field army and corps troops not attached to divisions. The replacement detachments also must go forward at an accelerating rate, since American troops are now actually holding a sector of the French front, and men are being killed or wounded in action every day.

The completion of the full program of the War Department without creating any additional divisions probably will absorb in the neighborhood of 600,000 men. The extent to which it has been necessary to increase artillery quotas throughout the Army and to add special units of all sorts has surprised every officer and accounts for the existing shortages to a large extent.

Jennie Smith, Evangelist, Recommends **Bliss Native Herb Tablets** For Constipation

The world's greatest Evangelist among railroad men is Jennie Smith. For over fifty years she has labored among them, preaching the light of truth. Although seventy-five years old, she is still actively engaged in this good work. She attributes her good health to the regular use of Bliss Native Herb Tablets, which she recommends to every railroad man who suffers from constipation, kidney or liver trouble.

Eternal vigilance is not only the price of liberty but it is also necessary to good health. Nature gives yet the means in the form of roots, bark and herbs, which are compounded in scientific proportions in Bliss Native Herb Tablets. For over
