

PLANS TO SPEED COAL PRODUCTION

New Chief of Mines Calls For Series of Conferences

Seward F. Button, the new Chief of the State Department of Mines, this week inaugurated a series of conferences with the inspectors of the coal mining districts of the state with a view to speeding up coal production and lessening accidents.

The chief has been in Lackawanna county this week, after having met men in charge of inspections in some of the Luzerne districts and plans to cover the whole anthracite field. Mr. Button has been in active charge of mining and believes that the production can be materially increased. When the anthracite inspections are completed, the chief will go to the bituminous region to make acquaintance of inspectors and operators and to get into closer touch with the mining conditions in that field. These visits will take several weeks.

The new chief is pleased with the many hearty congratulations that are being extended to him from all quarters of the state in connection with his recent appointment. The operators and miners alike are wishing him well and predicting for him a successful administration. The messages that are particularly grateful to him come from the officers of the Temple Coal Company, with which he has been associated for several years, and from his home town, where the church, the Y. M. C. A. and the Miners' Institute and other organizations have held meetings and passed resolutions of a congratulatory and complimentary character.

In Northeast—Dr. Joseph Kalbfus, Secretary of the State Game Commission, has been in northeastern counties this week in connection with game matters and is finding much interest in the movement to close the state to hunting for ruffed grouse.

New Company—The Susquehanna Casting Company, of Wrightsville, has been chartered with \$75,000 capital. Ralph P. Wilton is treasurer. The Farmers' Bank of York was chartered with \$50,000 capital. Advanced Fare Complaints—Anthony Love Ely of Wilkes-Barre, business agent of the Electrical Workers Union and president of the Central Labor Union of Wilkes-Barre, filed a complaint with the Public Service Commission to-day against the increased fares of the Wilkes-Barre Railways Company. A similar complaint signed by City Solicitor Charles E. McHugh was filed by the City of Wilkes-Barre. Jacob A. Stein, of Dorrance Center, complained against the Wilkes-Barre and Hamilton Railway Company, alleging that a consignment of goods was left off for him at Albert Station and that when he got them some articles to the value of \$471 were missing and that the company has failed to give him the money. The City of McKeesport asked the Commission to instruct the Pittsburgh Railway Company to issue rebate tickets for the amount of fare paid in excess of five cents until the present rate

Wife to Blame if Husband Drinks, Says Druggist Brown, of Cleveland, Who Tells Wife What To Do

A New Treatment Given Without the Consent or Knowledge of the Drinker. Cleveland, O.—No wife has a right to blame her husband because he drinks, says Druggist Brown, of Cleveland. It is her fault if she lets him drink and bring unhappiness and poverty to her home and she has no right to complain. A woman can stop a drinking husband in a few weeks for half what he would spend on liquor, so why waste sympathy on a wife who refuses to do it. Druggist Brown also says the right time to stop the drink habit is at its beginning unless you want drink to deepen the financial sensibilities of the husband you love. Begin with the first whiff of liquor on his breath, but do not despair if he has gone from bad to worse until he is rum-soaked through and through. Druggist Brown knows the cure of strong drink because he himself has been a victim. He was rescued from the brink of a drunkard's grave by a loving sister who, after ten years' time, revealed the secret to him. She saved him from drink—rescued him from his own depraved self, by giving him a secret remedy, the formula of an old German chemist. To discharge his debt to her and to help other victims out of the mire and mire he has made the formula public. Any druggist can put it in the hands of any suffering wife, mother, sister or daughter. Just ask the druggist for prepared Tescum powders and drop a powder twice a day in tea, coffee, milk or any other drink. Soon liquor does not taste the

DIES FROM BLOOD POISON

Northumberland, Pa., Feb. 28.—James M. Baker, former superintendent of the large farm on Packer's Island, owned by James C. Packer, a millionaire Sunbury lawyer, died at the George P. Geisinger Memorial Hospital of blood poisoning. He suffered a cut on his hand while butchering a week ago, and the disease rapidly caused his death.

One woman who used this prescription on her husband says: "It is going on the fourth week since he has touched a drop of anything in the form of liquor or used tobacco of any kind. He seems already like a different man. Tescum has gained a wonderful enthusiast in me. I regard it as a Godsend. Just think, I have never seen my husband sober for more than 48 hours in years and now it is going on one month since he had his last drink."

Another one gratefully writes: "I have used Tescum powders on my husband and find it one of the greatest cures in this world. He hasn't taken a drink for almost five weeks and says he never will. My home does not seem like the same place and life seems worth living. I hope thousands gain what I have. This has been a good new year for me without drink in my home."

NOTE—Tescum referred to above, should be used only when it is desirable to destroy all taste for alcoholic drinks of every kind. The wife who approves of drinking in moderation and believes her husband safe should give it only when she sees, as most do in time, that the danger line is near. You take no risk with Tescum, as it is sold in this city under a steelbound money-refund guarantee by J. Nelson Clark and other first-class druggists. They guarantee it to do the work or refund the money.—Advertisement.
