

THE WORLD WAR'S NEW CALL TO MEN

The International Sunday School Lesson For February 10 Is "Jesus Chooses the Twelve"—Mark 3:7-35

By WILLIAM T. ELLIS

There is a fascination in studying the principles of the present world conflict as we find them in the four biographies of Jesus. All over the earth the call is for "man-power"; but it is the factor that will decide the war. Then we turn to the experience of Christ, and we find Him building all on "man-power" stating the very progress of His Kingdom upon a group of ordinary men through the ages the cry has been that which new echoes so loudly that call for men.

God give us men! The time demands strong minds, great hearts, true faith and willing hands men whom the lust of office does not tempt whom the spoils of office cannot buy.

BEAUTIFUL HAIR THICK, WAVY, FREE FROM DANDRUFF

Draw a moist cloth through hair and double its beauty at once.

Save your hair! Dandruff disappears and hair stops coming out.

Immediate? — Yes! Certain? — Yes! The joy of it. Your hair becomes light, wavy, abundant and appears as soft, lustrous and beautiful as a young girl's after an application of Danderine. Also try Danderine on your scalp. It kills the dandruff and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but that will please you most will be the new hair—fine and downy at first—yes—but really new hair growing all over the scalp.

Danderine is to the hair what fresh powers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its stimulating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful. You can surely have pretty, charming, lustrous hair, and lots of it, if you will spend a few cents for a bottle of Danderine from any drug store or toilet counter and try it directed.

World's Leading Medical Authorities endorse Value of Such Ingredients as are Contained in Father John's Medicine

Wholesome Food Medicine and Body Builder

Free From Alcohol and Dangerous Drugs—60 Years In Use—Guaranteed

The most eminent medical authorities, recognized all over the world as the highest in the science of medicine, have made public statements endorsing the value of the ingredients as we guarantee the principle ingredients of our Father John's Medicine.

High medical authorities say "that the ingredients are beneficial not only in wasting diseases which are fatal and those maladies which are cured with or have their origin in colds and debilitating and wasting diseases." To give these statements in full would take too much space, but we will furnish on application the list of ingredients of Father John's Medicine, the names of the medical authorities referred to, what they say, the publications and the dates same. Never wait for a cold to wear off. It wears away the lungs instead. Colds often lead to pneumonia. Father John's Medicine gives prompt relief from colds and throat troubles. Guaranteed free from alcohol and no-decaying drugs upon which no medicines depend for their curative effect, and which are dangerous, because they weaken the body and allow the disease to get a permanent hold.

In the purpose of Christ, His college of apostles became himself twelve times repeated.

The Possibilities of Plain Men Jesus did not wait for geniuses. The differences between a good executive and a second rate one is that the good executive can take the material in hand and utilize it effectively. The second rate man goes about whining over the lack of competent helpers. We are prone to be mistaken in our estimate of the apostles, for we see them in the ripeness of their power and service. When they were called by the Lake of Galilee they were amazing like you and me. All of them were average, everyday folk, without much social poise or polish. Most of them were more at home in a lumbering, fish-odorous boat than in a palace or in "good society." Let us get hold of this great truth. Analyze the list of the twelve and their temperaments and in training they are seen to be common folk; more common than the average of delegates at any religious convention to-day.

We are prone to boast of the big names that adorn our churches and religious organizations. We are proud of the rich and famous laymen who are on our lists. The exaltation of the merely wealthy or prominent to places in church work has reached an absurd length. Those who have worked with them have come to see that these are not the men who make things go. The example of Jesus rises up to remind us that His source of supply, the everyday folk who toil, is still at hand. Why should our secretaries spend their time trying to beguile a reluctant hour or two from a busy man of affairs, when there are virgins of waiting men with unoccupied time in all our churches waiting only the call of leadership?

The amazing fact about the whole story is what Jesus can do with an ordinary man. We talk much of the self-made man, but he is not to be compared with the Christ-made man. The most ordinary person, plus Christ, becomes an extraordinary person. The twelve untrained rustic Galileans, about whom we study to-day, became the statesmen of the world's greatest empire. That group of Syrian peasants have changed all the history of the race, and are still at work in our own time. Their achievements throw into the shade those of Alexander and the Caesars.

The High Call Garibaldi summoned his recruits to long marches, to hunger, to privation, to wounds, to death. His followers leaped in heroism to the high summons. So it is no easy allegiance that Jesus offers to His disciples. He calls men and women into service that is hard as it is holy. He bids them give themselves to the difficult task of being salt for the salvation of society. As salt is ever in danger of losing its savor, so Christians are subject to the constant temptation of losing their salt-ness—their uniqueness, their power to preserve—because they become like the lump they are meant to leaven.

Likewise Jesus bade His disciples to be the lights of the world. Then, as now, the salvation of a neighborhood and of a state depends upon the righteous men. No nation can live without the lives that are light and that are salt. These are the hope of our time. No city can get so bad that even a handful of true disciples cannot redeem it. Ten righteous men would have saved Sodom. The day's need is voiced by the hymn of the brotherhoods:

"Jesus calls us, o'er the tumult of our life's wild, restless sea; Day by day His sweet voice soundeth saying, 'Christian, follow Me.' As of old, apostles heard it By the Galilean lake, Turned from home and toil and kindred, Leaving all for His dear sake."

Program For Y. M. C. A. Entertainment at Wiconisco Wiconisco, Pa., Feb. 8.—A Y. M. C. A. entertainment will be given in the Wiconisco High School building on Saturday evening next, with the following program:

Edison Gives to War His 71st Birthday

New York.—Thomas A. Edison will be 71 years old on February 11. The day will find the inventor occupied with the technical problems of the war in full enjoyment of sound mental and physical vigor and as dangerous an opponent as confident German Wissenschaft well could wish.

Devoting all his time to the present great purpose of America in the world convulsion, the noted inventor will not loose his grip on his biggest problem to spend the day in the customary celebration at his home in Llewellyn Park, West Orange, N. J. The Association of Edison Pioneers, recently organized at the Engineering Building in New York and composed of sixty of Mr. Edison's early associates, will commemorate the anniversary at a luncheon in this city. Some of the pioneers were with Mr. Edison at Menlo Park and others were among his first New York aids. They date their service with Mr. Edison from fifteen years and earlier and membership in the pioneers is restricted to those who served the "Wizard of the Laboratory" in these early years. These men are scattered all over the United States. Mr. Edison will not be with them, as his duties will not permit.
