other great things have been left un-done must be admitted. The credit for the things accomplished can be assigned to several individuals. The blame for shortcomings ought not to be laid upon any individual. Criti-cism should be directed against our system, or rather the lack of cohe-sive system." Recounting difficulties arising through indiscriminate priority or-ders and competition in the pur-chase of supplies; delays on account ind departmental "red tape" and the absence of power in the Council of National Defense, the senator con-tinued: "The plain fact is that we have no agency in our government to-day charged with the duty of projecting its vision far into the future, antici-pating the emergencies which rise because of conditions growing out of the war and the demand, for teach-

The following day state school directors will meet here to consider educational matters affected by the ducational matters interest by war. The hearing of the suit to test constitutionality of the escheat act was again postponed in the Dauphin county court to-day. It is now scheduled for February 18. State Treasurer Kephart and Audi-tor General Snyder to-day declared that they had never heard of Penn-sylvania owing \$2,867,514.78 to the National Government from the days of Andrew Jackson, as alleged by pating the emergencies which rise

pating the emergencies which rise and laying the plans by which we can meet and overcome them. "No one in his senses would pro-pose that any other office be created to take away from the President the powers the constitution confides to him." Referring to the committee's war inquiry, Senator Wadsworth said it had covered only a part of the ground and that to investigate all Army activities which might justify inquiry would not permit the comandrew Jackson, as alleged by ngressman Frank Clark, of Flor-

Governor Brumbaugh was visited the Capitol to-day by Senator W. Craig, of Beaver, author of the ground and that to investigate all ind class city police civil service in I. It is said that the Senator has ore civil service measures up his present session of Congress. Engineer for 20.

BRASS

Comparatively few people outside of New England are acquainted with the magnitude acquainted with the magnitude of the brass industry, the im-portance of it in connection with present world conditions, and the enormous profits that have been and are now being made by the brass manufac-tories in the State of Con-necticut.

In the City of Waterbury, Conn., alone (the brass center of the United States) more than 100 brass plants are in operation.

The subject, which is a very interesting one, is fully de-scribed in a special booklet which we have prepared and which, among other things, shows how investors may par-ticipate in the profits of this giant industry.

Ask for booklet E. P., which will be sent without obligation
