WORK STARTS ON SOLDIER CAMP

Engineer Regiment Expected to Arrive at Gettysburg Battlefield Thursday

Gettysburg, Pa., March 12.—Active work in the preparations for the reopening of the camp of United States soldiers here began yesterday. For several weeks work on a small scale has been going on on the grounds, such as the general cleaning up of the place and the hauling of earth and ashes for fixing and repairing roads that were damaged during the winter. An officer in charge of the reconstruction of the camp arrived Sunday evening and with his arrival a force of men started to work next morning. Just what is to be done has not been made known, but indications point to the truth of the rumor that has been going the rounds for some time that barracks are to be built and the place given the appearance of a permanent camp. Simple Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.—Adv.

loads of lumber, containing many thousands of feet, have been bought and ordered delivered to the camp as soon as possible, one lumber dealer in town having his entire stock of lumber such as is generally used in the building of camps bought and many more carloads ordered. The first detachment of troops, a tank engineering regiment or two, is scheduled to arrive Thursday of this week, and how many more will come is a Government secret. The arrival of the troops is anxiously awaited, for it is said they will bring with them one or two of the big battle tanks used in the war for practice. It is expected that with the arrival of this first detachment the others will soon follow and the site of last year's camp will be completely filled and ground not heretofore used for camp purposes taken over. Last summer 15,000 men were in camp here.

Advertisement for Vim Delivery Car. Text: 'Does Your Merchant Run His Delivery Service for Your Benefit-Or for the Repair Man's? THIS problem of merchandise delivery is being studied pretty carefully now-a-days by the storekeepers who want to keep customers. They are the men who send your goods home in real delivery cars, built for delivery and nothing but delivery-Vim Delivery Cars. Why? Because the modern merchant realizes that the cost of delivering an article of merchandise is a matter of dollars and cents to you and to himself. When he uses a converted pleasure car he knows that gasoline, tires, repairs, will come high—because that sort of a "delivery" car is not designed to handle dead-weight loads over all kinds of roads—to start often, stop often and run ten, fifteen or eighteen hours a day if necessary. THAT sort of delivery costs too much—it adds too much to the prices you have to pay. The thoughtful merchant wants a car that will save him money and serve you efficiently. He finds it in the Vim Delivery Car—built only for merchandise delivery without a pleasure car part in its whole sturdy makeup. The Vim is designed on a thorough knowledge of the delivery needs of a hundred different lines of trade. When a storekeeper buys a VIM he buys the service that ought to go with motor delivery. The VIM Sales and Service Station in this city insures his getting that service. Free inspection every two weeks for the first three months. After that once a month—whether he needs it or not. Every VIM owner has the full benefit of our research department and the help of our delivery experts. If he uses them he must save money. 25,000 merchants now use VIM Delivery Cars. They are paying for themselves out of earnings. Deferred Payment Plan makes it easy to buy a VIM. ANDREW REDMOND, Distributor Third and Reily Streets Harrisburg, Pa. BOTH PHONES'.
