

BILLY SUNDAY IS ADVOCATE OF THE SMILEAGE BOOK

'Go to It Strong,' Urges Nation's Greatest Revivalist

BILLY SUNDAY

Billy Sunday, who is doing his bit in Washington, D. C., toward keeping the Hun in place, sent his congratulations today to the local committee on the first day's returns from the sale of Smileage Books, which netted about \$1,000 of the \$5,000 which it is aimed to obtain.

"As a matter of fact," said Billy, "most of the folks don't know what the man in the training camp is up against. You've got to give them something to do—something to take their minds off their work, once in a while. Keep the devil away. And then you sort of freshen them up so that they get a new grip on the work and can go at it harder."

"Why," he continued, "you run around the same thing everywhere in the business nowadays. Look at the books on the psychology of organization and selling. Look at the big business places putting up parks and restrooms and having ball teams—it gives the men something besides their work to bind them together. Did you ever go to a clambake? Now, then, did you ever get a case off for the hard pull again at the work when you came back? Sure you did. It's the same way with the soldiers. I never condemn the theater as an institution though there are a lot of things about a theater I don't approve of. But here's a case of giving the soldier some decent amusement, just like he used to get in his home town, or letting the devil get busy on him when there isn't anything else on his mind. The devil would sure elect on a lot of boys, simply because he got to em while they weren't looking. Give 'em the amusement—good, clean, snappy things: live stuff. And Smileage coupons will put it over in great shape. Good luck to Smileage. You'll have to print more books. The old folks back in the towns are going to jump at this chance."

"The Y. M. C. A. can't do this. They have their hands full with the war and welfare work let alone the rest of this it's all needed too." Sunday passed a good compliment to the administration when he learned that the Y. M. C. A. and K. of C. and the American Library Association are all under the War Department Commission on Training Camp Activities.

"Now, that's a pretty good work," he said, "So that was Wilson's idea? Good for him."

"Yes," he went on, lying down on the top of the library table with his hands under his head, "that's getting organizations together. That's America for you. Give them each a part and let 'em go to it. And you pulled all the Chautauqua managers together, too. Good for you. They're a great bunch. They do a lot of good in the country. Lots of these smart alucks in the cities don't know about them but they would learn a lot if they took the time they spent in Joe's place or some other gimball to find out what is going on, and wise up to some of the things that would help 'em a lot."

"That proves it," said Billy, when he saw a letter that General Scott had written in regard to the need of theaters. He slapped his hand with the same gesture he uses when he is giving the devil a good crack in the ribs. "There's a man that knows the situation. He knows soldiering. He's been an Indian fighter. He'll have a gang with him when he goes across that'll make anything the Kaiser has look as sick as a gimball when they love goes dry. Give the boys something to go to make the change as gradual as possible—that's good. Smileage is the way to do it. Go to it strong!"

GROCERS MUST SELL FLOUR ON A 50-50 BASIS

Housewife Must Buy Other Cereal With Wheat, Pound For Pound

Beginning to-day housewives in Harrisburg will be compelled to buy wheat flour and wheat flour substitutes in equal amounts. Retail grocers have been notified by Howard Heinz Federal Food Administrator for Pennsylvania, that until further notice they will not be permitted to sell wheat flour to their customers unless an equal amount of the substitute is purchased at the same time. It is said that drastic as the order is, it will be strictly enforced by the Food Administration.

While there is admittedly a general shortage here of substitutes, seventeen articles are named by the Food Administration as coming within the description of wheat flour substitutes.

Many of the substitutes, dealers declare are never in the local market in sufficient quantities to be food factors. The general stock of wheat flour substitutes in the city is said by the Food Administration to be sufficient however. Retail grocers are warned that if they have not provided the substitutes, they will have to go dig them up, for they must comply with the regulation.

In announcing "the 50-50" buying regulation covering the consumption of wheat flour, Mr. Heinz pointed out the following statement last night:

"To all dealers in food products and consuming public in the State of Pennsylvania: The President of the United States has called upon the American people to further aid in the conservation of our wheat supply and other food staples, to such extent as will enable the continued support of our armies and civilian populations of those countries associated with us in the war."

"Pursuant to this proclamation, the United States Food Administration has issued instructions limiting the sale of wheat flour by the trade to the ratio of one pound of wheat substitute to each pound of flour purchased, the rule to be strictly observed by all wholesale and retail dealers in flour unless modified by such specific written authority as might be granted in exceptional cases by State Administrators."

"Because of a general shortage of wheat substitutes and difficulties and delays incident to transportation, the proposed ratio of sale was temporarily modified in this state. The authorities at Washington now, however, believe that ample time has been afforded the trade to renew and replenish stocks of the wheat substitutes to sufficient extent to henceforth permit the full operation of the government regulation, even though such operation may still for a time be attended by inconvenience in some localities and establishments which need for wheat conservation is so serious as to demand instant co-operation on the part of the entire public."

"It is accordingly ordered that, beginning Monday, February 4, and continuing until further notice, all dealers in wheat flour (whole or retail) will be permitted to sell it only in combination with other recognized wheat substitutes in the minimum ratio of one pound of wheat substitute to each pound of wheat flour sold unless it is first definitely determined that wheat substitutes in equivalent quantities have been previously purchased from another source. For the present a written and signed declaration by flour purchasers within the trade will be considered sufficient evidence on which to base this determination."

Seventeen Substitutes Named "Cereals to be recognized as wheat substitutes are corn meal, cornstarch, corn flour, hominy, corn grits, barley flour, rice flour, potato flour, sweet potato flour, soya bean flour, ferretia flours and meals, and no others except that rye may be used until March 3."

"All county federal food administrators are charged with the duty of seeing that these regulations are strictly observed by the trade and will promptly report violations to the State Administrator. This is a necessary war measure and appeal is made to the public for patriotic acceptance of the conditions imposed, even though inconvenient in the purchase of any flour by fact of temporary trade shortage of substitute materials."

The complaint that farmers will find themselves short of fertilizers this spring unless the Federal Food Administration takes action, was answered yesterday by the administration, which said there are now several thousands tons of fertilizer in Philadelphia awaiting orders. It was also pointed out that arrangements have been made to provide the freight cars in which to transport it, and that the farmers will do well to place their orders at once. The embargo on fertilizers and food was raised on Friday.

Local market conditions continued to show improvement yesterday. The supply of vegetables, butter, cold storage eggs, poultry and meats was said to be ample. The strictly scarce articles of food were confined to out of season vegetables and tropical fruits. Prices ranged normal.

Real Contest For War Cabinet Will Open in the Senate This Week

Washington, Feb. 4.—The real agitation for a war cabinet, the real fight against governmental, inefficiency and the bureaucracy system, will open in the Senate this week.

Up to the present the agitation has been conducted rather blindly, and the attack has been delivered wildly. Two months of investigations have hardly passed Congress in touch with the executive situation, but within the last week, and especially after the attack on inefficiency delivered more than a week ago by Senator Chamberlain, of Oregon, the Senate has rapidly been finding its bearings with respect to the real issue.

Since the engineering students at State College have been granted a virtual exemption until after graduation, so that they may continue their technical studies, the agricultural school authorities are seeking the same privilege for their students. They say there is no place in the Army where a technically trained farmer can use his knowledge to the best advantage. Representatives of the leading agricultural schools of the country have made similar requests in behalf of their students. If the War Department considers these men essential to increased crop production and puts

efforts had been made to "get this wing of the Russian colony in line with the conference." Although the Bolsheviks are in control of the present assemblage, a persistent minority has created so much confusion that virtually nothing of a constructive character has been accomplished since the opening session Friday.

Seek "Deferred Draft" For Farming Experts State College, Pa., Feb. 4.—In an effort to get deferred classification in the Army draft for agricultural teachers, research workers and students, R. L. Watts, dean of the Pennsylvania State College School of Agriculture, has asked the War Department to list these men in Class 4. He advanced the argument that farming experts are needed at home to grow crops that will supply food for the Army.

Kerensky Followers to Hold National Convention in N.Y.

New York, Feb. 4.—Consternation spread among the Bolshevik delegates to the self-styled Russian colonial congress in this city, when news was disseminated that another Russian convention is to be held here February 9 to 11 by the followers of Alexander J. Kerensky, the deposed Russian premier.

The new convention, it was said, will be national in scope and will have delegations from all the important cities in the United States. It could not be learned who is at the head of the movement in opposition to the Bolsheviks, but Alexander Stoklitzy, in calling today's session of the congress to order, said that vain

efforts had been made to "get this wing of the Russian colony in line with the conference." Although the Bolsheviks are in control of the present assemblage, a persistent minority has created so much confusion that virtually nothing of a constructive character has been accomplished since the opening session Friday.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative. No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime. Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative. No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime. Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.
