PEACH GROWERS TO RAISE BEANS

The Fear That Buds May Be Frozen Leads to Changes in Season's Crops

Hagerstown, Md., Jan. 30.—Fruit growers on both sides of the Mason and Dixon line in the South Mountain peach belt, it is announced, are already planning to plant navy and soy beans in their orchards, owing to the severe winter weather, which has ranged from 5 to 17 degrees below zero at periods for a month, practically killing the peach crop by the buds freezing in the wood. Peach growers, it is reported, stand to lose hundreds of thousands of dollars as a result of the damage to the peach buds. They expect to recover a portion of their loss by growing beans, for which it is expected there will be an unusually heavy demand at high prices this year. Experiments made with beans in this section last year proved a success, and it is said, they can be grown profitably in the light soil now planted in peaches. Numerous demands are being made upon T. L. Smith, county farm agent here, by peach growers, for seed beans for the coming season, but furnishing the seed, Mr. Smith says, will be a big problem owing to a scarcity.

Reliable Prescription For The Kidneys

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine. It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do. Swamp-Root has stood the test of years. It is used by all druggists on its merit and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Harrisburg Daily Telegraph.—Adv.

VINOL MAKES GOOD BLOOD

Positive—Convincing Proof

Many so-called remedies for anemia are only so in name. Their makers are afraid to prove their claims by telling what their medicines contain. The only way to let them know what they are paying for. Here is the Vinol formula. When the doctor knows what a medicine contains, it ceases to be a "patent" medicine.

It Cod Liver and Beef Peptones, Iron and Manganese Peptones, Limes and Soda Glycero-phosphates, Casein.

Any doctor will tell you that the ingredients of Vinol, as named above, will enrich the blood and banish anaemia and create strength. When the blood is pure and rich and red, the body is strong and robust.

You can prove this at our expense because your money will be returned if Vinol does not improve your health.

Ice Conditions Along Potomac Cause Worry

Hagerstown, Md., Jan. 30.—Residents of towns along the Potomac river and its larger tributaries are disturbed over the possibility of a flood following a sudden thaw or rain melting the snow, which is from two to three feet deep in the mountains and in the valley, and the great mass of ice on the river breaking up. The river is covered with ice from 15 to 24 inches thick, for many miles, and the ground being frozen would cause the thaw water to run into the streams, instead of being absorbed.
