With the heavy storm, indications any serious tieup as a result of last are that there will be the usual quota of suffering among the coalless of the city. It is understood that people having half a ton will not be given coal by the authorities. An effort is being made to further the delivery is that the trolley lines were tied up.

Why Physicians Prescribe Bitro-Phosphate For Weak Nerves

RENCH SPECIALISTS CLAIM THIS ORGANIC PHOSPHATE IS ACTU-ALLY CONVERTED INTO LIV-ING NERVE TISSUE.

ING NERVE TISSUE. The rapid increase in the use by physicians and nerve specialists of the organic nerve building and easily assimilated phosphate known among druggists as Bitro-Phosphate is due almost entirely to the remarkably favorable results obtained by special-ists of world-wide fame and reputa-tion. The "Liberty" Rug,

Inspired by the fine traditions of ancient rug weavers who held to the practice of introducing objects of adoration, floral and animal symbols in the designs of their floor coverings, the designer of the Liberty Rug has created one of the most interesting pieces of art that has ever come from a loom.

The "Liberty Rug" represents the best efforts of American designers and weavers and combines a variety of motifs which includes the scenes of noteworthy places, natural wonders and objects of historical interest.

The interesting arrangement of the borders shows the seals of various States, interspersed with panels representing the coal mines of Pennsylvania, the steel mills of Pittsburgh, the oil wells of Oklahoma, the harvesting scene from the west, the mammoth trees of California, the Mt. Vernon mansion of George Washington and Lincoln's little log cabin.

Don't miss seeing the "Liberty" Rug.
