here last Thursday, to-day announced in a dispatch from Pittsburgh that plans have been launched to "organ-ize the various counties along thor-oughly political lines and with the head of the ticket selected, to get behind a complete set of Republican candidates for the Legislature." The announcement also says: "The Federation is an inter-party organi-ration and proposes to have no ticket of its own. It will endorse complete sets of Republican and Democratic tickets and thus indicate to their followers of both parties the names of the candidates whom it will be safe to vote for, with the idea of having the national prohibition amendment ratified by the next Leg-islature, O'Nell was selected as the Republican standardbearer because of his long dry record. "No endorsement of a Democratic candidate for Governor was made by the convention because there is no avowedly dry man in the field for this nomination, While in many dis-trites there are some announced can-didates for the Legislature, yet un-der the law petitions for nomination cannot be circulated prior to March End, so the Dry Federation decided to make no legislative endorsements until all the candidates are in the field and then to select the strongest dry candidate of or Governor as well as the legislative candidates of both parties was placed in the hands of a comitee of five which is to be named by the president of the Fed-eration, former Judge William E. Porter, of New Castle, and of which he is to be a member. This commit-te will be appointed shortly and will be ready to make its endorse-ments as soon as all the candidates for Governor and the Legislature are in the field. "It is the plan to have a J. Thomas continued, "that a dele-gation of English and French So-cialists should visit Washington, if the President would receive us, to explain to him that his purposes in the war are our purposes. "The American Army is entering into action in France, and its part will be a growing one. Nevertheless, America has a greater role than that fof its Army.
