GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Hair becomes charming, wavy, lustrous and thick in few moments

Every bit of dandruff disappears and hair stops coming out

For a few cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggly, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a small bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

SERGEANT EMPY TO GO "OVER THE TOP" IN BIG PATRIOTIC MOTION PICTURE

Famous Soldier-Author-Lecturer Signs With Vitagraph Company to Appear in Film Based on His Celebrated War Book, "Over the Top"—Has Obtained More Than \$50,000 for Newspaper "Smoke" Funds and Sold More Than \$1,000,000 Liberty Bonds.

Sergeant Arthur Guy Empey, author of "Over the Top" and one of the most widely known personalities developed by the war, and through whose interest and active effort more than \$50,000 has been realized for the soldiers and sailors tobacco funds, has gone into motion pictures. He has signed a contract with Albert E. Smith, president of the Vitagraph company, to appear in a big feature to be called "Over the Top," based on his own eighteen months experience in the trenches.

Sergeant Empey doesn't enter his military work and lecture engagements keep him busy and he has refused offers to appear in vaudeville at enormous pay. He will make the picture his own, "simply in the hope that a motion picture adequately depicting conditions on the other side may serve further to awaken American realization of what we are up against."

Sergeant Empey personally sold more than one million dollars worth of Liberty bonds in the second drive, and he has been an active worker by lecture and personal appeal, in behalf of the Red Cross. Autographed copies of his book, sold at auction, were brought as high as \$2,000 for "smoke" funds. The screen version of "Over the Top" has been prepared by Robert Gordon Anderson, the Vitagraph Company, a close associate of Sergeant Empey and his publishing adviser. He has woven a thrilling love story in between the stirring scenes which Sergeant Empey's book details, and it is declared the story is one of the strongest war documents yet produced. The picture will be a machine gunner and bomb thrower and introduces a thrilling airplane episode where Empey, at the head of a flying force, is a German flyer to carry him from behind the German lines to those of his own comrades. Lois Meredith, who plays the heroine, is a beautiful little Irish girl, well known both on the screen and

Girl Operator Who Took Call For Troops in 1861 Is Knitting For Soldiers

Lewistown, Pa., Feb. 13.—Miss Elizabeth Cogley, of Lewistown, aged 84 years, is knitting her twenty-eighth sweater for the Red Cross since the United States entered the war. In Civil War days Miss Cogley knitted for the boys in blue and was a member of the Red Cross of the United States and Germany she at once got busy.

Miss Cogley was at the telegraph key in the office when the Lincoln's call came for troops at the breaking out of the Civil War, and she took the message off the wires and got in communication at once with the Logan Guards, a local military organization of Lewistown, which offered its services, and was the first body of men to do so. Miss Cogley learned telegraphy with her brother, a member of the Logan Guards, who is still a telegraph operator here. The members of the Logan Guards of the First Defenders all wear a medal given them by Congress as a reward for their quick action in responding to the call.

Congress Will Provide \$50,000,000 to Build Homes For Shipbuilders

Washington, Feb. 13.—The administration bill, already passed by the Senate, appropriating \$50,000,000 to provide for building facilities for employees of shipyards engaged in government work, was passed by the House late yesterday without a roll call. The House adopted some minor amendments, which the Senate may accept to obviate necessity of sending the measure to conference. Under the bill the shipping board's Emergency Fleet Corporation may purchase, lease, requisition, or construct houses, buildings, or similar facilities, may construct houses on land it acquires and sell, lease, or exchange these houses, and may accept loans on adequate security and for not exceeding ten years to persons, firms or corporations to build houses for shipyard workers.

A bulletin issued at noon said: "Colonel Roosevelt had a comfortable night, and his condition is improving. His temperature and pulse are normal, and at present there is nothing to indicate further operation." Among those who called at the hospital to inquire about the Colonel's progress were Chauncey M. Depew, Clarence H. Mackay, Henry A. Wise Wood, General Theodore A. Bingham and Oscar Straus.

Dog Burial Cost \$500; That's Only a Start

Towanda, Pa., Feb. 13.—James Walbridge three weeks ago buried his pet dog, after spending nearly \$500 for funeral expenses. Today as a direct result of the widely published story of the burial, Jim has on hand requests for \$319,000, several proposals of marriage and numerous offers of pets of all varieties to take the place of the dog.

He also has a letter from the Red Cross Society of one of the western cities criticizing his funeral with a request for a large endowment for the chapter. One San Francisco woman has asked for \$15, to be used she says, for Red Cross work, and another woman of the same city has asked for \$100,000 to endow a home for "homeless" dogs. A St. Louis woman, claiming her bankroll at several millions, has offered her purse, hand and two dogs in marriage. A colored educational institution in the South has asked for \$6,000, two large manufacturers of graveyard fence have offered bids on the fence around the dog's grave, and a western college wants \$100,000 to endow a building to the local man. Other appeals include requests for assistance from two boys in Shenandoah, churches of cities and towns from every section of the country and Baltimore land promoters. He is offered 114 dogs and several score cats.

Coal Shortage Closes New Jersey War Plants; Thousands Are Idle

Newark, N. J., Feb. 13.—War work in hundreds of plants in northern New Jersey is at a standstill to-day as a result of the shutdown of power by the Public Service Electric Company. The service is not expected to be resumed for several days. Thousands of workmen are idle in all industries north of Trenton. Only power sufficient to supply street railways, homes and shipping piers will be furnished by the company until the situation improves. The Public Administration to continue the pooling process by which this amount was furnished, it is said, made the curtailment necessary.

The building, which was erected in 1861-65, was the first put up at Vassar. It housed 400 girls. It is believed all the students escaped.

A dispatch from Madrid on February 9 said the Italian steamship Duca Di Genova, of 7,832 tons, had been torpedoed only a mile off Murviedro beach on the Spanish coast. The Spanish steamship Girarda was sunk on January 28. A protest against the sinking was presented at Berlin by the Spanish government on February 8.

There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches or dizziness. Pape's Diapepsin helps to neutralize the excessive acid in the stomach which is causing the food fermentation and preventing proper digestion. Relief in five minutes is waiting for you at any drug store. These large fifty-cent cases contain enough "Pape's Diapepsin" to usually keep the entire family free from stomach acidity and its symptoms of indigestion, dyspepsia, sourness, gas, heartburn and headache, for many months. More brains than metal are used in building this MAXWELL TRUCK

Brains are hard to find and come high, but they are the cheapest in the long run. In a great organization like the Maxwell Motor Company which, in four years, has done a business in excess of \$100,000,000, there are many great minds.

These great minds have found a way to make trucks stronger, yet lighter in weight (more thought and less metal went into the truck). These great minds have found ways to build them better, yet at less cost.

That's one reason why you can buy a Maxwell for \$400 less than any other truck of similar capacity in the world.

That's one reason why the Maxwell has a verdict of close to 100% perfect from its service record based on the 6600 Maxwell trucks now in use.
