Washing Won't Rid Head Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Believe me, Y. M. C. A. is a wonderful thing. I do not believe the people back home can appreciate its value to a soldier's life. There is a hut about five miles from here and we walk over very often. They have always had good speakers. Sometimes we can buy American tobacco and cigars and they always have good things to eat on sale. They have a library, billiard room and places where we can write. They furnish us with all the paper and envelopes. The Y. M. C. A. deserves the unstinted support of American's entire population. The Red Cross is another wonderful institution, but unless one has been wounded and treated by them one cannot realize its value. Keep up the good work at home and we will try to do our part.

Ample Supply of Water Being Pumped at Plant

Steelton to-day was getting its normal supply of water. Slow sand filters at the filter station have been repaired and after midnight the works were pumping its normal supply. At 11 o'clock the lines of hose from the Harrisburg main was disconnected and the borough depended on its own supply for the first time this week.

The slow sand filters were repaired and will get better as the weather becomes warmer, in the opinion of O. P. Baskin, superintendent of the Borough Water Department. The Citizen and Baldwin fire pumps made remarkable records during the shortage. The engines alternated in pumping water from the Harrisburg lines to the borough main. They pumped continuously for twelve hours.

culture Patton's request to local draft boards to check up draft registrants granted deferred classification because of agricultural work on the farms and his notice that drafted men enjoying such classification should resume farming when the season opens were at instance of a number of boards. Mr. Patton was notified by officers of boards in northern counties that men granted deferred classification because of farming had gone to industrial centers or to work on railroads. "It is essential that such persons go back to the farm. The farmers need all the labor they can get and if the men granted deferred classification do not go back to farms they ought to be put into class 1A without loss of time," said Mr. Patton.

Compensation Cases—The State Compensation Board in a decision handed down to-day allows compensation to Tony Pylat, an employe of the Forged Steel Wheel Company. Butler, who fell and broke his leg while swinging on some chains used to handle billets. The company appealed on the ground that the man was engaged in "horse play," but the Board ruled in favor of the man. "His conduct at most could amount to no more than contributory negligence, which is no defense to a claim for compensation." The Board refused to rule that James T. Ward, Windber, was dependent on earnings of a son killed in coal mines, having found that he had money in a bank and had subscribed to \$300 of Liberty bonds. A new hearing was granted in the claim of W. H. Telephone companies increasing rates were Berks and Lehigh, Meadville, Albion, Hopewell Independent, of Beaver county; Edinboro, Economy Stock, of Meyersdale, and Mahoning Rural, of Schuylkill and Carbon counties.

PERSONS OF ALL FAITHS FRIENDS OF FATHER JOHNSON—That very enterprising organization, the Hassett Club, calls attention to the fact that the purse of \$480 presented to Father T. B. Johnson on Tuesday evening by little Miss Sullivan at the great meeting in Cathedral Hall was contributed by Father Johnson's friends in all the parishes, as well as by his non-Catholic friends. It was this unusual tribute which moved Father Johnson to speak so feelingly of his children and his sorrow at leaving it all to take up work in Cornwall.

When the Hassett Club began to collect money for the purse it discovered that Father Johnson had a vast number of friends who were not Catholics and many of these asked to contribute. The loving cup which was presented by Edward Soubrier represented exclusively contributions by the Hassett basketball teams of 1917-18. They were beautifully engraved with Father Johnson's name and the names of the players.
