

DORSETT GETS IN; GOES OUT

Commission Confirmed Him at Star Chamber Session; He Sends Resignation

People at the State Capitol were amazed to-day by an announcement from Secretary of Agriculture Charles E. Patton, that the State Commission of Agriculture had confirmed the appointment of E. B. Dorsett, of Mansfield, as chief of markets after all. The secretary's explanation was that the action was taken at an adjourned meeting after the commission had adjourned its prolonged session in the Governor's office where Dr.

Brumbaugh left them to settle their thoughts. Where, why and how the adjourned meeting was held the secretary did not say except to remark that he was not at it when action was taken and no explanation of the holdup of the announcement was vouchsafed. When the announcement of confirmation of Dorsett had been allowed to sink in Mr. Patton announced that Dorsett had resigned to take effect March 1. "Have you accepted it?" was asked. "I have not, but I probably will," was the answer. Dorsett is not making speeches in behalf of the state marketing campaign, but has not been paid and there is slim chance of him getting any pay for a while. Since he has been confirmed he will be paid eventually, but not until the Supreme Court passes upon the legality of the Patton appointment by the Governor after rejection by the Senate. Then he will be reimbursed. There are hints to-day that the commission's abated opposition so that Dorsett would not be paid until he had backed Dorsett, and so that he could get paid some time. A number of high officials opposed Dorsett from the start.

I Blame the Woman Who Lets a Man Drink Says Druggist Brown

Of Cleveland, He Guarantees a Simple Home Treatment Given Without the Knowledge of the Drinker

Cleveland, O.—No wife has a right to let her husband drink; for alcoholism is a disease and a drunkard is a sick man, says Druggist Brown, of Cleveland. A woman can cure this disease—stop a drinking husband in a few weeks for half what he would spend on liquor in the same time. The habit can be broken and the disease cured. Thousands of cases prove it and every community has its reformed drunkard. Druggist Brown says the right time to stop the drink habit is at its beginning. Left to run its course it will deaden the fine sensibilities of the man you love. Begin with the first whiff of liquor on his breath, but do not despair if he has already gone from bad to worse until he has become a rum-soaked sot. Druggist Brown knows the cure of strong drink for he himself has been a victim. A loving sister, without his knowledge or consent, rescued him from the brink of a drunkard's grave, and for ten years kept her secret. She saved him from drink—rescued

him from his own depraved, besotted self by giving him a secret remedy, and formula of an old German chemist. Druggist everywhere dispense it daily as Prepared Tescum Powders put up in doses. Get it from your own druggist and drop a powder twice a day in tea, coffee, milk or other drink. Soon liquor does not taste the same. To put his habit to bed, he takes one more drunkard has been saved and knows not when or why he lost his taste for drink. Warning Note:—Tescum should be given only where it is desirable to destroy all taste for alcohol and all pleasure in its use. Those who encourage moderate drinking should not give it until the so-called moderate drinker reaches the danger line as most of them do in time. Druggist Brown has such confidence in prepared Tescum Powders that he personally guarantees results or he will refund the craving for it disappears and is aided by the dispensing druggist. It is sold in Harrisburg by J. Nelson Clark, -Advertisement.

NEWS OF STEELTON THAW BENEFICIAL TO STEEL PLANT

Enables Borough Highway Department to Rush Snow Removal Program

The two days' thaw has been beneficial to the borough in many ways. It relieved the congestion of cars in the yards of the steel plant and opened up the streets enough to permit the resumption of garbage collections.

A force of men, the garbage truck and several wagons are working daily to remove the snow from Front street. This work is expected to be completed in several days and then the garbage collections will be resumed.

The refuse and ashes have been piling up considerably and residents are getting restless. Members of the Highway Committee request that residents put up with a little inconvenience until the snow-clearing program is completed. Unless there is another heavy snow, it will be possible to resume collections regularly in a week, officials claim.

At the steel plant the thaw enabled the transportation department to loosen up the freight car congestion to a great extent. Freezers were also repaired and the steam-power improved.

A request for the removal of ice from buildings was made by the police to-day. This action has been taken to prohibit injury or loss of life to pedestrians.

Harrisburg Girl Is Bride of Chas. Detweiler

Announcement was made this morning of the marriage of Miss Gertrude Moore, Liberty street, Harrisburg, and Charles Detweiler, member of the firm of Detweiler Brothers, Steelton, in Baltimore, Sunday afternoon. The wedding took place at the home of the bride's brother, and was performed by the Rev. Gilliam, a Methodist minister in Baltimore. Charles Detweiler is very well known in Steelton and Harrisburg. He has been in business here for a long time.

A Dead Stomach Of What Use Is It?

Thousands? yes hundreds of thousands of people throughout America are taking the slow death treatment daily. They are murdering their own stomach, the best friend they have, and in their sublime ignorance they think they are putting aside the laws of nature. This is no sensational statement; it is a startling fact, the truth of which any honorable physician will not deny. These thousands of people are swallowing daily huge quantities of pepsin and other strong digesters, made especially to digest the food in the stomach without any aid at all from the digestive membrane of the stomach.

AMERICAN BIG GUNS SILENCE HUN ARTILLERY

(Continued from First Page.) casualties. Later American shells started a fire in a German town which burned for an hour.

Patrols Enter Hun Trench. Patrols have been active. An American patrol last night quietly entered a German trench. They found a loaded rifle on the parapet and fresh footprints, but no soldiers.

American artillery and infantry have succeeded in clearing out a majority of the snipers who caused considerable annoyance from the time the sector was taken over by the troops. Snipers' posts in buildings have been destroyed. Snipers hidden in bushes or in shell holes, have been routed by American sharpshooters, ending annoyance. Night patrols have succeeded in locating some of the positions.

At one point enemy snipers were discovered in a shell hole. A few well placed shots from light artillery ended their career. Another range of a half of machine gun bullets was effective.

Sniper Positions Threatened. One or possibly three snipers' posts are still in front of the American positions but they are not likely to be there long.

German efforts against the French lines at Verdun and in Alsace are growing stronger. Infantry attacks have taken the place of raids, but the latest German attempts were repulsed with loss by the French northeast of Verdun, at the Bois Des Fosses, a sort of Hartmannsweller Kopf, in Alsace. Small raids and the usual artillery actions have occurred on the British front. In Italy the artillery activity has been slight.

Petrograd is again the scene of grave disorders and it is reported there has been much shooting and robbing of supply stores. It is added that twenty persons are said to have been killed in clashes between troops and rioters in three days.

The Bolshevik government, according to an unconfirmed dispatch received in Stockholm, has expelled from Russia the entire allied missions to that country. It is added that the members of the missions have left Petrograd.

New Discovery Ends Corn Misery-- Touch a Corn with Ice-Mint, Then Lift It Right Off--It Won't Hurt a Bit

Soreness Stops Quickly, then the Corn Shrivels and Lifts Off-- Try It and See.

Here is the real "Corn Killer" at last. Say good-bye to your old corn plasters and plasters for that. Pet Corn of yours is sure to be a "Goner" if it ever feels the Magic touch of Ice-Mint. This is a new discovery made from a Japanese product and it is certainly a wonder the way it ends Corn misery. From the very second that Ice-mint touches that sore, tender corn your poor tired, aching feet will feel so cool, easy and comfortable that you will just sigh with relief. Think of it; only a little touch of that cooling, soothing Ice-mint and real foot joy is yours. No pain, no a bit of soreness, either when applying it or afterwards and it doesn't even irritate the skin. Hard corns, soft corns or corns between the toes, also toughened callouses just shrivel up and lift off so easily that they disappear and it is in any Drug Store for a little Ice-mint and give your poor, suffering feet the relief they need every day. There is nothing better, or nothing "just as good."

Heed Hoover

The final success of the war in which we are now engaged may, and probably does, depend upon our ability to produce more food, and upon our thrift and self-sacrifice in conserving food products. Herbert Hoover

Herbert Hoover—the man to whom America looks for an ample supply of food and lower prices. And a good man he is. But his efforts will all be in vain unless every woman does her part to help him—to help herself. If each housewife in America saves only 15 cents a week—less than 3 cents a day—the saving to the country in one year will be one hundred and sixty million dollars! That's a mighty big item.

THERE are many ways in which you can save money on your table without sacrificing one bit of flavor or quality. Do your marketing personally instead of by telephone—stop all eating between meals—have one meatless day a week—order your meals so that you do not have anything left over—buy "Purity" Margarine.

Every time you buy a pound of "Purity" Margarine you save at least 15 cents of what you are now paying for butter—and you cannot tell the difference in flavor.
