

LUTHERANS LAY CAMPAIGN PLAN

War Fund Drive Begins Here Next Monday and Will Be Carried on With Vigor

Lutherans active in the city and county are engaged in laying plans for the great Lutheran War Fund drive, which is expected to raise \$750,000 in the country for the comfort and welfare of the Lutheran soldiers in the camps and at the front.

"JUST WONDERFUL" SAYS MISS NAYLOR

Her Appetite Now Is Simply Grand and She Sleeps Like a Little Child

TANLAC BROUGHT IT ABOUT

"I never dreamed that there was such a splendid medicine in the world—it is simply wonderful," joyfully exclaims Miss Ida E. Naylor, 212 S. 24 St., Steelton, Pa.

"I had been all run down and utterly miserable for a long time. My stomach was all out of order. But as soon as I started to take Tanlac I began to feel better and I've kept right on improving until now I feel fine. My headaches are all gone, my appetite is just grand and I sleep like a little child. Honestly, I can't say enough good things about Tanlac."

Tanlac is now being introduced here at the Gorgas' drug stores.

Tanlac is also sold at the Gorgas Drug Store in the P. R. R. Station, in Carlisle at W. G. Stephens Pharmacy; Elizabethtown, Albert W. Cain; Greencastle, Charles B. Carl; Middletown, Collins S. Few's Pharmacy; Waynesboro, Clarence Croft Pharmacy; Mechanicsburg, H. F. Brunhouse;—Mech.

Dr. Ferdinand King, New York Physician and Medical Author, says physicians should prescribe the most reliable iron-bromide for their patients—says anemia, iron deficiency is the greatest cause to the health, strength, vitality and beauty of the modern woman.—Solely warning against use of metallic iron, which may irritate the bowels, corrode the stomach and in some cases thereby do more harm than good; advises use of only iron-bromide, taken three times per day after meals. It will increase the strength and endurance of weak, nervous, run-down folks in 10 days time in many instances. Dispensed by all good druggists.

BAKERIES MAY BE CLOSED SOON

[Continued from First Page.]

cannot reach us. Flour ordered weeks ago is somewhere on the road and we cannot even find out where. There seems to be no relief in sight and as there is not enough bread materials in stock here to last more than a few days, I cannot see anything but a famine ahead."

The bakers here understand that the federal government has shut down many of the big western mills and this, of course, will contribute to the shortage.

The only concern in Harrisburg that is not worried over the immediate situation is the Standard Baking Company, which was fortunate in storing up a considerable quantity of flour so that there is enough now to run for several weeks.

Mr. Schmidt late this afternoon was able to get one full car of flour to-day, principally through the efforts of Mr. Rupp of the Pennsylvania Railroad. He added that both railroad managements were doing everything possible to help the bakers and that their energy may result in some of the forty cars of flour now on the road being sent through in time to prevent a famine.

Bargains in Tired Russia; a Whole Pack of Cards For Single Machine Gun

London, Feb. 13.—The correspondent of the Morning Post reports that German traders took advantage of the situation in Russia and erected 400 booths at convenient spots along and close to the Russian front. It appears that the Russian soldiers are most anxious to obtain playing cards and that they readily exchange a machine gun for a pack of cards.

1 Cake Cuticura Soap and 1 Box Ointment

Heal Itching Burning Skin Trouble On Child's Head.

"My little girl's trouble began from a tooth rash until she had a solid scale the width of her forehead, all over her head, and on both cheeks. It later turned into blisters, and the skin was inflamed and sore. It caused disfigurement, and also much itching and burning, and she would lie awake nights. The trouble lasted about two and one-half months, before we used Cuticura Soap and Ointment. When we used one cake of Cuticura Soap and one and one-half boxes of Ointment she was healed." (Signed) Mrs. Daniel F. Stinner, Vine St., Williamsport, Pa., Oct. 10, 1917.

Why not use these fragrant, super-creamy emollients for every-day toilet and nursery purposes and prevent these distressing skin troubles? Sample Each Free by Mail. Address: Postoffice Building, Dept. H, Boston. Sold everywhere. Soap 25c, Ointment 25 and 50c.

RELY ON THE READY FOR CONVENTION

RAILROAD HEADS ARE COMPETENT

[Continued from First Page.]

advisors on the railroad question, the Minnesota Senator said he intended doing everything possible "to strengthen and facilitate government operation and insure justice to the people, the railroads and the vast army of service holders."

Hampered by Laws The executive committee of railroad heads, the Senator said, created co-ordinated the transportation facilities and enormously increased traffic, but were hampered by certain laws and restrictions which should have been abolished.

Approves Compensation Senator Kellogg approved of the compensation increase in the bill and said: "A guarantee by the government of a permanent income on an investment would be reasonable at a very much lower rate, but the guarantee in this case is only for the period of the war and a short time thereafter, and therefore it should, as near as possible, represent the earning capacity of the roads over a reasonable term of years."

Not For Permanent Control Senator Kellogg said he believed the provision in the bill terminating government control within eighteen months after the war should be retained. "I have no doubt that under the war power," he added, "Congress may keep the railroads for a reasonable time after the termination of the war. But to keep them an indefinite time and pay rent therefore, is obtaining property under false pretense so far as the American people are concerned. I am not yet prepared to take a step that will force government operation upon the people of this country."

USE RIVER PARK FOR CITY DUMP [Continued from First Page.]

dirty snow and ice. Park department officials declare that the amount which has been done to the grass and trees by the heavy carts and trucks will be at least \$500 and declared that the city should be made to pay for the cleanup which will be necessary.

At Boss street there is a roadway to the water, and the city street. These could easily have been used and the snow dumped into the river, instead the carts, wagons and trucks were piled up the grass and emptied right in the park.

Many Raise Objections "Thousands and thousands of dollars have been spent to beautify the River Front and make it a public recreation park," Mr. Gross said. "Never before in the history of the department have such conditions existed. Residents in the vicinity and persons who walked along the River Front during the last few days have raised serious objections to the action of the highway department. It must be stopped and even now hundreds of dollars worth of damage has been done. Many of the trees have been barked and some may be ruined, and the grass in spots has been cut."

There is absolutely no necessity for dumping in the park. With the two roadways to the river, teams hauling snow from uptown streets have a place to dump the snow. Today some of the teams hauled large pieces of ice which had been removed from the streets, and dumped them on the path from Calder to Harris streets.

Dumping Ashes "In South Harrisburg along the park residents have been dumping ashes. This must be stopped also. Last year hundreds of trees and bushes were planted in this stretch of the park, but if the persons in the vicinity continue using a public dump the money and work to improve the place will have been wasted."

Coal famine soon to pass [Continued from First Page.]

eight cars of hard was the best thing that has happened to them this year. Promise of Improvement Mr. Hickok, county fuel administrator, said this morning that the anthracite situation promises to improve. Chairman Edmunds, of the Anthracite Operators' Committee, at Philadelphia, promised Mr. Hickok this morning that Harrisburg will receive more adequate anthracite shipments in the future.

Only thirteen emergency orders were filled by the fuel commissioner yesterday. Thirty calls for assistance were received, but less than half were urgent.

The Harrisburg Fuel and Power Company received four cars of river coal yesterday. Mr. Kaltwasser, general manager, said this morning that he has made arrangements to be taken care of regularly with river coal from Shamokin. He continues to receive consignments of bituminous. His plant to present is provided with coal to last a week, he said.

The Harrisburg Gas Company received a car of coal for its immediate needs yesterday.

SCHOOLS AIDING THE RED CROSS

Work Done by Children For Army and Navy Is Creditable

It is possible to enroll 27,500 children of Dauphin county in the Junior Red Cross, and the teachers of Harrisburg and vicinity this week are bringing the Red Cross vividly to the attention of the 12,500 pupils in the Harrisburg schools and the 15,000 pupils in the Dauphin county schools outside of Harrisburg.

Superintendent Downes of the Harrisburg schools, and Superintendent Shambaugh of the county, together with the latter's assistant, Mr. Zimmerman, have been working very hard on behalf of the Junior Red Cross.

Here's What It Is The Junior Red Cross is a miniature of the Red Cross. Each room in the Junior Red Cross is a miniature of the Red Cross. The Junior fee is twenty-five cents, a year, and this money is used by the teacher in securing material for the scholars to work with.

Perhaps there are some children who would not be able to contribute the twenty-five cents for membership. Where this happens the teacher is arranging little entertainments whereby money is raised for the room's members.

The Junior Red Cross membership turns out mighty fine work, as can be seen at Red Cross headquarters, Front and Walnut streets. There are infants of that sort in display, pretty robes for babies, and boxes of cretonne bags for hospital uses and things of that sort. The youthful workers start their knitting with the wash rags. When they can knit wash rags perfectly, then they are graduated to something else.

"We don't ask for large quantities of these aids for soldiers," said Mrs. Lyman D. Gilbert to-day. "What we want is perfect articles; and we are finding that the girls and boys of the schools are doing remarkably well. This is not confined to the girls, by any means. The boys are taking it up very earnestly."

Tomorrow will be History Day; Friday will be Geography Day; Monday is to be English Day. Other special days for children will follow until February 22 when the Junior Red Cross drive ends.

Urges all Harrisburg teachers to pay particular attention to these special days," said Superintendent Downes to-day.

BEAUTY SPECIALIST TELLS SECRET

A Beauty Specialist Gives Simple Home-made Recipe to Darken Gray Hair

Mrs. M. D. Gillespie, a well-known beauty specialist in Kansas City, recently gave out the following statement regarding gray hair.

"Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair, and make it soft and glossy. To a half pint of water add 1 ounce of bay rum, a small box of Barbo Compound and 1-4 ounce of glycerine. These ingredients can be bought at any drug store at very little cost, or the druggist will put it up for you. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It does not color the scalp, is not sticky or greasy and does not rub off."

To Save Whole Grains Not Fed to Chickens

Representatives of fifty manufacturers of feeding stuffs with plans in twenty states at a meeting at the Capitol to-day arranged to place upon markets the standard poultry feed worked out by the Federal War Poultry Commission for Pennsylvania and the experts of the State Department of Agriculture which it is expected will utilize by-products and enable the whole grains to be used for food.

J. F. Lantz, Cly, and H. L. Watson, Lancaster, presented standards which they declared represented the correct amount of nutritive elements needed for laying hens and urged the importance of grain conservation. E. B. Dorsett, chief of state bureau of markets, said that the bureau would co-operate and urged doubling the poultry stock of the state. The proposed standard and necessity of conserving whole grains formerly fed to chickens was presented to poultrymen at a recent meeting here.

The Greatest of Indoor Sports

Beating Old Man Dyspepsia with a Finish With Stuart's Dyspepsia Tablets. Tackle a Good Fine Lunch and Get Away With It.

Our stomachs lead us three or more times a day to the business of eating. And it is the greatest of indoor sports, a year-around affair throughout life. To keep the stomach fit, to keep it braced and in training all times, the very simple expedient of a "Stuart's" tablet after meals will prove a constant source of both protection and preparedness. No gas, no sour, belching, bilious stomach, no distaste for food, no coated tongue, no distress after eating, no matter what you eat when meals are followed by Stuart's Dyspepsia Tablets.

Get a 50 cent box to-day at any druggist. Let them digest your food while the stomach takes a much needed rest.—Advertisement.

Camp Curtin Fire Co. Elects New Officers
