

ALLIES MUST WORK TOGETHER TO WIN WAR

Unity of Spirit and Purpose Necessary, Says Member of War Cabinet

London, Thursday, Feb. 21.—Allied co-operation and concentration of all efforts on national salvation are two essential conditions for making use of the resources of the allies, Viscount Milner, member of the War Cabinet, declared in a speech at Plymouth to-day.

"There is but one answer to the German challenge," he said, "and I will not conceal what that answer involves. There are two essential conditions for using our great resources to the full.

"First—More perfect co-ordination of effort by all the allies.

"Second—Maintenance within the borders of each allied nation of a unity of spirit and purpose, suppression of domestic discord, and the concentration of all efforts on one supreme object—national salvation."

The allies, he declared, were fighting for their lives and the existence of the free nations of western Europe until peace negotiations are reached. He said there was too much talk about war aims and President Wilson and Premier Lloyd George had made clear the desire of the allies. Germany was not being fought to deprive her of independence or a fair share of the world's intercourse, "always provided that the same independence, self-determination and right to a place in the sun is secured to all other nations, including the small and the weak, who up to this time have been the victims of German aggression."

GERMAN RULE IN AIR COMES AS BIG SURPRISE TO U. S.

Secretary Baker and Officers Silent on Dispatch From France on Planes

Washington, Feb. 22.—Army officials showed every evidence of surprise yesterday at press dispatches from France telling of German control of the air over the sector of the front held by the American forces. They would make no comment for publication, however, and Secretary Baker also was silent beyond saying that his advices from General Pershing made no mention of such a situation.

Disclosure of the conditions described in the dispatches comes on the heels of Secretary Baker's announcement Wednesday that American-built battleplanes had been shipped to France five months ahead of the original schedule and soon would be ready in quantities.

This statement does not mean that the whole program for the American air fleets is so far ahead, and it is understood that actually it is not far from the schedule one way or the other. The exact status of the program is a carefully guarded secret.

Secretary Baker yesterday said in response to questions about the cable dispatches that any publicity of that nature must come from General Pershing, who alone is able to judge of the military value of the information.

It was obvious around the War Department that there are other elements in the airplane supply situation that it is regarded as unwise to reveal. Mr. Baker specifically refused to sanction discussion as to these.

Just One Application and the Hairs Vanish

(Modes of To-day)
A harmless, yet very effective, treatment is here given for the quick removal of hairy growths: Mix enough powdered delatone and water to cover the undesirable hairs; apply paste and after 2 or 3 minutes remove. Wash the skin and the hairs have vanished. One application usually is sufficient, but to be certain of results, buy the delatone in an original package.

Artillery Duel Lively at French Front Lines; Little Damage Results

With the American Army in France, Feb. 22.—The artillery duel continues night and day, but only slight damage has been done to the American lines. American shells appear to be hitting important enemy positions with regularity, except when a ground haze obscures observation.

Activity in the air has not diminished and numbers of German machines continue to cross the American lines.

A large number of German guns are now opposite the American sector.

President Must Have Enlarged Powers, Declares Senator Colt, in Address

By Associated Press
Providence, R. I., Feb. 22.—Congress will continue to place wide powers and the resources of the nation in the hands of President Wilson, and the country "need have no fear of a dictatorship," Senator Colt, of Rhode Island, declared to-day in an address to members of the state general assembly on the occasion of Washington's birthday.

"Congress realizes the necessity of unity, concentration and co-ordination in time of war," said Senator Colt, "and that to accomplish these ends this President must have enlarged powers."

Plenty of Sugar For Home Canning During Coming Summer Season

Washington, Feb. 22.—Ample supplies of sugar will be available during the coming season, the Food Administration announced last night, to meet the necessary requirements of food manufacturers and for household preserving purposes.

"All manufacturers of essential food products," the Food Administration said, "are advised that they will be able to obtain their full necessary requirements. This applies particularly to the packers of fruit, condensed milk and such vegetables for the preservation of which sugar may be necessary as well as to the housewives for use in preserving purposes. As the car shortage is relieved supplies of sugar will be available for the necessary preservation purposes. Shipments from Cuba are steadily increasing."

Boston Railway Head Willing to Meet Men

By Associated Press
Boston, Feb. 22.—Matthew E. Brush, president of the Boston Elevated Railway, whose \$,000 employees voted last night to strike Monday night unless increased wages and other demands were granted, said today that while there had been no request for a conference, the company was prepared to meet representatives of the men. The Boston Elevated controls all of the subway, elevated and surface lines in the city and suburban lines radiating in every direction.

Mr. Brush called attention to an agreement with the unions to submit all differences to arbitration. This agreement, he said, did not expire until May 1, 1919, but union leaders said the men felt justified in abrogating it because of new conditions brought about by the war.

Rate Increases May Be Approved by R. R. Board

By Associated Press
Washington, Feb. 22.—President Wilson has authorized the Railroad Administration to interest itself in the affairs of trolley, light and power companies through the country whose financial standing may be endangered by increased operating costs. Director General McAdoo has been directed to communicate with local authorities of utilities found in need of assistance, and where it appears necessary increases in fares and rates may be suggested.

This plan is outlined in correspondence between the President and the Director General published today.

ARCHBISHOP'S CONDITION CONSIDERED SERIOUS

By Associated Press
Philadelphia, Feb. 22.—The condition of Archbishop Prendergast, of the Catholic archdiocese of Philadelphia, was reported last night to be grave. He has been ill for about two months. Several times fears for his recovery have been felt, but each time he has rallied.

The prelate is 75 years old.
