

PLAN TO BUILD Y. M. C. A. BRANCH FOR COLORED MEN

Temporary Organization to Provide Headquarters When Time Is Ripe

There is considerable interest here in the proposition to establish a branch of the Y. M. C. A. in Harrisburg for colored men.

President, C. Sylvester Jackson; vice-president, Marshal Ficklin; secretary, Robert J. Nelson; treasurer, Frank N. Robinson.

Through Secretary Nelson a conference was arranged with Robert B. Reeves, general secretary of the Y. M. C. A., and in view of the war conditions it was thought advisable to postpone further action until a general study of the whole situation might be had.

The population in 1910 was about 5,000 and, allowing for the numbers that have come in since we have been here, we are safe in saying that 8,000 at least are in Harrisburg and vicinity now.

I found similar religious, social, educational and economic forces there as in other cities where colored people live.

The meeting was well attended and the whole matter of starting work for colored men and boys was thoroughly discussed.

In order to do the work that will attract the men and boys and assure success and permanency, I would recommend when the time is ripe the securing of a strong leader and providing ample and well-equipped quarters.

I was impressed with the caliber of the men who compose the temporary committee and feel they can direct the work when permanently organized with success.

At the meeting of the directors of the Harrisburg Y. M. C. A. yesterday afternoon a committee was appointed to confer further with the officers of the proposed branch of the local association in the interest of the colored men.

Much interest is being shown in the matter and it is expected that there will be a generous co-operation in the movement as soon as the time is propitious.

NEWPORTS UNION SERVICES Newport, Pa., Jan. 17.—Union evangelistic services of the United Evangelical and Methodist Episcopal churches are being held this week in the local Methodist Episcopal Church.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, combined with uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments, and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success.

ENFORCED HOLIDAY TO CLOSE FACTORIES HERE

[Continued from First Page.]

Monday and Tuesday during the period. Every office, shop and theater will be closed.

Hickok on Job Ross A. Hickok, fuel administrator for Dauphin county, said that he expects to see the order of the federal administration carried out to the letter in Harrisburg.

"The order applies to Harrisburg in every way. All industrial establishments, whether working on government contracts or not, will mean that according to the ruling of the edict from the national fuel administrator, there will be thousands of men

thrown out of employment, and industrial activities in the city will be tied up generally, but there is nothing we can do. I shall expect every one affected to co-operate fully.

Expect to Save Coal Mr. Hickok said that great quantities of coal will be saved in this vicinity through the orders of the fuel administration at Washington.

household use?" Mr. Hickok was asked. "Oh, positively," was the reply. "And as far as possible, the dealers will be supplied equally, in accordance with the number of orders they have placed with operators.

Mr. Hickok was asked what efforts are going to be taken to enforce the order, if any manufacturer fails to shut down.

Mr. Hickok said that this morning that the order from Washington came as a complete surprise to him.

expected to make it possible for the heat and power plants to be supplied with coal for future contingencies.

To Enforce Order Mr. Hickok announced no plans that are being considered by the local fuel commission for the enforcement of the edict.

"All I have to say this morning," said Mr. Hickok, "is that it is the duty of every patriotic citizen of Dauphin county to save fuel, and that can be done best now by complying with the regulations of the new edict.

Mayor Daniel L. Keister, in an interview this morning, stated that he is ready to co-operate fully with the federal coal administration to enforce its orders.

ready to enlist the force of the city to help the fuel administrator. "We will do anything we can to co-operate," he said.

Good Soldiers "We are making munitions for Uncle Sam and we must be good soldiers," said W. P. Starkey, of the Harrisburg Pipe and Pipe Bending Works to-day.

Steeleton Hard Hit Officials at the Steeleton plant said to-day that the official orders would

come from Bethlehem and that they knew nothing of the new regulations except what was published in the morning newspapers.

At the offices of the Dauphin Deposit Company this morning Donald McCornick, president of the Harrisburg Clearing House Association, said that the reason the government made an exception of banks and trust companies in its closing order is that the negotiations of commercial paper cannot be postponed unless a legal holiday is made.

LIBBY PRISON VETERAN DIES Marietta, Pa., Jan. 17.—Henry Lutz, Civil War veteran, who served three enlistments and was a prisoner in Libby, died after a long illness.
