the recent referendum campaign that the Nationalists could not govern the country if conscription was defeated. The Australian voters returned a majority against conscription. A motion of no confidence has been introduced in parliament by Mr. Tudor.

PLANNING FOR FOOD LECTURES

Housewives to Learn Scientific Cooking Methods From Woman Lecturer

The food lectures designed for the housewives of Harrisburg will begin next Monday and Donald McCormick, food administrator for Dauphin county, emphasized to-day the necessity of every woman attending them. He appointed a special committee consisting of Mrs. John Kelly, Mrs. William Henderson and County Farm Agent H. G. Niesley to take charge of this important event. Mrs. Niesley began to-day a system of education on the subject by distributing ten thousand slips among the Harrisburg schoolchildren.

Mr. McCormick points out that these demonstrations and lectures are not so much for a saving and economical purpose as for education. If we are to reduce our consumption of what we use in its place, and how? And if we are to reduce our meat consumption, what foods can we use that will adequately replace meat? Miss Martha Pitman, the State College expert who will conduct the course, arrived in Harrisburg to-day and made all preliminary arrangements for the next week.

Boys and Girls Knit

A convalescent robe which has been knit by the boys and girls in the Cameron school building taught by Miss M. Maudie Kennedy is on exhibition in the window of the clothing store of William Strouse, Pennsylvania street, and now on display the weekend. The pupils began to knit the patches for the robe out of odds and ends of yarn the week before Christmas. Mrs. G. Herman Goetz, wife of the supervisor principal of the Cameron building, put the patches together and the effect is a robe of many colors, surrounded by grey yarn is most attractive. Miss Kennedy has seventy-two pupils in her room and they have now started to knit a second robe.

Booze or Coal—Take Your Choice, Say the Clearfield Co. "Drys"

Clearfield, Pa., Jan. 11.—The Clearfield County Dry Federation in half-page advertisements has started its fight to drive the saloon out of Clearfield county, and in its power is going to be done to give the knockout blow at the county license court to be held here January 20. Remonstrances signed in all the churches of the county, and from now on a house-to-house solicitation is to be made to get signatures to the remonstrance. In their half-page advertisement the federation says: "Quit kicking about coal. Of course there's a coal famine, but what are you doing about it? During the last fiscal year the breweries in America produced 60,729,509 barrels of beer. It requires 248 pounds of coal to produce a barrel of beer. A pound of coal for a pint of beer. In other words the breweries in America used up 7,530,395 tons in coal during the year in making beer. One hundred and forty loaded ships were lying idle in New York harbor unable to sail for lack of coal. Have you heard of any breweries lying idle for lack of coal? Schools and factories are closed for want of coal. Have any breweries closed for want of coal? Boozers or coal?"
