

WORMLEYSBURG COUNCIL FILLED

J. Groff Schaeffer Succeeds Edward Miller, Who Failed to Take Office

Wormleysburg, Pa., Jan. 22.—At a meeting of council last night the membership was filled for the first time in more than a year by the election of J. Groff Schaeffer.

Charles Favorite was the first man to leave council. His reason for resigning was that his business was too large to devote much time in his official capacity.

Linwood B. Wanbaugh, then president, resigned shortly afterward. J. R. Neidhammer was elected president.

Ralph E. Sparrow resigned in August without giving any reasons and Ralph Shrack, the secretary quit shortly afterward.

BITUMINOUS MAY BE USED WITH GOOD RESULTS IF CARE IS TAKEN IN FIRING FURNACE

The chairman of a committee to be appointed by the county fuel administration for the purpose of educating Harrisburg coal consumers to use bituminous coal in their homes

In response to your inquiry as to the practicability of burning bituminous coal in steam or hot water boilers for house heating purposes, we wish to state that if intelligent and proper attention is given to the operation of the boiler, there is no question whatever, as to satisfactory and economical results being obtained by the use of bituminous—or what is generally known as "soft" coal.

In normal times, there are mined in the United States approximately 600,000,000 tons of coal yearly, of which amount only about 100,000,000 tons are anthracite, or "hard" coal.

Two types of soft coal are used in heating boilers: the "free-burning" coal—which breaks apart when burning, allowing the gases to flow freely, and "caking" soft coal—which fuses into a solid burning mass forming a hard crust on top, slowly caking as it burns.

When feeding coal to the boiler, open "choke-dampers" (inside smoke hood) or "draft" dampers (on top of round boiler, in rear of square boiler).

By burning poor coal, the grate gets covered with slag and clinkers matted together, the quickest way to get a new fire is to dump the grate and build an entirely new fire.

If the foregoing suggestions are carried out, I am confident that the substitution of bituminous coal for anthracite, will, in a great majority of cases, meet with entire satisfaction, and as its use becomes more general in this vicinity, will, I doubt not, greatly relieve the present distress due to the meager supply of hard coal available just now.

Very truly yours, G. C. FRANTZ.

WEST SHORE IN BETTER SHAPE

Fuel Administrator Reports Some Coal Has Been Received in All Towns

Arrival of some coal in Camp Hill, New Cumberland and Enola since Saturday slightly relieved the West Shore situation, according to Robert L. Myers, West Shore fuel administrator.

Mr. Myers said that Lemoine has not been getting her share and is in doubt about the coal. The official said that the operators have refused their coal over the Reading Railroad.

Mr. Myers said that Lemoine residents have been complaining about the refusal of a Lemoine concern to give them coal. The official said that the residents to these parts with a wagon for coal they have always been supplied. The reason for not serving them is that the coal is not available.

Americans in France are Well Treated, Harrisburg Soldier Writes Home

Sergeant G. K. Erb, of Harrisburg now in Company D, First Telephone Battalion on foreign service, describes a great football game over in France in writing a recent letter to George E. Reinechi.

His letter follows: My dear Mr. Reinechi:—This is Thanksgiving day, the day on which we gather in our churches and give thanks to the Almighty for the bountiful blessings he has bestowed upon us during the year that is past.

These boys are well treated and are very happy. They are very interested in knowing how some of them spent the day I will try to tell you of our first Thanksgiving Day in France.

Teams were composed mainly of college stars and they clearly showed to lose any of their skill in handling the forward pass, running the ends or bucking the line.

The game over, both regiments reformed, the French standing at attention, while the Americans passed in review before them, as they marched away to their barracks.

The game ended, we returned to our billets and awaited the serving of our much talked of Thanksgiving dinner. By this time all of the men of the company who are on detached service had arrived to spend the day with us and we were soon busy swapping tales. Promptly at two o'clock the dinner was served and what a dinner!

To Relieve Catarrhal Deafness and Head Noises

If you have Catarrhal Deafness or head noises go to your druggist and get 1 ounce of Pars-Mint (double strength), and add to it 1/4 pint of hot water and 4 ounces of granulated sugar.

This will often bring quick relief from the distressing head noises. Clogged nostrils should be driven away with steam and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take.
