

### KEYSTONE APPLE HAS BIG FUTURE

State Agricultural Expert Says That There Is a Chance if It Is Cared For

Many acres of good Pennsylvania land are now occupied by unprofitable apple orchards that return to the owners scarcely one-fourth of the value of an ordinary farm crop...

Prof. J. G. Sanders, Economic Zoologist of the Pennsylvania Department of Agriculture, who is making a campaign for better Pennsylvania apples, says:

"Apple trees planted in orchard arrangement will grow and ultimately produce a limited amount of inferior fruit without care or attention, but no one could designate such a collection of unpruned, neglected trees as a profitable undertaking...

"Pennsylvania ranks second among the states in quantity of apples grown (New York leading), but in market quality several other states surpass this state. It has been estimated that less than one-tenth of Pennsylvania's apples are grown in commercial orchards...

"The average farm orchard apples coming to market badly deformed, wormy and scabby immediately lower the local prices of this commodity, so that they scarcely return enough to the grower to warrant picking and marketing...

"It is a curious fact that most of our commercial apple orchards producing good fruit market their crops outside of Pennsylvania, and our local markets are supplied from New York, Virginia, West Virginia, Maryland and the extreme western states...

"An average crop of a good variety of trees in full bearing will return as much net profit as five acres of wheat, corn or oats, yet the farmer does not have time to care for his orchard...

"Co-operative orchard spraying in communities would solve many of the questions which puzzle the average owner of a farm orchard who does not possess a spray outfit and is not inclined to advance sufficient money for a good equipment to spray his large trees...

### U. S. Patrol of Five Outfights Enemy Force

By Associated Press. With the American Army in France, Wednesday, March 6.—An American patrol of five men three nights ago outfought an enemy patrol of ten men. They met in No. Man's Land and the Americans opened fire. The Germans replied and for three minutes there was a sharp skirmish. The enemy retreated, leaving two dead and two wounded Bavarians, who were made prisoners. The American patrol returned to its own line without having received a scratch.

Officers report that despite the fact that the Germans fired many shells to prepare the way for a raid, not a single enemy soldier got into position to carry it out, the American automatic rifles, machine guns and rifles stopping the Germans in their tracks.

### Can Tax Buildings on Forestry Lands

Buildings erected upon State Forest lands under lease with the state and which may be removed from the land at the expiration of the lease are subject to taxation for county and township purposes according to an

The opinion will govern a number of questions which have arisen in counties where the state owns lands. H. W. Dreher was to-day appointed Justice of the Peace for Lower Macungie township, Lehigh county. David P. McNeal, Lancaster, and W. E. Schofield, Philadelphia, have

been appointed second lieutenants in the Reserve Militia and assigned as battalion quartermasters and commissaries. the Imperial Trans-Atlantic Expedition of 1914-16. Lieutenant Wild was in charge of the party which was left on Elephant Island for several months while Lieutenant Shackleton sought relief. MONEY IN PHILIPPINE POTATOES. Manila, P. I.—Owing to the fact that an initial outlay of \$12.50 in

seed potatoes last year brought a Filipino farmer in Tayabas province a return of \$600, it is expected that this year will see a bumper potato crop in that province. The successful farmer has just planted thirty crates of seed potatoes for his next crop, and his neighbors are beginning to emulate his example.
