Must Save on Breads

Administrator

Nust Save on Breads Mr. Hoover produced figures show-ing that if present exports are maintained and no further curtail-ment of consumption made in this country, the United States by June 1 will face a twenty-five per cent. de-ficiency in breadstuffs, a ten per cent. deficiency in poet, a lifteen per cent. deficiency in port and port products and a somewhat smaller delicities in dairy products.

Austrians Not to Fight in North; Reluctant to **Continue War Anywhere**

Amsterdam, Feb. 19.—An agree-ment has been reached between Ger-many and Austria-Hungary where-by, in the event of military action being necessary, the German troops will be confined to the frontier of Great Russia, and the Austrians to Ukraine only. This announcement is made in a Vienna dispatch.

London, Feb. 19.—A deep, serious schism has been created between Germany and Austria-Hungary by the termination of the armistice be-tween the Central Powers and Rus-sia and the renewal of a state of war, according to the Copenhagen correspondent of the Exchange Tel-egraph Company.

correspondent of the Exchange Tel-egraph Company. The Austrian press, continues the correspondent, is warning Germany gainst the reopening of hostilities in which Austria does not wish to par-ticipate. The semi-official Fremden-blatt is silent, but the Neue Freie Presse is quoted as pointing out that the Austrian monarchy no longer borders upon Russia and is not, like Germany, compelled to resume war-fare. The only thing Austria might do against its will, says the news-paper, is to protect the free con-nection between the monarchy and the Ukraine.

the Ukraine. Die Zeit, which has intimate con nections with the Austro-Hungarian Foreign Office, is reported by the correspondent as contending that Count Czernin, the Foreign Minis-Count Czernin, the Foreign Minis-ter, can continue to act as a ne-gotiator with the west. "For our monarchy," it says, "the war is in the mai nfinished, and for one of our antagonists it has virtually not be-gun. Millions of thinking people now point to Count Czernin and President Wilson." The article con-cludes with a sentence which the correspondent interprets as being plainly addressed to Germany, read-ing:

FIVE-CENT FARE PER CENT. OF FOOD **ORDINANCE LAW**

HOOVER'S CLAIM Borough Attorneys Contend Government Wants Informa-Authority Rests With

Municipalities

Attorneys for several cities, twen-

Attorneys for several cities, twen-ty or more boroughs and a num-ber of associations and individuals crossed swords to-day before the Public Service Commission on the proposition whether the commission has jurisdiction to decide complaints of increases of trolley fare from five to six cents when a five-cent rate is stipulated in franchise ordinance. The municipalities strongly contend-ed that the commission is without power, a position to which counsel for some of the big traction sys-tems of the state took exception, saying that the situation was one to cope with which the commission was created under "police powers" grant-ed by the constitutional convention. The hearing was opened by the presentation of the views of the counsel for Wikinsburg and a num-ber of other boroughs in Allegheny county, who had field demurrers to Washington, Feb. 19 .- Food co umption in the United States has increased ten per cent per capita since the outbreak of the European war. U-poats destroyed ontween five and seven per cent. of the food sent Herbert Hoover, Food Administra-

tor of the United States, made this public before the House Agricultural Committee in a secret hearing, in which he explained the urgent necessity of passing the food conser-vation bill now pending in the

State draft headquarters has is-sued a warning to all local draft boards to not only speed up the completion of the industrial occu-pation cards, but to use the utmost care in specifying race of the pgr-sons registered. The occupational cards are urgently needed at Wash-ington, say state draft officers, be-cause of the demands for men with special training for Army service. Pennsylvania, they point out, is a state of diversified industries and it is highly important to get the information to the War Department so that calls for them can be made as the necessity arises.
