COUNTING THE CAPITAL INVESTED, keeping books is a profitable business.

"It is quite as 'respectable' and useful a business as running a hotel. It is a business which can be made to prosper through a very moderate expenditure for classified advertising. As in other lines of business, the prosperous boardinghouse must run to full capacity - its volume of business must match its equipment for taking care of that business. In assuring 'volume of business' for any good boarding house, the classified ads never fail."
