HE DARKENED HIS GRAY HAIR

They Used to Call Him Grandpa; Now They Call Him Kid

Tells How He Did It

Mr. J. A. McCrea, a well known resident of San Francisco, who was called Daddy and Grandpa and who darkened with a simple home-made mixture, recently made the following statement:

"Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair and make it soft and glossy. To a half pint of water add 1 ounce of bay rum, a small box of Bairo Compound and 1/4 ounce of castor oil. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It does not color the scalp, is not sticky or greasy and does not rub off. My friends now call me 'Kid'."
