

National Party Urges Immediate Passage of Suffrage Amendment

Chicago, March 8.—Following the opening of the National party convention to-day telegrams were sent to President Wilson and United States Senators urging immediate passage of the Susan B. Anthony suffrage amendment. It was planned to send a message to the British labor party suggesting a representative be sent to this country to campaign for the National party. Election officers were expected to consume much of the day's session of the convention, the list as tentatively arranged including fifty or more committeemen, directors, national committeemen and chairman.

FOR SORE THROAT, COLD ON CHEST

Mustardine Subdues the Inflammation and Eases the Soreness Quicker Than Anything Else on Earth

School of Commerce AND Harrisburg Business College

dred delegates who bolted the Prohibition convention the new National party came into real being yesterday by the adoption of a platform. The original hundred or more delegates were composed of Socialists, Single Taxers, Suffragists, Social Democrats and Progressives. The platform on which these elements united is long and includes most of the cardinal principles for which the varied elements composing the new party stood as separate units.

Extension of the federal loan law is among the important legislation concerning farmers which is advocated. Advance loans upon crops or products in storage, government insurance of farms and stock, Federal inspection of farm products at terminals and untaxing of all farm equipment and measures to prevent the holding of large tracts of land idle are included.

Limitation of immigration, shortening of working hours, governmental insurance, more rigorous inspection of factories and working places, adequate enforcement of child labor laws, are some of the things urged in the labor plank. It is also indicated that the government forbid interstate shipments of articles made by children, women employed more than eight hours a day or six days a week, convicts under private contract or persons employed in unimportant services of mines. Abolition of contract prison labor and the honor system in prisons is advocated.

Other conditions advocated are freedom of speech both by word or mouth and by printed matter, the short ballot in state and municipal elections, right of absentee citizens to vote by affidavit, public ownership of public utilities and extension of the postal and parcel post systems.

Virtually the only argument over the platform came on the question of whether negroes should be specified in the suffrage plank and whether governmental insurance of laborers should be compulsory. A brilliant speech by John Spargo, of Vermont, kept the word "negro" in the first mentioned plank and it was decided not to urge compulsory insurance.

Curious About M—L—?

It stands for the Best Cold Cough and Catarrh Medicine Ever Discovered, Which is Mentho Laxene

Mentho-Laxene has been on the market for many years. It is a concentrated compound of healing ingredients, curative extracts to be mixed at home with granulated sugar syrup—no pin—or it may be taken in doses of ten drops in "raw" state by those who do not like sweet syrup.

ROTARIANS MEET FOR CONFERENCE

Harrisburg Sends Two Score Delegates to District Convention

Lancaster, March 8.—Rotarians of Pennsylvania, Maryland and the district of Columbia are holding their annual district conference here to-day. Among those present are a party of 37 Rotarians and their wives of Harrisburg, one of the largest delegations from any city.

Much of the time of the delegates was taken up with a consideration of war work and reports of the various clubs as to what Rotary is doing to help win the war. All of the clubs have been active, few more so than that of Harrisburg which is among the most energetic and enterprising of any in the east.

During the morning Captain George F. Lumb, president of the Harrisburg Club, distributed cards on one side of which was printed the weekly and monthly doings of that organization and on the other this host for Harrisburg:

OVER THE TOP I have been twice around the world and from the rock bound coast of Maine to the sunny slopes of California, but you could not drive me out of Harrisburg with a club! Why? It is the capital of the greatest state in the Union—has more parks, paved streets, live businessmen and good neighbors than any city of its size in the United States, is "busting wide open" with PATRIOTISM and radiates the spirit of ROTARY.

GEORGE F. LUMB, Harrisburg Rotary Club. Come and See Us. The ladies are being entertained by the ladies of the Lancaster Club and the meetings will conclude with a joint social gathering this evening.

Must Conserve More Wheat to Meet Demand of Allies

Washington, March 8.—All exceptions to the Food Administration rule requiring the purchase of an equal amount of substitutes with each purchase of wheat flour were revoked yesterday because of the necessity of conserving wheat for the Allies. The entire country thus is put on a parity in regard to buying of wheat flour. Exceptions to the rule had been allowed in certain localities where substitutes are little known and hard to obtain.

Increased demands for breadstuffs from the Allies announced several days ago, when the Food Administration abolished the needless meat and pork rationing, as it was deemed more important to save the grain than the meat.

HUN HORRORS IN BELGIUM BEYOND DESCRIPTION

Brussels Professor Tells of Plan to Blot Out Nation

A recognized authority on Belgian affairs, the Rev. Dr. Henri Anet, teacher of social sciences in Brussels University, told a graphic story last night at the Protestant Episcopal Sea House of just what the Germans have done to poor Belgium. After a brief introduction by Bishop Darlington, this patient Belgian scholar and missionary arose and gave his straightforward story in a way that made a deeper impression upon the hearers than all they have read.

His narratives of brutality show that barbarism of the Germans is not confined to the "kultur" class and the military, but that the blood-thirsty passions are common to nearly all soldiers. On one occasion 500 Belgians were jammed in an apartment and smothered to death because they refused to promise to work for the Germans. He gave details of individual outrages which made the hearers quiver with indignation.

Dr. Anet said that without any doubt whatever it was, and still is, Germany's determination to absolutely blot out the Belgian nation by starvation and murder by quicker methods. Nevertheless, the Belgian army is in prime shape and the nation resolute in its purpose never to make peace. The reconstruction of this country after the war, he showed, will be a colossal task, for there is practically nothing left standing.

At the present time coffee sells for \$5 a pound; tea costs \$10 a pound; rice, \$2; eggs, \$1.50 a dozen, and milk is 30 cents a quart, but almost impossible to get.

Church Quits German For "Children's Sake"

York, Pa., March 8.—The council of Christ Lutheran Church has decided to suspend the services in the German language. For the last 100 years German and English services have been conducted in this church, which is the oldest Lutheran congregation west of the Susquehanna river.

Some months ago the pastor, the Rev. Dr. G. Wendler, who has since been registered as an enemy alien, declared that services would be conducted in German in Christ Lutheran Church as long as he was the minister in charge. The resolution which suspends the German services states that action is taken "for the best interests of the church and Sunday school, and especially the younger generation."

UNIQUE RULING ON MAN'S HANDS

Compensation Board Holds That Altoona Worker Can Not Make Whole Claim

The State Compensation Board has declined to rule that Jerry Willis, of Altoona, a claimant against the Altoona Coal and Coke Co., sustained a total loss of a hand when he had only part of a hand to lose.

Willis was injured thirty years ago and lost four fingers at the knuckle joint and his thumb at his first joint, but developed much dexterity with what remained and worked as carpenter and in other occupations. Last year as a result of an accident the remainder of his thumb and the palm of the injured hand were amputated. The Board has modified the award made so that it will terminate when Willis "shall have acquired an earning capacity," but allowed a fee for the surgical operation.

In the case of Jurdana vs. Mrozek the Board says it can not deny compensation to an alien whose country, Austria, is at war with the United States, but certifies the case to the custody of alien property. Compensation is allowed to the widow of Calvin C. Yales, Westville, whose husband was killed by a stroke of lightning while seeking shelter from a storm which arose during a burch and Shawmut railroad. It is \$5 a week and was in the course of his employment at the time.

A rehearing has been granted in the case of William Garner vs. DuPont Co., and the following appeals are dismissed: George vs. Cusey, Pittsburgh; Rose May vs. Ingwako vs. Susquehanna Coal Co.; Wiconisco; Feltenberger vs. Union Ice Co.; McKeesport; Crosso vs. Gaffney Wood Products Co.; Gletton, and Morris Cohen vs. Rottman & Brown, Philadelphia.

Tractors Due Soon.—If arrangements for the purchase of tractors to be completed, some of the State Defense Commission will be put into service by the Department of Agriculture by March 15. Orders will be issued to the State farms manufacturing them and delivery is promised next week. The tractors will be sent out on a schedule which is to be made up within a few days and will be subject to applications for the use of tractors. The mechanics are being enlisted.

Papers Filed.—No nominating petitions were filed in the Capitol to-day although it is a week since circulation began.

Post Gets Ready.—Daily and Food Commissioner James Post to-day got ready for the prosecution of the antique poultry hoarders in Philadelphia. He went over the situation with Deputy Attorney General Hargett and will start making arrests soon if the poultry is not withdrawn from markets.

Yerger Leaves.—Oliver Yerger, of Potstown, has learned that it is expensive to disregard orders of the Public Service Commission. The commission ordered Yerger to stop running a motor truck jitney along the lines of a trolley company. Yerger ran anyway. Prosecution was started at Norristown and it cost \$100. Yerger has stopped.

Will Reclassify Men of Next Draft in Groups As to Physical Condition

Washington, March 8.—Reclassification according to physical condition of the men called in the next army draft is required in revised instructions for Medical Advisory Boards, which are being sent to local boards throughout the country. The new regulations, made public last night, require that every man summoned shall be placed in one of these classes:

- (A) Acceptable for general military service.
(B) Acceptable for general military service after being cured of remediable defect.
(C) Acceptable for special or limited military service in a specified capacity or occupation.
(D) Rejected and exempted from any military service.

It is the intention of the Provost Marshal General to provide later for further investigation and classification of the men acceptable for limited or special service, so that a record may be made of the sort of work each man can do without endangering his health.

Under the new regulations many ailments and defects which formerly gained exemption for drafted men will result only in their being listed in group B. Such men, if they choose, will have the privilege of obtaining the services of military physicians in the effort to remove the defect. If they have not taken this opportunity within a stated period they will be called into service and sent to a cantonment base hospital; reconstruction or civil hospital, as designated by the Surgeon General.

Delaware Co. Citizens Ask Wilson to Stop Rum Making

Media, Pa., March 8.—At a mass meeting of the citizens of Delaware county held at Media, resolutions were unanimously adopted calling upon President Wilson to exercise the authority vested in him by Congress to issue an order prohibiting both the manufacture and sale of all intoxicating beverages for the duration of the war.

The Senate of the United States and the House of Representatives are asked without delay to enact a law prohibiting permanently the manufacture and sale of all intoxicating beverages. "In the raising and transportation of the necessary grains and other foodstuffs for the making of intoxicating beverages," says the resolutions, "hundreds of thousands of acres of good land cultivated, all of which might be employed to help win the war instead of helping to produce that which destroys both food and fuel and men."

FIREMEN TO ATTEND SERVICES IN BODY

The Shamrock Fire Company will attend the special service at the Bethany Presbyterian Church, Cameron and Cumberland streets, Sunday evening at 7.30. The company will meet at the enginehouse at 7 o'clock in full uniform to proceed to the church in a body. The meeting will be addressed by Mrs. John Y. Boyd on the subject, "The Present War in the Light of Prophecy." Special music has been arranged and the firemen of other companies have been invited.

Auto Production to Be Reduced 30 Per Cent.

New York, March 8.—A curtailment of 30 per cent. in automobile production for the present year was the most important action taken by the members of the National Automobile Chamber of Commerce at their semiannual meeting yesterday. Many of the large plants have already curtailed their production of motor vehicles to a larger extent, in view of taking over the munitions work for the government.

Open-Air Exercise and Carter's Little Liver Pills are two splendid things For Constipation. If you can't get all the exercise you should have, its all the more important that you have the other tried-and-true remedy for a torpid liver and bowels which don't act freely and naturally. Take one pill every night; more only when you're sure its necessary. Genuine bears signature Brewster. CHALKY, COLORLESS COMPLEXIONS NEED CARTER'S IRON PILLS

Doctor said, "Bio-feren had done wonders for her." Case 1724—School teacher; Residence—Kentucky; severe operation; left her weak, anemic, nervous; low vitality. Physician recommended Bio-feren. Two weeks' treatment showed remarkable improvement. Doctor reported, "Bio-feren had done wonders for her." Another case—Pennsylvanian, reports: "I have taken about one-half of the Bio-feren pellets and must confess that I feel like new." A Kentuckian woman says: "I have taken Bio-feren regularly and feel much benefited. I can use my arms much better. However, can not get my hands to my head sufficiently to comb my hair, but I feel that I will soon be able to do that." You want the vigorous health and ruddy beauty that is dependent on strength, nerves and red blood. Everybody does. Read those reports above, again. You, too, if you are dragged down in health and strength because of overwork, worry, nerves, and similar causes can rebuild your health and strength with Bio-feren. It is not a stimulant. It is a builder—a builder of better health. Bio-feren contains some of the best ingredients known to the medical world, and is indicated for the treatment of run-down conditions due to overwork, worry, anæmia, melancholia, nervous debility, debility following infectious diseases, convalescence from acute fevers, etc. There is no secret nor mystery about Bio-feren. Every package shows the elements it contains. Ask your physician about it, or have him write and we will send him complete formula. And don't forget that Bio-feren is sold only on condition that you will return the empty package and allow us to refund your purchase price if, for any reason, you are not fully satisfied. Please bear that in mind for it is very important. Bio-feren sells at \$1.00 for a large package. Your druggist can supply you or we will send it direct upon receipt of \$1.00; six packages for \$5.00; should you have any trouble in securing it, The Serravallo Remedies Company, Masonic Temple, Cincinnati, Ohio.
