

BOYS IN FRANCE NEED TOBACCO FOR HARD WORK

Trench Life in Winter Is No Joke, Says a Corporal

"This awful war has got to stop; Go telephone it off to pop; Tell him I send some packs of smoke— This trench in winter is no joke."

"Can you see Corporal Peat shivering in that deep snow-filled trench hungering for a smoke? He has a couple more months ahead of him, day and night work, skinning his frosty eye for the wily Hun sniper, and though the big guns have ceased temporarily, there is plenty of danger."

"It's your nerves that get an edge," writes the Corporal, after trying his wits at a homey line of verse. "A cigar? Why you want a rocking chair for that and we have no rocking chairs in this joint. Some of the fellows hit up a pipe, but that takes too long to load. A cigar is the thing. We need millions of them."

Rain, steady pouring rain, is said to be one of the hardest trials to endure in trench life. The prospect is that there will be plenty of wet weather until spring and this is a testy period for the young soldier. There is no question but that the smoke comforts and, whatever the reason, physicians tell us that smoking for a man out in the open is actually harmful. The American and Mexican cowboys smoke incessantly, always the rolled cigar, and no one would associate these rugged chaps with lack of energy. When Marlborough's soldiers were marooned in this same Flanders territory for months at a time with continued rain they nearly went insane from boredom and nerves. They had no tobacco to soothe and only a man who has been in this predicament knows what it means. Keep the smoke a-wafting to the brave boys "over there," and discuss the ethics of it when Kaiser Bill is blotted out for good and all.

PARENT-TEACHERS TO MEET The Parent-Teachers meeting will be held this evening in the grammar school room at Riverside. The speaker will be County Superintendent F. E. Shambaugh. A musical program, including selections on the Victrola will be given.

YOU'LL LAUGH! DOESN'T HURT TO LIFT CORNS OUT Magic! Costs few cents! Just drop a little Freezone on that touchy corn, instantly it stops aching, then you lift the bothersome corn off with the fingers. Truly! No humbug!

KEEPS KIDNEYS ACTIVE WITH A GLASS OF SALTS Must flush your Kidneys occasionally if you eat meat regularly.

Noted authority tells what causes Backache and Bladder weakness.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

German Lie to Cripple Business Here Is Nailed by Harrisburg Bankers

The Harrisburg Clearing House Association to-day exposed the oral cause of various rumors being spread about to the effect that the United States government would seize money on deposit in the banks. Pro-Germans have accredited with these lies. The statement reads: "We find that there is being circulated again the report of the government seizing deposits in banks, concerning which Secretary McAdoo on November 16 issued the following statement: "Among the many absurd and vicious rumors which are being put into circulation these days, probably through pro-German influences, is one that the government proposes to confiscate the money on deposit in the banks."

"The absurdity of the statement is obvious on its face, but I have received letters from several parts of the country which indicate that this rumor is being circulated with an evil purpose. Of course, these rumors are wholly without foundation. In fact, the government has no power to confiscate the money of depositors in banks."

"We can only repeat this, adding that the government has no power to seize money on deposit and can only raise money by borrowing or by taxes. Taxes must fall on all alike and not only on bank depositors. The banks would still owe their depositors if their money could be seized, which it can not."

"Anyone circulating this report is pro-German and their names should at once be reported to the nearest bank."

"HIG. CLEARANCE HOUSE ASSO. Chairman, DONALD McCORMICK. Secretary, AL. K. THOMAS."

U. S. Forces at Front Are Eager For Fray, Secretary Baker Reports

Washington, Jan. 15.—Only minor developments at the battle fronts are being reported by military operations, made public last night by the War Department. Wintry weather is interfering with the operations in Italy, France and Flanders. Of the American forces in France, the secretary said, the troops are being steadily pursued, and that General Pershing's army is being pushed back and fighting spirit extremely good.

General improvement in health and morale is being reported, and the department says, in spite of abnormal colds, the troops have been able to maintain a sufficient supply of blankets.

"On the active front in the West and in Italy the equilibrium of battle has been maintained," says the review. "The usual engagements are repeatedly recorded during the last weeks, which are merely everyday occurrences in the normal course of modern warfare—raids, reconnoitering thrusts, patrol encounters, artillery duels and trench fighting—are operation of no ulterior strategic value, and can have but little influence on the general situation."

TWO WOMEN WITH BULLETS IN COURT

been drinking and that his jealousy had been aroused because his wife was drinking. This shooting occurred on the night of September 19, in Wolfe's bakery shop at Penbrook. Mrs. Arnold had gone to the bakery to see her brother, Fred Lyons. The latter was on a ladder leaning against a wall when she opened the door leading to the dough-room. Arnold, who was in the room, fired a shot into Mrs. Arnold's back, just above the kidney. Mrs. Arnold fell over. The brother jumped from the ladder and ran to the door. He was about to raise the revolver for another shot and held him until Mr. Wolfe again entered the room.

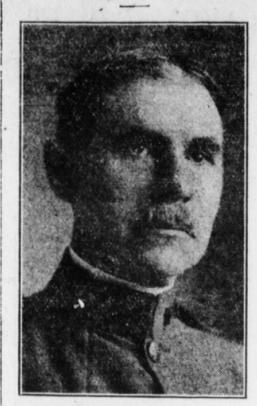

The wife was assisted to the office of a physician and later sent to the Harrisburg Hospital where she remained in a serious condition for several weeks. The husband came to the office of the physician and wanted to ask his wife forgiveness, saying he had been drinking and did not realize what he was doing. The jury found the case shortly after the noon recess.

Mrs. Pearl Putman, of North Seventh street, and her husband, who had a narrow escape, John DeRosse shot four times at Mrs. Putman on the right arm and lodged there. The three other shots went wild, but narrowly missed hitting Mrs. Putman. The jury found her guilty of felonious assault on the Putman case, and of assault on the other woman. DeRosse was charged with stealing bedspreads from Lizzie Bennett, was found not guilty before Judge S. J. McCarroll. His case was heard in the Judge's chambers, because Council was in session. Later court was again resumed in Council chamber.

The snowstorm held up trains on the Reading and the case did not arrive from Lebanon until after 10 o'clock. He heard the cases in No. 2 room. The first case was that of Edward Pinkney, colored, charged with cutting John L. Marshall, the jury found him guilty of felonious assault on the Marshall case. He was heard before Judge Henry.

In the case of William Clay, charged with indecent assault, the grand jury ignored the bill. The bills were returned this morning at twenty-two other cases.

Captain Henry M. Stine Assigned to Pioneers

CAPTAIN HENRY M. STINE

Captain Henry M. Stine, of Harrisburg, has been assigned to the command of Company D, Second Regiment, Pioneer Infantry, and will have his headquarters at Camp Wadsworth, Spartanburg, S. C.

Captain Stine, writing to friends in Harrisburg to-day said that he "expects this will give opportunity for plenty of active service." The captain is a veteran of the Spanish-American War and was for years in the National Guard. He was one of the organizers of the Harrisburg Reserves and at the time he was called to the command of the Chambersburg company of the old Eighth Regiment when it was summoned in to active service last summer, was county commissioner. Since leaving here he has been at Augusta and was one of comparatively few unattached guard officers after the reorganization of the state forces to be re-commissioned for service abroad. The duty of Pioneer Infantry is to be first in the field to prepare for other infantry and artillery occupation. It is regarded as hazardous and requires both courage and technical skill.

U. S. CALLS 250,000 MEN FOR SHIP WORK

men of the state councils of national defense. Mr. Hurley hopes to create a reserve army of workers of not less than 250,000 men, all of whom are to be skilled mechanics. Employers are urged to release men for this work. Mr. Hurley holds that volunteers for the shipyards contribute as much toward the success of the war as enlistments in the army, and adds that the draft law leaves this opportunity for voluntary enlistment open to workmen.

The Shipping Board seeks trained riveters, boiler-makers, punchers, machinists, blacksmiths, carpenters, millwrights, calkers and other trained men. Requisitioning of all American sailing vessels was forecast to-day when the board requested the Department of Commerce to report the location of such vessels, and Secretary Redfield replied that 175 sailing vessels with a cargo-carrying capacity of 425,000 tons are within or adjacent to American waters.

175 Sailing Ships Available There are nearly 500 sailing vessels of 1,000 tons or larger flying the American flag and it is being urged that in this time of stress the vessels should be taken from private business and put into the public service. It is announced that 75 available seventy-six are in ballast, ninety are loaded and nine are undergoing repairs which will be finished soon. The other vessels are scattered.

Germans Bombard Coast Town Yarmouth From Sea; Casualties Are Not Serious

London, Jan. 15.—Yarmouth was bombarded from the sea last night, it is announced officially. About twenty shells fell in the city. Three persons were killed and ten injured. Fire was opened at 10.55 p. m. the announcement says, and lasted about five minutes. The material damage done was not serious.

Attacks by German naval forces on English coast towns, of which there were a number early in the year, have been infrequent in recent months. The last previous occurrence of the kind officially reported was on September 4 of last year. On that day a German submarine bombarded Scarborough, causing the death of three persons and the injury of five.

ALL WHO ARE NOW 21 TO BE REGISTERED

able men in the first class instead of on population. In determining upon the registration of men who have become 21 since the draft law was enacted, the War Department has rejected any plan to raise the age limits of the draft to take in men more than 21.

Registration of men who have become of age since the draft law was enacted was recommended in the recent report of Provost Marshal General Crowder as one of the means by which a supply of men for the National Army might be assured without taking those who might have others dependent upon them. It could be done also, the provost marshal pointed out, by extending the age limits above the present line of 21. The War Department has adopted the first suggestion. It is estimated that it will add each year about 700,000 men to the draft available each year.

Has Administration Support Congressmen have been advised that further legislation would be necessary to perfect and carry on the draft, and the passage of Senator Chamberlain's bill with administration support is expected promptly in both houses. Another bill introduced by Senator Chamberlain would provide a distinctive badge or button for exempted men. The bill changing the method of state quota is believed to provide a more equitable system as it will exclude entirely enemy aliens from the basis.

U. S. Defense Council Saved Our Country Millions of Dollars

Washington, Jan. 15.—The Council of National Defense and its Committee, Director Clifford told the Senate War Inquiry Committee to-day, had filed a breach in the Government's war machinery at a critical juncture and had saved the taxpayers millions of dollars.

Through voluntary agreements in price fixing, he said, the nation had been saved more than three billion dollars on steel. Other savings, running into the millions, were cited on copper, lead, lumber and raw materials. Twenty million dollars alone were saved, he said, by changing plans for the Army cantonment building from one to two stories. Other savings, Director Clifford cited in detail as follows: Oats for army horses, \$1,000,000; cotton duck, \$1,250,000; leather, \$1,000,000; shoes, \$1,600,000; airplane motors, \$750 to \$900 on each one; spruce for airplane, \$2,550,000; lumber for Army cantonments, \$2,000,000. Mr. Gifford said he advised Secretary Baker regarding the general war reorganization plans submitted by him.

"The plans accord with my recommendations, except that I desired a single individual instead of a board of control war industries, and that I favored a single responsible authority, through legislation by Congress."

British Labor Party Favors Russian Principles

London, Jan. 15.—The British Labor party in a message to the Russian people made public to-day announced that the British people accepted the Russian principle of self-determination of peoples and no annexation for the British empire, particularly in the Middle East Africa and India.

Government Paper Control Is Defeated

Washington, Jan. 15.—An amendment to the pending resolution of Government control of news print paper, which would have placed authority with the President, was defeated to-day in the Senate, which voted to place the power entirely with the Federal Trade Commission. Another vote will be necessary before the resolution is finally passed.

AMBASSADOR NAON SAILS FOR HOME

Washington, Jan. 15.—Ambassador Naon, of Argentina, who recently placed his resignation in the hands of the Buenos Aires foreign office, will sail for home this week and whether he returns here as ambassador depends on conferences with President Irogoyen and Foreign Minister Pueyrredon.

CRITICISE RED CROSS METHODS

Members of Marysville Ministerium Said to Have Objected to Masquerade Dance

Marysville, Pa., Jan. 15.—Some members of the Marysville Red Cross Auxiliary are somewhat provoked over the criticism of their methods of raising money for the organization's treasury. In the early part of December, a masquerade dance was held by the society in White's Hall and the money used to pay for yarn used in knitting Red Cross articles. This method of raising funds aroused the ire of several members of the Marysville Ministerium. Mrs. G. W. Gault, president of the local society, has just issued this statement in regard to the affair: "We have just received a letter signed by our Ministerium, denouncing the method we have taken to raise money (but it is a method that is being used all over our state) and now we are going to leave it up to our ministers to cover the support of our workroom, for we positively must have money to keep it open for in six weeks' time our treasury will be empty and then if we are not helped, we will do as we see fit to keep the work going."

URGERS RENTERS TO BUY HOMES

Realty Board Plans to Start Regular Campaign at Once

To "own your home." Instead of eternally paying rent is the aim of a campaign of the real estate men of Harrisburg which is to be put into operation very shortly, according to an agreement made last night by members of the Real Estate Board in their meeting at the Chamber of Commerce offices. Real estate men believe that this campaign will have a wonderful result in developing certain tracts of Harrisburg now thinly settled and at the same time do great good to the individual who will be offered unusual terms for buying property.

CITIZEN FIRE COMPANY ELECTS

Charles P. Meck Heads Company For the Twenty-Seventh Time

It was decided that Harrisburg should send a big delegation next June to the national convention of real estate men in St. Louis. The secretary reported that three new firms had made application for membership. The secretary also read a communication from William S. Millner, secretary of the Williams-Sawyer Park within the city limits. The Williams-Sawyer real estate men have invited Harrisburg to inspect this colony, which is a step toward better housing, and a committee will be appointed this week to represent the Capital City.

FISHMAN HAS PLAN

Samuel Fishman, proprietor of the Lenox Hotel, will ask Council in a week or two for a franchise to furnish steam heat and electric lighting service, he said yesterday. Mr. Fishman said the cost of building a plant, according to tentative plans, would be about \$10,000.

O'NEIL PLANS TO KEEP ROADS GOOD

Has Arranged With Thirty-One Counties to Improve Highways During 1918

State Highway Commissioner J. Denny O'Neil in a summary of state highway conditions issued today declared that thirty-one counties have agreed to go along with the state on a "fifty-fifty" basis in construction of roads to link up state highways and important county roads and that he expects seven more to sign in a contract along construction lines. "Despite abnormal conditions, scarcity of men, car shortage and high prices, it is the intention to go ahead with plans being made with local officials," he said. "It is hard to say definitely because of conditions just what the department will undertake along construction lines in 1918, but things will be shaped up so that when conditions begin to assume a more normal aspect there will be no delays."

Mr. O'Neil said that he was in favor of maintaining the roads that have been constructed and are in use notably those in use on national defense matters. "In addition to weather conditions which add to cost of maintenance in some sections highways are being subjected to heavy motor truck traffic, but the roads have been kept open in spite of the snows."

The contracts let for construction in 1917 in fifteen counties aggregated \$1,254,998.20.

Officers chosen last night are as follows: President, Charles P. Meck; vice-president, Edward Shaffer; recording secretary, H. M. Brooks; financial secretary, Luther I. Shoop; treasurer, Dr. W. E. Vallerchamp; engineer, Frank Fagan; assistant en-
