

# Reasons for Women and all the Family

## ROTARIANS HAVE LADIES AT LUNCH

### More Than 250 Attend Affair at Board of Trade Building at Noon Today

Members of the Harrisburg Rotary Club entertained their wives and daughters at luncheon today in the auditorium of the Board of Trade building, with more than 250 in attendance.

P. G. Diemel, chairman of the entertainment committee, presided, presenting a bouquet of snapdragons to Mrs. George C. Lumb, wife of the president of the club. The guests included: Frank Fahnestock, president of the newly-formed Kiwanis Club, and the Rev. Dr. Robert Hazen, pastor of Grace Methodist Church, who opened the luncheon with prayer. Each member introduced his guests to the other Rotarians and the program included songs and recitations by Harrisburg artists and a series of musical selections by members of the vaudiville companies at the Music Theatre, whose services were procured through the kindness of Mr. Floyd Hopkins, the manager.

## Substantial Aid Is Received For Volunteer Firemen of the State

"We have received some very substantial aid from the firemen of Pennsylvania in our efforts to run down firebugs and the plan worked out by President Bonniwell and his officers of the State Association will be a great help to us," said State Fire Marshal Port today. It became known yesterday that plans to support the fire marshal's department in the running down of incendiaries, especially those who attack schools or other public buildings or industrial establishments, or who damage fire apparatus or fire hose had been completed by officers of the State Association. At a series of conferences held since the first of the month Judge Eugene C. Bonniwell, of Philadelphia, president of the association, tendered Marshal Port the services of the thousands of members of the firemen's organization, to supplement the work of his own force, which is very limited in numbers. Marshal Port took up various phases of work necessary to be done with chairman of committees and officers of the association and a system has been put into operation which it is believed will help materially in detection of persons who either attempt arson or to injure firehose at fires or while in houses.

Judge Bonniwell and the fire marshal went over the facts adduced concerning school house fires in Philadelphia and blazes in other parts of the state and discussed there cranks or malicious persons and caused injury to fire apparatus. Those stringent measures were urged to be taken by the firemen of the state. Already word has come here of the perfecting of these plans.

The fire marshal's department has been handicapped in investigation of the fires of the last year, when a number which were seriously destructive occurred, by the small force of deputies. All fire chiefs and their officers have been urged to be requested to promptly report all fires and circumstances attending them and the state and firemen will cooperate in following up suspicious of incendiarism and in pushing cases to court.

## ITCHED AND BURNED DAY AND NIGHT

### For Almost a Year, Hair Fell Out, Cuticura Healed.

"My hair began falling out and changed from a shiny black to an ugly dead color. My head itched and burned day and night for almost a year. I thought I had dry dandruff and the humors were getting worse. My hair came out by combing.

"I was told to use Cuticura Soap and Ointment and I did. The first application seemed very soothing so I continued using them. In three months my head was completely healed." (Signed) Miss Sarah Sturt, R. 1, East Earl, Pa., Oct. 3, 1917.

Why not prevent these distressing troubles by making Cuticura your everyday toilet and nursery soap aided by tubs of Ointment as needed.

Send Back Free Mail. Address postcard: "Cuticura, Dept. H, Boston." Sold everywhere. Soap 25c. Ointment 25c and 50c.

## Local Cases Heard by Compensation Referee

Chester W. Cummings, Workmen's Compensation Referee for the Harrisburg district, is hearing today in the Masonic Temple building the claim for compensation filed by dependants of Henry Gains, colored, of 856 North Front street, Steelton, against the Bethlehem Steel Company. The claim petition alleges that Gains was killed January 5 by gas while engaged in blowing flues. The dependants are: Mary Gains, wife of the victim, and Hattie Cole, granddaughter, under 16 years.

The petition of the Harrisburg Railway Company for termination of compensation agreement with Thomas H. Williams, an injured employe, is also being considered today. The Harrisburg Railway Company alleges that a full settlement has been made with Williams by the United States Fidelity and Guaranty Company, insurers for Bethlehem Steel. The claim of the Acme Baking Company, whose automobile is alleged to have caused the accident.

Referee Cummings will hold hearings tomorrow morning in the Chambersburg Courthouse and tomorrow afternoon in the Carlisle Courthouse. At Chambersburg the claim of George A. Hiller, of Carlisle, against the Chambersburg Engineering Company will be held. Hiller claims disability for three months from an injury to four ribs and back affecting lungs and heart, alleged to have been caused by a runaway electric truck on May 15 last.

At Carlisle the claim of John W. Lutz, against the Mason & Hanzer Company, Inc., will be heard. Lutz, a laborer, breaking stone with a sledgehammer, August 27 last, alleges that the sight of his left eye was destroyed by a flying piece of rock.

## THOUSANDS DEAD IN KIEV, CAPITAL

[Continued from First Page.]

Much friction exists among the forces in the Don.

The newspapers report a group of Polish troops is advancing against the Bolsheviks on the northwestern front, and that another force is making an advance in the vicinity of Minsk. Emsign Krylenko, the Bolshevik commander-in-chief, is insisting on the removal of headquarters from Mohilev to Petrograd.

**Bolshevik Holding Suburbs**

Dispatches from Kiev, in the Ukraine, say the city is under control of the Bourgeoisie Rada, although the Bolsheviks were holding the suburbs yesterday. Citizens are hiding in cellars and nois are plaguing. Ukrainian bourgeois troops are being sent to attempt the capture of Poltava.

Bolsheviks have established a staff at Odessa, from which point they are conducting the Ukrainian and Rumanian campaigns. An Odessa dispatch says the Bolsheviks at Odessa have arrested Rumanian officers, as well as a Rumanian committee sent to take up peace negotiations. Subsequently the committee was released and sent back with the warning that the Bolsheviks would kill one Rumanian officer for each Russian soldier killed by Rumanians in Bessarabia.

Telegraphic communication with Petrograd was resumed yesterday after an interruption caused by the cutting of telegraph lines in Finland. Several delayed dispatches received yesterday told of disorders in Russia.

## LOWER RIVER IS CHOKED WITH ICE

[Continued from First Page.]

found for him in the great secondary line that is to back up the fighting men who are to go "over the top."

**Few Totally Unfit**

One Army member to-day declared that a man in the first class had been accepted for military service although he had a set of false teeth. The figures that if the man could eat at home he can eat just as well and perform good work in the secondary line.

When a registrant is completely disqualified he is sent a card notifying him that he is in Class 5, composed of those totally unfit. If he is judged capable of limited service and mightily few there are who cannot do something, he is sent a card by the local board telling him that he is subject to call in class one as soon as the government needs him and this card specifies what work he will likely do.

## Coal-Price Cut to Consumer Promised

Washington, Feb. 18.—Lower prices of coal are promised to the retailer and consumer by the United States fuel administration.

Decision was announced to-day that the prices of coal to retailers will be made the same whether anthracite or bituminous is sold direct by the operators or through jobbers. At present the jobber is permitted to add to the Government price at the mine his commission, running from 15 to 20 cents a ton, mostly 20.

## Telegraphic Communication With Russia Is Resumed

Stockholm, Feb. 18.—Telegraphic communication with Russia was re-established yesterday after ten days' interruption due to the destruction of the cable terminus at Nystad, Finland, by retreating White Guards. Nystad still is in the hands of the Red Guard. There still is no communication with Helsingfors.

## SHELL PLANT TO REOPEN

That part of the Harrisburg Pipe and Pipe Bending Works, which was destroyed by fire recently, throwing 500 men temporarily out of work, has been rebuilt in record time by Austin & Company, of Cleveland, who completed the job in twenty-five days, being ready to turn over the new structure to-morrow. Within twenty-four hours the force will again be making shell cases for U-boat chasers of our Navy. Built of concrete and steel, the new building represents an outlay of \$80,000 the total losses from the fire being estimated at \$25,000, damages mostly to machinery.

## MRS. JENNIE REED

Funeral services for Mrs. Jennie Reed, 71, will be held to-morrow afternoon, at 2 o'clock, at the First Baptist Church, Second and Pine streets. She died Friday afternoon, at the home of Thomas Albright, Anville. She was the widow of the late Addison Reed. The Rev. W. J. Lockhart, pastor of the First Baptist Church, will officiate.

## ANKLE BROKEN

Augustus Donatella, 820 South Second street, suffered a fractured left ankle, Saturday, at the Central Iron and Steel Company. He is in the Harrisburg Hospital. His foot became caught in the feed roll of the machine on which he was working, causing the fracture.

## THE FOUR OF HEARTS

A SERIAL OF YOUTH AND ROMANCE BY VIRGINIA VAN DE WATER

**CHAPTER XVII**  
(Copyright, 1918, Star Co.)

Another silence followed upon Stephen Livingstone's question. At last it was broken by Cynthia's low voice.

"Thank you, Uncle Stephen, for telling me the truth. I must think about what I can do. You are very kind to try to make it easy for me."

She was surprised at her uncle's sudden change of demeanor. "I do not want you to think about what you can do, as you put it. You know very well that it is a pleasure for us to have you here. Dora needs you. She has always needed a sister. We have been glad to take you into our home. You say you are grateful. Then do not think of going from that home to do some work unworthy of the daughter of my only sister."

"You are fitted for no special line, as you very well know. Were you an artist, or a writer, or had you chosen some profession, I might feel differently. But that my niece should be a third or fourth-rate stenographer or typewriter is too much for me to endure. I simply will not have it."

He was stern, and every trace of emotion had left his voice.

"But," Cynthia stammered, "I can write a good hand and a fair letter. I might become a social secretary."

Her uncle gave vent to a harsh laugh. "Indeed you might not!" he declared. "I know enough about what social secretaries must put up with from rich women for me to say that I will not permit that either. Now, my dear," his voice changed again, "do listen to reason. I will tell you what I had not meant to tell you."

"There were some debts your poor father left—things he meant to pay and which you could easily have paid had you inherited the money. I had thought you would inherit. I have paid these. You do not owe a cent in the world."

"Oh!"—Cynthia clasped her hands nervously—"then I am in your debt! I must pay you back."

"Be quiet!" he said gravely. "Hear me out. I loved your mother—my little sister. For her sake I have done the little I have told you of. I am a rich man, Cynthia. It cost me no self-sacrifice to do this. The only sacrifice I demand in return is that you comply with my wishes in this affair. The present time is all that concerns you."

"Do as we want you to do—as our own daughter would do. I hope—and the future will take care of itself. Ah!"—with an exclamation of relief—"here comes Dora; I hear her voice."

**Cynthia Does Not Tell**

Before Cynthia could reply the library door was opened by Dora, followed by Milton Van Saun.

"Hello, you people!" Dora greeted her father and cousin. "What are you sitting here in the dark for? Milton, switch on the lights."

Decision was announced to-day that the prices of coal to retailers will be made the same whether anthracite or bituminous is sold direct by the operators or through jobbers. At present the jobber is permitted to add to the Government price at the mine his commission, running from 15 to 20 cents a ton, mostly 20.

## Patriotic Dishes

**ORANGE OMELET**

Four eggs, four tablespoons powdered sugar, two oranges, half teaspoon salt, two tablespoons butter, two tablespoons orange juice, quarter teaspoon baking powder. Separate yolks from whites, add salt to yolks and beat until thick and lemon colored. Beat whites until stiff and add yolks, baking powder and orange juice. Sprinkle powdered sugar on oranges, which have been sliced lengthwise. Put butter in hot frying pan and pour in omelet mixture. When it has thickened well and is puffed up add the thin slices of one orange. Fold the omelet in half over the oranges. When done place on hot plate with the remaining slices of the orange around it. This is the kind of omelet for which restaurants charge fifty cents a portion.—From the New York Tribune.

## Little Hoarding of Flour Found

[Continued from First Page.]

ing that he will issue no flour cards for the reason that he thinks the citizens of Dauphin county are doing no hoarding.

"I don't think there are any people round here who have more than thirty days' wheat flour supply in their homes," Mr. McCormick said this morning.

**Situation Not Serious**

The wheat situation in Harrisburg and vicinity, Mr. McCormick said, is
