

FOOD IS PLENTY BUT TOBACCO IS SCARCE ABROAD

"Smokes and Corn-Cob Pipe" Needed Most by Men in France

When that first letter came from Jim We wondered what we'd send to him; Way over on that foreign shore Where bullets fly and cannons roar...

The Pennsylvania Committee of Public Safety has been requested by the federal authorities to make an appeal to relatives and friends of the service men, as follows:

"The Council of National Defense desires to inform the people of the country that abundant food is supplied to the soldiers and sailors in the camps and cantonments, and that the bending of food to these

men by their friends and families is not in any respect necessary; that the aggregate quantity of food thus privately sent is enormous and that much of it, having been conveyed long distances in heated express or mail cars, is more or less spoiled, and consequently injurious to the health of the men. Therefore, in the interest of the conservation of food, and also the health of the men, the Council of National Defense requests the public to discontinue the sending of foodstuffs to the men...

Says His Prescription Has Powerful Influence Over Rheumatism

Discoverer Tells Geo. A. Gorgas Not to Take a Cent of Anyone's Money Unless Allenhu Completely Banishes All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be freed from rheumatism until the accumulated impurities completely banish uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let suffer every one who knows about his discovery through the newspapers.

Geo. A. Gorgas has been appointed agent for Allenhu in this vicinity with the understanding that he will freely return the purchase money to all who state they received no benefit.

CENTRAL IRON AND STEEL PLANT SHORT OF COAL

Officials of the Central Iron and Steel Company this morning announced that the open hearth of their plant is operating at full capacity, and that there will be a shutdown this week, at least. The coal supply of the plant is low, and there may be shutdowns of various departments next week. The Universal Mill is shut down, owing to coal shortage and the railroad embargo, but the employees of the mill are being employed at other labor.

Alkali in Soap Bad For the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary multifold cocconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get multifold cocconut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.

FORTY TRACTORS FOR STATE FARMS

Commission Urges That They Be Bought and Rented to Farmers at Low Rates

Forty farm tractors for the use of the farmers of the Commonwealth in order to stimulate crop production during the coming season was asked by the State Commission of Agriculture last evening. The commission by resolution adopted just before adjourning asked that the tractors be placed in the care of the Secretary of Agriculture Charles E. Patton. The commission plans that each tractor is to be placed in charge of a trained operator who will be sent to State College for one week's instruction. The farmers will be charged a nominal sum per acre for work done in planting and harvesting crops.

The Weeks bill now pending in Congress, which prohibits the importation of any nursery stock into this country was endorsed to the extent that it be amended so as not to be injurious to the nursery and fruit business of the state.

Commissioner Marvin E. Bushong was appointed to act with Secretary Patton in securing federal government co-operation for an adequate supply and quick delivery of fertilizers and also to bring to the attention of the national food administration the condition of cattle feeding in Pennsylvania and to take steps for the raising of more calves and increasing dairy herds.

In view of the fact that Pennsylvania uses five million dollars worth of honey and produces but one million dollars worth a year, the commission will take steps to encourage beekeeping by school children and will urge the establishment of bee clubs in the vocational schools of the state.

The commission by resolution has requested the Commission of Public Safety to take an active part in the campaign for more swine in the state. Secretary of Agriculture Patton was complimented on his successful campaigns to increase an interest in sheep raising and plans to continue the work were discussed.

Meetings For Men Planned by Carlisle Presbytery

Dr. J. Wilbur Chapman, moderator of the Presbyterian General Assembly and a widely-known evangelist, will address a meeting to be held in the Market Square Presbyterian Church, at 7:30, Saturday evening. The Rev. Dr. William E. Weir, general secretary of the committee on men's work of the Presbyterian Church, will also speak.

Dr. Weir will speak in Immanuel Presbyterian Church, Sunday morning, and Sunday evening, at Market Square Presbyterian Church. He will also address the men's mass meeting in Fahnstock Hall, Sunday afternoon on the subject, "Is the Church Becoming an Obsolete Institution?"

These meetings are arranged by the committee on men's work in the Carlisle Presbytery, consisting of the Rev. Harvey Kiser, the Rev. H. Everett Haliman, the Rev. John M. War, Henry E. McCormick, and J. Henry Spicer.

GENERAL MARCH NAMED BY BAKER AS STAFF CHIEF

Secretary Baker Announces Selection of New Artillery Chief

MAJOR-GENERAL PEYTON C. MARCH

Washington, Feb. 7.—Announcement was made yesterday by Secretary Baker of the selection of Major-General Peyton C. March, now at the head of Pershing's artillery forces in France, as acting chief of staff of the Army. General Tasker H. Bliss, chief of staff, will nominally retain the title for the present, but will remain in France as American representative on the interallied war council.

The change brings in as supreme directing head of the Army a vigorous man of 53, with the reputation of having a "big punch" in the management of affairs.

Major-General John Biddle, assistant chief of staff, and now acting chief, will remain as assistant temporarily, but later probably will be assigned to duty in France. General Pershing will select new artillery chief to succeed March.

Secretary Baker reiterated that the return of General March to head the staff had been under consideration for some time. Only the question of whether he could be well spared from the expeditionary forces has delayed official announcement of his appointment.

Although actual head of the staff corps, General March will not receive additional rank at this time. Congress has authorized only two appointments in the general grade, one to be the chief of staff and the other the commander-in-chief of American forces in France, and the continuation of General Bliss in the former office while he is serving on the allied war council will prevent the promotion of General March.

When General Bliss will return has not been determined, it was stated officially.

Major General Peyton C. March is a Pennsylvanian, born at Easton, December 27, 1864, the son of the famous Professor Francis A. March, of Lafayette. He was Lafayette's honor graduate in 1884 and graduated from West Point in 1888. He is an artillery expert, but man of great military ability. His service in the Spanish and Philippine wars attracted wide attention and he has been rapidly attaining high rank in the Army. Professor Thomas S. March, state high school inspector, is a brother, as is Aldan March, editor of the Philadelphia Press.

CHAPTER HOUSE DAMAGED

Carlisle, Pa., Feb. 7.—Fire, caused, it is believed, by a cigar butt falling in a waste-paper basket, caused about \$800 damage at the house of the local chapter of the Phi Kappa Phi fraternity yesterday afternoon. Clothing, Book and other articles were destroyed and the building damaged.

ORDERED TO PENITENTIARY

Carlisle, Pa., Feb. 7.—For an attempt to break jail, Herman Ledbetter, aged 19, formerly confined in the Dauphin county jail, has been ordered sent to the Eastern Penitentiary for six months on this charge and serve the remainder of his six months' term in the local jail at the Philadelphia institution.

American Steeple Jack Climbs Eiffel Tower

RALPH E. MONSON

Ralph E. Monson, of York, Nebraska, famous throughout the United States for his daring as a steeplejack, recently received his commission in the United States Flying Corps. Mr. Monson boasted to a friend that if he passed the examination for the flying corps, he would climb the Eiffel Tower in Paris as soon as he arrived there. Arriving in Paris, he immediately set about to fulfill his boast, and was quite a way up the tower when he was promptly stopped by the excited gendarmes and sentinels, who thought he had taken leave of his senses.

MURDER TRIAL POSTPONED Sunbury, Pa., Feb. 7.—Henry and Jacob Sallada, brothers, of Mahaningo Valley, were arraigned before Judge Cummings, in the Northumberland county court here, charged with the murder of Henry Schlegel, a Johnson City merchant, and pleaded not guilty. The case was then continued until the May term on motion of District Attorney Strouss.

CANDIDATE FOR LEGISLATURE Lewistown, Pa., Feb. 7.—C. G. Corbin, of Granville, Mifflin county, now a member of the Legislature, has announced himself as a candidate for re-election on the Republican ticket.

MARRIED AT PARADISE Leaman Place, Pa., Feb. 7.—Miss Ivy B. Fraich, of Leaman Place, was married to-day to Harry M. Benner, of Lancaster, at the parsonage of the United Brethren Church, at Paradise, by the Rev. Allen G. Nye, this wedding taking place an hour previous to the above ceremony. The couple were unattended.

FARMERS FEED GAME BIRDS Marietta, Pa., Feb. 7.—Farmers and sportsmen throughout Lancaster county are distributing feed for birds in order to keep them from freezing and starving. There are some sections where large flocks of quail and other game come regularly to gather feed.

HISTORICAL SOCIETY HEARS OF MODERN MOUND BUILDERS Dr. C. S. Schmucker lectured before members of the Harrisburg Natural History Society in the Technical High School auditorium last night on the subject, "Modern Mound Builders." Dr. Schmucker is a member of the faculty of the West Chester State Normal School. He is a famous naturalist, author and speaker, and his address last night was a description of the life of an ant in popular language. Dr. Schmucker's forte is the popularizing of science. In plain language he told of the habits, customs and colonies of ants.

SEIZED COAL FOR HOSPITAL Liverpool, Pa., Feb. 7.—Two car-loads of coal consigned to the Liverpool spinning mill was seized by the government before it reached Liverpool and was sent to a hospital at Philadelphia.

War Is All Gen. Sherman Said It Is

—only worse! Men who used to run the cars are in the service. They cannot be replaced while the war goes on. Fact is, the army is calling for more men.

Sherman didn't see this war! He didn't have the telephone, the wireless, the submarine, the airplane, the motor car, the trolley car, the tank or the 75 gun!

While we are fighting the greatest fight in all history hold your courage and remember that things could be worse.

So he didn't have to worry about getting men and materials to make all of these things.

But we've got to have them to-day!

Always bear in mind that every inconvenience you go through now is doing your bit for the Nation.

Every kind of industry and business in the land has been sacrificing what they actually need so as to feed the mammoth industry of war with men and materials. And rightly so!

We are more than anxious to keep the trolley service good—for like any other business enterprise—good service makes the trolley business profitable.

The war game to-day would astound Sherman!

Where we have less cars now—for the time being—just step up front when you get on the car and that will make room for one more.

The materials that mercantile establishments are crying for are going into clothes for soldiers.

The metal needed for a trolley wheel is diverted toward making a shell.
