Washington, March 7.—Continued improvement of health conditions in the Army camps and cantonments in the United States is shown in the detailed report of the Surgeon General for the week ending March 1. The death rate—6.6 per 1,000—is the lowest record since November 16, 1917. Pneumonia continued to decline in all camps, the report says.

Old French **Beauty Secret**

Beauty Secret

Mile. De Lores, the famous French actress, who recently arrived in this country and who is now in her 65th year, has astonished everyone who has seen her, by her exquisite complexion and clear, smooth skin which is not marred by a single line or wrinkle. When asked to explain how she had retained her marvelous girlish beauty, she replied that she had allways practiced one of the oldest of French beauty secrets: a secret which for years was jealously guarded by the court ladies of Napoleon the First. It consists of laying a warm cloth on the face each night before retiring for about one minute and then when the cloth is removed, a generous amount of ordinary am-o-nized cocoa cream should be applied over the entire face and neck, massage it gently into the skin with the finger tips for about two minutes, then wipe off the surplus with a soft, dry cloth. Mile. De Lores says that any American woman who has wrinkles and large pores or flabby, loose skin, can easily and quickly overcome these destroyers of beauty by the use of this simple yet delightful and natural Beautifier, which is inexpensive and can be found at almost any good druggist's.

The above, coming as it does from such a connoisseur of beauty, should appeal strongly to every lady who appreciates what a fair face means to the gentler sex.
