DON'T FUSS WITH MUSTARD PLASTERS!

Musterole Works Without the Blister—Easier, Quicker

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole.

Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of mustard plasters, and will not blister.

Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuritis, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bites, colds of the chest (if often prevents pneumonia).

3c and 6c jars; hospital size \$2.50.

National Convention of Prohibitionists Meets at Chicago

Chicago, March 5.—The national conventions of the Prohibition and the National parties met here to-day to formulate policies for campaigns during the year. The National party was organized here last October by representatives of the former parties, Progressives, Loyal Socialists and Single Taxers. The National and the Prohibition parties have a number of purposes in common, notably national prohibition, woman suffrage and public ownership of public utilities. The question of merging the Prohibition party with the National was expected to be fought out on the floor of the Prohibition convention at the session to-day. Veterans in the Prohibition ranks opposed merger with any other party, while the younger element urged union.

War Gardens Should Be Started in Every Home

Spring is here. How do we know? Why, the Chamber of Commerce, through Shirley B. Watts, garden plot superintendent, sent out its first instructions to-day for Harrisburg to get busy. You may think it a trifle early, with snow still in evidence, but that does not interfere with planting cabbage, lettuce, tomatoes, peppers and egg plants in a sunny window of your home.

Here is what you need—a box six inches by ten inches; some good garden soil, preferably containing one-fourth sand, one-fourth fine rotted organic matter or leaf mold, and one-half fine loam.

Next thing is to sift the soil through a fine sieve and pack in a rather moist condition. Make the furrows one-fourth inch deep and one and one-half inches apart. Sow the seeds at the rate of eight or ten to the inch and cover with soil. A sheet of paper or pane of glass placed over the box will help maintain uniform moisture conditions until germination takes place, when it must be removed. Keep the soil continuously moist before the seeds germinate, and as soon as the seedlings appear, allow the soil to become somewhat dry between waterings so that the growth will be slow, making the plant stocky.

PROHIBITION OF BEER GREATEST ATTACK OF HUN

Saving of Grain by Germans Spells Decisive Victory, Says Hinshaw

By Associated Press Chicago, Ill., March 5.—A demand for immediate, nation-wide prohibition as a war measure was voiced by Virgil G. Hinshaw, chairman of the Prohibition National Committee, in an address opening the thirteenth national convention of that party in Chicago to-day. More than one thousand delegates from all parts of the United States were in attendance.

In part Mr. Hinshaw said: "We want prohibition for the period of the war, but we also want it permanently. We want it in the national constitution. Already seven states have ratified the prohibition amendment, Mississippi, Montana, Kentucky, Virginia, South Carolina, North Dakota, Maryland, two wet and five dry. We will take it for granted that all dry states will ratify. In that event we will have seven more wet states. The wet states which we believe we can win, in fact almost are certain of winning, are Nevada, Wyoming, Florida, Ohio, Minnesota, Missouri and Texas. That makes seven. There are others we should win, namely California, Wisconsin, Delaware, New Jersey and Vermont; that makes five more. Even New York, Massachusetts, Connecticut and Louisiana are by no means hopeless.

"But I repeat once more, the issue is not can we secure ratification of the prohibition constitutional amendment. The issue is will we do it within twelve months or will we allow the matter to be deferred for three or five or even seven years. Do we need to impress upon your mind that the issue is overwhelming. The difference between national prohibition in twelve months and in three years means a waste of at least twelve billion dollars. Also it will mean the loss of a couple hundred thousand lives. It will mean a decrease in the coal output of fifteen per cent. It will mean the waste of enough grain to feed an army of five million soldiers. The difference between national prohibition twelve months from now and three years from now might mean the loss of the conflict between the allies and Germany.

"Germany has gone so far as to prohibit the use of grain for the manufacture of beer. That is the greatest single attack she could have made against the armies of the allies. Let us make a counter-attack by securing war prohibition within ninety days and national constitutional prohibition within twelve months.

"We also have met here to decide among other things, what shall be our relations henceforth to the organization known as the National party. The question, I believe, with us prohibitionists, is, we will accept merger and use in securing more immediate and permanent our original object, or will we merge with the party. The complete merger might mean a more powerful political organization. That is not the sole thing for us to seek. We want the organization to be powerful for the execution of our main purpose."

OLD EIGHTH REGIMENT BAND TRANSFERRED

Word comes from Camp Hancock, Augusta, that the Eighth Regiment Band which played so gayly as the boys left here last summer is about to be merged into a massed band of 100 pieces and located at Camp Wadsworth, N. It will be the business of this tuneful company to cheer up some thousands of New York National Guardsmen who are being organized into pioneer infantry regiments for corps and army troops.
