Lift Out Your Corns

ICE-MINT THE NEW DISCOVERY ENDS ALL Foot Troubles. This new discovery, made from a Japanese product, is certainly a wonder. The way it draws out inflammation from a pair of swollen, burning, itching feet. It takes the soreness right out, then the corn or callous shrivels and lifts off. Hard corns, soft corns or corns between the toes, just shrivel up and lift off so easy. It is wonderful. Just think! Not one bit of pain while applying Ice-mint or afterwards. It doesn't even irritate the surrounding skin. You will never have to cut a corn again and run the risk of blood poisoning. Say good-bye to your old corn salve, plasters and bundling tape for that get corn of yours is sure to be "gone" if it ever feels the magic touch of Ice-mint. It imparts such a delightful, soothing, cooling feeling to the feet that you will sigh with relief. Ice-mint is the real Japanese secret for fine, healthy little feet. It prevents foot odors and keeps them sweet and comfortable. It is greatly appreciated by women who wear high heel shoes. Just ask in any drugstore for a little Ice-mint and give your poor, suffering, tired, swollen feet the treat of their lives. It costs little, and there is nothing better.—Advertisement.

OLD STATE SPIRIT REVIVED

When Picture Theater Manager Secures State Police, Students Start Things

Bellefonte, Pa., Feb. 18.—At last has the true Penn State spirit revived at the Pennsylvania State College, and as a result, or perhaps as the occasion, things have been popping at the college town near here during the past week. Ever since the fall term opened, State College has been depressed by the exigencies of war, and the students have failed to respond to college large numbers of the student body are now in active military service. The loss of friends and college interests has cast gloom and lackluster among those remaining. Recently, however, a new manager of the town picture theater, who is endeavoring to enforce strict order among the college boys who might attend the plays, the situation becoming acute an evening or two ago when the boys, in answer to the challenge, invaded the movie houses with mouth-organs, mandolins, guitars, ukuleles, and alarm clocks, the music of which they accompanied with calls and jeers at the management. The manager might have laughed the matter off, but he was adamant and night before last he had three state policemen on hand to enforce order. As the "state cops" paraded down the aisles of the theaters the students silently got up behind them and left the theaters, the crowd of 2,000 students had assembled and in a good-natured manner subjected the "state cops" to a lot of raillery and proceeded to raise merry calm. The "studs" lost no time in securing a quantity of paint and during the night signs protesting against the movie management were strung up throughout the entire town. A branch college clothing store, conducted by the proprietor of both movie theaters, came in for a share of indignation and artistic merit ran riot with ingenuity in the gratuitous decoration supplied to all three places by the students. Capping the "red night" of the management was hung in effigy on the college campus. The students considered the entire affair a righteous protest against the "canning" of the old movie manager and the matter would likely have been dropped, but the new management saw things in a different light and on Thursday the state police arrested 20 students who had been recognized in the crowd of 2,000 celebrants the night before, namely, Howard H. Wilson and Richard T. Dolphin. Both young men happen to be exceedingly popular with the student body and when the news spread that they had been "pinched" a mob of 1,500 students assembled in an ugly mood, though no violence was committed. The two young students will be accorded a hearing before Justice of the Peace Kline Woodring of Bellefonte, to-morrow evening, for which they both entered bail.

FIFTEEN ASK FOR LICENSE IN PERRY

No New Stands and Only Two Changes Made in Names of Applicants

New Bloomfield, Pa., Feb. 18.—Fifteen liquor licenses are asked in Perry county this year. Not a single application for a new stand has been asked and not a single licensed place during the past year fails to have an applicant for a license for the stand again this year. However, two new applicants appear in the persons of William S. McKay, who has applied for a license for the Central Hotel, Marysville, and John G. Hench, who wishes a license for Hotel Dimm, Blain, instead of McClain Cox. George W. Rhoads, of Marysville, held the former license during the past year, but he has engaged in the feed and coal business and has decided to withdraw from the saloon trade. McKay formerly held a license for the Commercial Hotel, Marysville, and after he was refused a license there he went to Harrisburg, where he conducted a saloon at 316 Strawberry avenue. A summary shows that in five towns two licenses each are asked. The towns so affected are New Bloomfield, Duncannon, Newport, Millerstown and Liverpool. One license each is asked for Marysville, Shermansdale, Blain, Elliottsburg and New Germantown.

ORDINANCE TO FIX LICENSES

Gettysburg Council Regulates Rates For Passenger-Carrying Automobiles

Gettysburg, Pa., Feb. 18.—Brought face to face with the fact that something must be done to increase the revenue of the borough, the Town Council, at a recent meeting, passed a new ordinance regulating the license fee to be charged all automobiles that haul either passengers or any commodity for pay. Under the new law, a charge of \$5 for each passenger-seating capacity is to be made. This would make a license fee of \$25 a season for a small car and other cars proportionately higher because of a larger seating capacity. The ordinance "as its good feature in that it protects the home jitney. During the past summer, when the soldiers were camped here, many persons from a distance came in and hauled passengers for a few days, making a large sum of money and then left, thus paying a license fee of only a dollar or two. Now they will have to pay the same as the local owner of a car if he wishes to engage in the traffic business, no matter how long he stays. It will also hit the large trucks which come here loaded with people to see the truck is paid for the use of machine, battlefield, provided the owner of the
