Life's Problems Are Discussed

"Dear Mrs. Woodrow:
"Having just read your article on

her parents object to her marrying
a man of unsteady habits, I cannot
resist writing you of my own experience, for I am now reaping the results of my marriage to a man, or
rather a spoiled boy, of a similar
kind. I prided myself on being
broadminded and took the stand
that I would tolerate a little drinking at home in order to help him
make good.
"But now, after it has all ended."

"But now, after it has all ended in the divorce court, I am thoroughly convinced that one cannot help a man who will not help himself, and those who want 'help are the ones who have always had some one else bear their responsibilities, until they are soft, inefficient mollycoddles, and as long as any one will lend them a hand they will only lean the hard-er.

er. "Oh, if I could only go back four years! Then I was a happy contented business girl, earning a good salary, and enjoying my work and my home Then I met this man. Like the girl who was writing to you, but his devotion to me won a responsive love in my heart (I smile now at the devotion' when only a short time ago I won my divorce on the grounds of crueity).

"You should read wonderfully well with your rich contralto voice," Milton commented admiringly." "I was wondering"—the girl began, then paused.
"What were you wondering, Cyn?" Dora demanded.
"I was wondering," Cynthia went on, "why I might not read to Mr. Van Saun for a while each day—if he would care to have me do it."
"Oh, my dear!" her aunt exclaimed, while Stephen Livingstone regarded his niece with a sudden suspicion.

Advice to the Lovelorn

LET YOUR MOTHER INVITE HIM EAR MISS FAIRFAX

I have been about with a gentle-man for over a year. We are very fond of each other and have agreed to marry, but are holding off the engagement on account of the war situation. He does not live in my town. Would it be all right for me to ask him to stay over the weekend when he calls?

There is no reason why, on the invitation of your mother or father or even a brother, this friend should not be entertained in your home over the weekend. It is a bad thing to lay too much stress on the fact that one friend is masculine and one feminine. This causes an almost morbid sex consciousness. If, as far as propriety allow, girls were to treat their men friends somewhat as they treat their girl friends, it would really be far better for every one concerned. Of course if you were a girl living alone you could invite a girl friend to spend the weekend with you and the most primitive commonsense recognizes the fact that the same rule does not apply to a man. But either a girl or a man can with perfect propriety visit the family of the other on the invitation of or with the consent of some dignified older member of that family.

VERY DISRESPECTFUL Dear Miss Fairfax:

Dear Miss Fairfax:

Do announcement cards of weddings require sending the party a present?

A certain husband's brother died recently and the following week his wife attended the theater several times. As her husband was in mourning, was that the right thing for her to do She is devoted to her husband's mainly where the man the sending the proofsed and thought it was a lack of refrect dorthed eparted brother. Were they right?

Wedding announcements "demand" nothing in return. The punctiliously proper and courteous, call if an address is given or send at least a note of congratulations. Sending a gift or not sending it is an entirely personal matter. Very often people uses wedding announcements instead of wedding invitations, largely in order to free people from a feeling of obligation in regard to gifts.

I think it was a bit selfish and thoughtless for the wife to attend a theater so shortly after the death of her brother-in-law. I do not believe in claborate periods of mourning the proofs of the world. But naturally the feed not make herself sad and gloomy, it is kinder and more dignified for her not to flaunt in the face of the world her indifference to her husband's sorpow.

membership in the league will be an honor to-day and a pride in years to come.

Every member has an agreement with himself, or it may be with some member of his family, that he will save a bushel of wheat between now and next summer. He will do this by the faithful observance of the food administration's wheatless days and wheatless meals, and by such other saving of wheat as his own ingenuity will invent.

Members in the league will be graded according to the ingenuity the member uses in finding new ways of saving wheat. For this reason women are desired as members on account of their abil.

ity the member uses in finding new ways of saving wheat. For this reason women are desired as members on account of their ability to make appetizing menus.

The league is an auxiliary of the Army of the United States and of the armies of the allies. The victory of these armies is partly dependent on the service and devotion of the members of the Wheat Savers' League.

The purpose of the league lies in the fact that the United States must send to the European allies 90,000,000 bushels of wheat above our normal export during the present season. There is only one place for the wheat to come from and that is the consumers in the United States.

In order that this amount may be shipped every citizen of the country must save from one-quarter to one-third of his normal consumption of wheat.

There will be no meetings of the Wheat Savers' League. No officers will be elected. You will not even have to report the results of your savings. All the duties are in your hands to order and to execute. You will not wear a button, or hang out a flag or display a placard. You may talk about your membership or you may make it a secret society if you wish. But you will be glad you have joined, for membership will make you carry yourself better, and will make you carry vourself better, and help win the war.

POLICE OFFICES CHANGED

Offices at police headquarters have been rearranged to give the police chief a private office, fitted up with new fixtures and carpet, and the captain and lieutenant a refitted office, which they both occupy on different shifts. The clerk to the mayor and the clerk to the mayor and the clerk to the mayor and chief. The basement where hearings are conducted has also been remodeled with the prisoners' bench inclosed in a railing.

Nerves Need Phosphorus Like Muscles Need Food

Says Doctor Who Prescribes Phosphorated Malt to Steady the Nerves, Clear the Brain and Build op Weak, Nervous, Rundown People

Boston, Mass.—"Your nerves need phosphorus like your muscles need food," says Dr. Reid, "and the trouble with most men and women past thirty is they have exhausted their natural supply of phosphorus and find themselves run down, weak and nervous. Often they look strong as if they could do a full day's work, but while they have a certain kind of strength they lack endurance. They also lack decision and find the find they lack endurance.
