SAGE TEA KEEPS

Brings Back Its Beautiful Lustre at Once

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sags Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, darkens the hair taking one small strand at a time. By morning the gray hair disappears; after another application or two, its ready-to-use preparation, the compound is a delightful toller to the compound is a delightful toller requisite, the intended for the cure, mittigation or prevention of disease.—
