Buchanan, 186th Machine Gun Battalion, of Grove City, Pa., stationed at Camp Wadsworth, was found dead in a local hotel with a bullet hole through London, Jan. 22.—The Daily Mail publishes a two-column contributed article vehemently attacking the government and the general staff in connection with the finding of the staff, announced in the House of Commons on Tuesday, that the British higher army command had not been surprised by the German attack on the Cambrai front on November 30, when the British lost part of the ground gained in the offensive a few days earlier.

The article says that the government, under the pressure of the general staff, is hushing up the incident, while the Germans claim to have captured or destroyed 122 tanks and to have taken 9,000 mean and 100 guns. The writer adds:

"A particular army clique has had supreme military control for two years and has repeatedly failed to fulfill its own expectations and promises."

The Mail editorially indorses the writer of this article, blaming the Earl of Derby, Secretary for War, and General Sir Will.am Robertson, chief of the general staff, whose removal it suggests is desirable. It declares the public would like to see at man of the type of Sir Eric Geddes, First Lord of the Admiralty, at the war office,
