

Tech Boys Prepare For Mid-Winter Examinations

Earl D. Schwartz, a member of the S section of the Senior class of the Technical High School, is the new president of the Tech Camera Club. Schwartz is one of the real live wires at Tech and will spend much of his spare time in making the club a success. He succeeds Charles E. Keller, who recently left Tech to enter State College. At yesterday's meeting plans were begun for the display that will be given by the club at the open house meeting next semester. Mr. Manser, a state photographer, gave a splendid illustrated talk on the subject, "Composition." Those who attended the meeting were Fred Beecher, Robert Cunningham, Franklin Koons, Paul Humberger, Ralph Brough, Earl Schwartz, Charles Herbert, Roy Dixon, Luther Eckert, Mercedith Germer, Harry Gumpert, W. L. Keller, Charles Hamme, Herbert Sensenman, John Smith, Paul Schwartz, Joe Wachtman, Hugh Wells, Prof. W. A. McCune, Frank Gilbert, Roland Bentley, William Runkle and Louis Snyder.

Lenten Regulations Are Changed by the Pontiff

Pope Benedict XV has announced important changes in Lenten regulations. Some of the rigors of fasting prescribed for the Lenten season, which begins Ash Wednesday, February 13, are considerably abated, the most important change being the removal of the prohibitions against eating fish and meat at the same meal. Another change is the cessation of the Lenten fast and abstinence at noon on Saturday of Holy Week and a change in the weekly meatless days during Lent. Saturday is substituted for Wednesday, meat not being allowed on Fridays nor Saturdays except after noon on Holy Saturday, but it will be allowed Wednesday, except Ash Wednesday and Ember days throughout the year. Men serving in the Army or Navy are allowed to eat meat on all days of the year except Ash Wednesday, Christmas Eve, Good Friday and the forenoon of Holy Saturday. The bishop of each diocese may permit permission to working people and their families to eat meat on all days of the year except Fridays, Ash Wednesday, Holy Week and Christmas. The obligation of fasting still remains for the members of families who are not exempt.

SEND TOBACCO, NOT FOOD, TO U.S. FIGHTING MEN

Smokes Are the One Thing Defense Council Would Have Sent in Quantity

When he can pull on his pipe, Solace and help to evoke— When the brief moment is ripe, Whom does he see in the smoke? Maybe a sweetheart or wife, Left when the battle guns spoke. In his full hour of life, Whom does he see in the smoke? If you have given him true Love— It isn't a joke— Maybe 't will be even you Whom he will see in the smoke. Through the blue wreaths, to his glance, All are glorified folk: Some time and somewhere in France, Whom will he see in the smoke? If McLandburg, Wilson had followed out the thought in his poem he might have added a romance of how the soldier of the legion saw the girl who sent him the tobacco in his reverie. But poet Wilson very wisely pulled up at the right place. His verses are only intended to suggest what a whiff of fragrant American tobacco smoke means to the fighter in the trench. And it is necessary to keep reminding the people of America, who have, in point of fact, made no considerable sacrifice yet, that tobacco is needed, and that in this vicinity the funds should be sent to this newspaper, whence they will be speedily forwarded to the Smokes for Soldiers Fund.

Former Health Commissioner Says Nuxated Iron

Should Be Used in Every Hospital and Prescribed by Every Physician—Attributes His Own Great Physical Activity Today at Over 60 Years of Age Largely To His Personal Use of Nuxated Iron

WHAT FORMER HEALTH COMMISSIONER KERR SAYS "As Health Commissioner of the City of Chicago, I have importuned many times to recommend different medicines, mineral waters, etc. Never yet have I gone on record as favoring any particular remedy, but I feel that in Nuxated Iron an exception should be made to the rule. I have taken Nuxated Iron myself and experienced its health-giving, strength-building effect, and in the interests of the public welfare, I feel it my duty to make known the results of its use. I am well past my three-score years and want to say that I believe due largely to-day to my personal use of Nuxated Iron, and if my endorsement shall induce anemic, nervous, run-down men and women to take Nuxated Iron, and receive the wonderful tonic benefits which I have received, I shall feel greatly gratified that I made an exception to my life-long rule in recommending it. From my own experience with Nuxated Iron, I feel that it is such a valuable remedy that it ought to be used in every hospital and prescribed by every physician in this country."

Former Health Commissioner Kerr has given years of his life fighting for public health in his own and other cities. It was he who introduced Anti-toxin for Diphtheria in Chicago's Health Department. He purified the milk for the Consumers and thereby helped to save the lives of thousands of babies. He introduced the anti-spitting ordinance which has been copied all over the country and also took care of the sewers and garbage in the interest of public health. He is positive that the widespread use of Nuxated Iron would greatly lessen the worries and troubles of Health Commissioners in keeping up a high standard of public health.

NOTE—Nuxated Iron which has been used by Former Health Commissioner Kerr with such surprising results, and which is prescribed and recommended by physicians, is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturer guarantees successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists. Croll Ketter, J. Nelson Clark, Geo. A. Gorgas.

Senreco advertisement with image of a bottle and text: "Senreco use it regularly Keeps the teeth clean and gums healthy—Your dentist knows, ask him."

WARNING CARDS DANGER ICE OVERHEAD Size 22x28 FOR SALE BY THE TELEGRAPH PRINTING CO. FEDERAL SQUARE HARRISBURG, PA.

Handy "Pocket" Flask Caused Intemperance

Chester, Pa.—No more half-pints of whisky will be sold in this city, and there is weeping and wailing and gnashing of teeth among many of the thirsty individuals who like to carry flasks in their hip pockets. The real cause for the abolition of the half-pint is the first effort on the part of the industrial establishments to break up the practice of employees carrying the small bottle into the plants during working hours. It is believed that with the discontinuance of the sale of half-pints this practice will be broken up. STATE COLLEGE TO GIVE REGULAR SUMMER SESSION State College, Pa., Jan. 31.—Dr. E. H. Smith, director of the summer school for teachers at the Pennsylvania State College, to-day announced that the course will be given as usual during the coming summer. He has fixed July 1 as the opening date of the six week session. There has been some doubt as to the practicability of conducting a summer school successfully under wartime conditions. The college authorities, however, decided to go on with the work even though the attendance may drop. Formerly there have been more than 1,000 teachers enrolled.

Another Harrisburg Boy Reaches France in Safety

ARTHUR M. ECKERT Another Harrisburg young man has reached the scene of activities in France, according to word received to-day by A. I. Eckert, No. 26 Balm street, from his son, Arthur M. Eckert. The young man joined the medical hospital service last summer and he has now reached France, where he is attached to Evacuation Hospital No. 2. Eckert Sr. is a conductor on the Philadelphia and Reading Railroad. Only One "BROMO QUININE" To get the genuine, call for full name LAXATIVE BROMO QUININE. Look for signature of E. W. GROVE. Cures a Cold in One Day. 30c.—Advertisement.
