WEDNESDAY, MARCH 13, 1918

As soon as a man becomes satisfied with himself and what he has done, he has ceased to improve and has begun to degenerate.—GEORGE LLOYD.

GOOD DIPLOMACY

President Wilson apparently waited deliberately for the right moment to make his message of encouragement to the Russian government count for most.

ONE REASON

Why are we fighting the Kaiser? Here's one reason. The Associated Press dispatches from Holland the other day brought the story of the death of Adolph Friedrich, a German nobleman.

NO TIME TO TALK PEACE

BONAR LAW in his address before the House of Commons the other day, among other things, said: To me all this meticulous talk about what Von Hertling (the German Chancellor) means is simply ridiculous.

PRUSSIAN PIFFLE

Of all the egotistical tommyrot with which the royal popinjays of the ages have been wont to regale their admiring subjects the murdery utterances of Wilhelm the Murderer—with respect to happenings in Russia—are the most ridiculous.

DRAFT REGULATIONS

CAREFUL reading of the new draft regulations would indicate that they were framed only after the most careful consideration of all interests.

with the war," says Mr. Hoover, and evidently those in charge of the draft believe it to be true, for they have been careful to eliminate as far as possible the farmer from military duty, at least during the coming summer and fall.

This is wisdom. We are avoiding the pitfalls into which all the warring nations, not omitting even well-organized Germany, fell at the beginning of the war.

The war has become a great engineering enterprise. We shall win it only as we apply to it the intelligence, force, ingenuity and enterprise that have made America a leader in the world of industry and business.

The "dry" workers are moving along proper lines when they urge the enrollment or registration of all voters favoring prohibition.

LABOR NOTES

Bothwell (Scotland) Parish School Board has granted to all the teachers in its employ a flat increase of \$99 per annum.

THE PROHIBITION ISSUE

Senator Sprout sees the signs of the times and links his candidacy for the Republican nomination with the cause of prohibition.

ALL FOR AMENDMENT

If all the parties in the state shall declare in favor of the ratification of the prohibition amendment, it is the duty of the candidates for Governor to be pledged to support of the amendment.

EDITORIAL COMMENT

King George, in his message to Parliament, speaks of "my army," "my dominions," "my empire," and "my Allies," which gives the impression that Queen Mary must have come from home.—Seattle Post-Intelligencer.

OLD-TIME PRICES

Ninety-three years ago (1825) veal was 4 cents a pound; beef, 2 per 100; butter, 6 cents; coffee, 3 cents; eighteen cigars cost 16 cents, and whisky sold for 25 cents a gallon.

THE BETTER WAY.

"I'll sue him for alienating your affections." "Why don't you just get out an injunction against him?"

OR GOES WITHOUT.

Maude—Oh, dear! I wonder who puts up the price of things? Harry—The person who wants them.

Politics in Pennsylvania

By the Ex-Committeeman

Declarations that signs indicate that the next Pennsylvania Legislature will be "dry" have been made by a number of the newspapers of the state, the Philadelphia Evening Telegraph expressing its belief in that such a situation will be found when the lawmakers gather in Harrisburg next January.

Some of the Philadelphia newspapers and clergymen insist that Senator Sprout must be more definite in his candidates' every district than he has been, the Public Ledger and the Rev. Dr. C. F. Swift, of the Anti-Saloon League, being among the others.

This weather is wonderful—real June weather.
