TROTZKY AGAIN OPENS PARLEY WITH GERMANS

Russian Delegates Leave Petrograd For Brest-Litovsk to Resume Negotiations With Central Powers; Industrial Unrest in Germany Continues; Finland Revolt Is Backed by Bolsheviki, Is Report

Copenhagen, Jan. 29.—The Red Guard has won complete control of Helsingfors, capital of Finland, a Stockholm dispatch to the National Tidende reports. It is not known whether the Finnish government officials escaped from the revolutionaries.

Petrograd, Monday, Jan. 28.—Leon Trotzky, the Bolsheviki foreign minister, and M. Kamenoff left Petrograd to-day for Brest-Litovsk to resume the peace negotiations with the central powers. The councils of the Workmen's and Soldiers' Delegates, while deploring the imperialistic tenor of the German peace terms, approved all the actions of the Russian delegation and charged the government to continue the negotiations.

The congress adopted a resolution to this effect after the minority, made up of Minimalists and Social Revolutionists of the Right had sought vainly to persuade the adoption of a policy flatly against a separate peace. During the debate Foreign Minister Trotzky declared he could not give a guarantee that he would not sign a separate peace, saying:

"To call a separate peace a disgrace is blasphemy in the sight of blood-covered Europe."

London, Jan. 29.—The report that M. Trotzky and his associates are on the way back to Brest-Litovsk is de-

GERMANS AGAIN BOMB LONDON; ONE PLANE BURNS

Two Groups of Raiders Cross Essex and Kent Coasts

London, Jan. 29.—German airplanes made their first attack of the year upon London and its suburbs last night, their bombs inflicting casualties officially reported as 47 killed and 169 injured. All the victims except one of the killed and seven of the injured were in the London area itself. No serious material damage was done and the raiders suffered the loss of one machine which fell in flames from a height of 10,000 feet, its three occupants being burned to death.

A large number of machines came over the coast in relays, but apparently only three or four succeeded in getting through the barrage and dropping explosive and incendiary bombs into the town. The sumpire lasted intermittently through five hours.

There was an hour's interval before midnight when no firing was heard except an occasional distant gun off towards the coast. Residents who were away from their homes at the theaters or in the shops when the raid began, concluded it was all over, although the buzzes had not sounded the "clear" signal, and more persons were in the streets than usual at midnight when the heavy guns began to boom again in warding off the second of the two attacks.

The British flyers were more active than ever before, having gained in experience in night flying. Besides the Gotha brought down by British scouts over Essex one was pursued over London by the scouting forces and the rattle of machine guns in the air was plainly heard from the streets.

The night was one of absolute clearness. There was a full moon and no clouds or wind. The population had ample time for securing shelter, adequate warning having been given.

CITY STRUGGLES TO GET TRAFFIC BACK TO NORMAL

Trolley and Steam Lines Get Back to Something Near Schedule Time

Harrisburg and suburban towns still were struggling this morning to extricate themselves from under the heavy blanket of snow that has almost completely tied up transportation and outside business for twenty-four hours. The total snowfall recorded yesterday was eight inches, and all street car and railway transportation in the city and steam railroads was more completely tied up than it has been at any time during the present winter. The Pennsylvania railroad, the Philadelphia and Reading and the Cumberland Valley railroads are still running lines behind time.

COMMITTEE HEARS PLAN TO DRAFT ALL AS THEY REACH 21

New Provisions of Draft Law Under Consideration by Senate Military Committee; Crowder Expresses Hope That Only Men of Class One Will Be Called; Objects to Proposal That Men Now 31 Be Exempted

Washington, Jan. 29.—New provisions of the draft law to bring in young men as fast as they become 21 were considered to-day by the Senate Military Committee with Provost Marshal General Crowder explaining them. Another proposed amendment, supported by the War Department, would discharge men as fast as they become 21 if they have not been inducted into the military service.

"We would exhaust Class 1," he said, before calling on other classes. I hope we will not have to call on any class except Class 1. If you pass the resolution to enroll men becoming 21 we will be assured, almost, of not having to go out of Class 1. If Class 1 in any community becomes exhausted, according to its quota, we would call on all other men of Class 1 in other communities before calling men of lower classes in the first community."

General Crowder opposed the plan recommended by Secretary Baker to exempt men becoming 31 without being drafted.

PRICELIST FOR FOOD ISSUED TO CITY BUYERS

Donald McCormick Declares Figures Are Based on "Cash and Carry" Plan

Shortage of Fresh Meat Expected to Develop A telegram from Howard Heinz, State Food Administrator, received to-day by Donald McCormick, local Food Administrator, states that owing to the transportation difficulties, there may be a shortage of fresh meat. The message lays special emphasis on the fact that wholesalers and retailers must distribute the present supplies of fresh meat equally among their customers. There should be little or no increase in cost of the meat.

If this ruling is not enforced by the meat-dealers, their supplies of meat will be cut off, Mr. McCormick states.

Prices of foodstuffs declared to be a fair charge for Harrisburg groceries to-day were issued by Donald McCormick, Federal food administrator for Dauphin county, following several conferences with representative grocers.

The price is said to have been figured on a "cash and carry" plan. Credit accounts and delivery charges may push the prices up higher, it was pointed out by Mr. McCormick.

The food administrator to-day emphasized the point that he has no power to fix prices, but is trying to show what housewives should pay under ordinary conditions. There is nothing, it was said, to prevent a

ITALY LAUNCHES SURPRISE ATTACK ON GERMAN LINES

Heavy Blow Falls on Asiago Plateau in Dead of Winter

Washington, Jan. 29.—Italy has furnished a military surprise by launching an attack of apparently considerable force on her mountain front in midwinter. The blow comes on the Asiago plateau, where the Austro-German invaders were halted early in the winter in their effort to push down to the Italian plains west of the Brenta river.

Berlin heralded the breaking out of a violent artillery duel in the Sittl-Communion region—the Asiago sector. Its force was reported to have reached a climax at dawn on Monday in the vicinity of Col Del Liosser, which height stands about midway between Asiago, and the Brenta.

The supplementary German official report of last night, which was not received until to-day, announces the opening of the assault in this region, describing it as a violent attack. "The report," it says, "was not received until to-day, announcing the opening of the assault in this region, describing it as a violent attack. 'The report,' it says, 'was not received until to-day, announcing the opening of the assault in this region, describing it as a violent attack.'"

In the lack of more definite news the probability suggests itself that the Italian effort is somewhat similar to that of the French a few weeks ago east of the Brenta which resulted in a penetration of the Austro-German line for a considerable distance and the subsequent withdrawal of the enemy from a rather extended area improving the Italian position, notably, Thus the Italians may now be endeavoring to effect a rectification of their line with a view to making more difficult any future attempt of the enemy to advance.

Rome, Jan. 29.—Italian troops made a heavy attack yesterday on the northern mountain front and broke into the enemy lines, the war office reports. Reinforcements which the enemy was hurrying down the Nos and Campomulo valleys were dispersed by the artillery of the Italians and their allies.

Twelve enemy airplanes were brought down. The Italians held mastery of the air everywhere. The Italians took more than 1,500 prisoners. They stormed enemy positions on the heights east of the Asiago basin and broke through at several points, resisting violent counter-offensives.
