Accomplishing Something

There are two important things for a worker to consider, namely:

The First - "Where is a good place to work?" And the secwork?" And the sec-ond—"Is there an opportunity for me to better myself?"

The surroundings of the employes of the Blough Manufacturing Company's factory are modern in every way. Sanitation is strict. Comforts and conveniences are at the disposal of everyone. The work is easy and can be quickly learned

and by the use of perfectly run and up to date machines the workers can earn good money and receive a bonus of five per cent. every two weeks. The efficiency with

which the plant is operated in every nook and corner, every day in the week, has helped to make it one of the largest and leading factories in the state.
